The Cats Be Unemployed Kristin D. Butler, 2018-01-11 The Cats Be Unemployed A Millennial's Topsy-Turvy Chase for Gainful Employment; or, A Generation's Catalog of Conundrums When we are young and un(der)employed, we may find ourselves in desperate or humorous situations trying to chase some cash. We become curious about ourselves and our society and question what it really means to be an "adult." We begin to compare ourselves to others...or to cats: living back at home, sleeping all day, going crazy, not wearing pants, pawing at that mouse. We are always on the hunt. We are constantly put in boxes. We are frustrated by closed doors. The Cats Be Unemployed takes you through one Millennial's topsy-turvy chase to find gainful employment after cat walking right into the Great Recession. Kristin's twenties are spent precariously enduring unemployment five times within a six year span, while fighting through bait and switch scams, unreliable jobs and gig work, questionable policies, rocky relationships, and her own "quarter life crisis." Through a collection of essays combining personal stories, extensive research, and humor, she examines the socioeconomic landscape this generation lives with, but has the potential to change. She provides insightful analysis on disconnects that surround education, health care, pay rates, company culture, and our perceptions versus realities of the working world. Join Kristin in an eye-opening discovery of the catalog of conundrums aspiring adults face after graduation. The Cats Be Unemployed reflects on and examines socioeconomic issues that aspiring adults encounter constantly:

- Grievances and hilarities of being un(der)employed •

Disconnects between education and the actualities of the workplace • Counterproductive company cultures • Scams that target the vulnerable • Company drug testing • Stagnating job growth, creation and pay rates • Effects on relationships when lost and broke • Health care options and dilemmas • Frustrations when working with recruiters • Kooky living situations • Coming of age with ever-changing technology and social media • The “Quarter Life Crisis”

Jobs, Earnings, and Employment Growth Policies in the United States John D. Kasarda,2012-02-12 John D. Kasarda By all accounts, the United States has led the world in job creation. During the past 20 years, its economy added nearly 40 million

jobs while the combined European Economic Community added none. Since 1983 alone, the U. S. generated more than 15 million jobs and its unemployment rate dropped from 7.5 percent to approximately 5 percent while the unemployment rate in much of western Europe climbed to double digits. Even Japan's job creation record pales in comparison to the United States'. with its annual employment growth rate less than half that of the United States over the past 15 years (0.8 percent vs. 2 percent.) Yet, as the U. S. economy has been churning out millions of jobs annually, conflicting views and heated debates have emerged regarding the quality of these new jobs and its implications for standards of living and U. S. economic competitiveness. Many argue that the great American job machine is a mirage or grand illusion. Rather than adding productive, secure, well-paying jobs, most new employment, critics contend, consists of poverty level, dead-end, service sector jobs that contribute little or nothing to the nation's productivity and international competitiveness. Much of the blame is placed on Reagan-Bush policies that critics say undermine labor unions, encourage wasteful corporate restructuring, foster exploitative labor practices, and reduce fiscal support for education and needed social services.

Voice and Vocation Maria Kim,2021-05-07 For many people steeped in homelessness and poverty, the worst day is every day; and so, before we do the heavy lifting of getting back to work, we may first need to find a way to get back to hope. For 30 years, Cara Collective has been in the business of creating hope, jobs, and opportunity so that the world can see what they see: the limitless talent pool in our communities most affected by poverty. Their unique approach to workforce development -

shifting perspectives of jobseekers on what's possible for the future and shifting perspectives of employers on what talent truly looks like - has resulted in placing more than 7,300 people into gainful employment, creating a ripple effect in families and communities in the process. Today, Cara Collective - through their various programs and businesses - is fueling a courageous national movement to eradicate relational and financial poverty. In this book, Maria Kim offers a deep dive into the programming, practices, and philosophies that shape Cara's mission - while also sharing the stories that celebrate successes and analyze failures the organization has seen in its three decades. Voice and Vocation is a guide for workforce practitioners, community leaders, employers, activists, and social innovators to build a more inclusive economy by unlocking the power and purpose in our most overlooked talent. As they say at Cara, let's get to work!

Affirmative Action and the University Kul B. Rai, John W. Critzer, 2000-01-01 Affirmative Action and the University is the only full-length study to examine the impact of affirmative action on all higher education hiring practices. Drawing on data provided by the Equal Employment Opportunity Commission and the U.S. Department of Education's National Center for Education Statistics, the authors summarize, track, and evaluate changes in the gender and ethnic makeup of academic and nonacademic employees at private and public colleges and universities from the late 1970s through the mid-1990s. Separate chapters assess changes in employment opportunities for white women, blacks, Asians, Hispanics, and Native Americans. The authors look at the extent to which a two-tier employment system exists. In such a system minorities and women are more likely to make their greatest gains in non-elite positions rather than in faculty and administrative positions. The authors also examine differences in hiring practices between public and private colleges and universities.

All I Want Is a Job! Mary Gatta, 2014-04-02 In All I Want Is a Job!, Mary Gatta puts a human face on workforce development policy. An ethnographic sociologist, Gatta went undercover, posing as a client in a New Jersey One-Stop Career Center. One-Stop Centers, developed as part of the federal Workforce Investment Act, are supposed to be an unemployed worker's go-to resource on the way to re-employment. But, how well do these centers function? With swarms of new clients coming through their doors, are they fit for the task of pairing America's workforce with new jobs? Weaving together her own account with interviews of jobless women and caseworkers, Gatta offers a revealing glimpse of the toll that unemployment takes and the realities of social policy. Women—both educated and unskilled—are particularly vulnerable in the current economy. Since they are routinely paid less than their male counterparts, economic security is even harder for them to grasp. And, women are more easily tracked into available, low-wage work in sectors such as retail or food service. Originally designed to pair job-ready workers with available openings, the current system is ill fitted for diverse clients who are seeking gainful employment. Even if One-Stops were better suited to the needs of these workers, good jobs are scarce in the wake of the Great Recession. In spite of these pitfalls, Gatta saw hope and a sense of empowerment in clients who got intensive career counseling, new jobs, and social support. Drawing together tales from the frontlines, she highlights the promise and

weaknesses of One-Stop Career Centers, recommending key shifts in workforce policy. America deserves a system that is less discriminatory, more human, and better able to assist women and their families in particular. The employed and unemployed alike would be better served by such a system—one that would meaningfully contribute to our economic recovery and future prosperity.
