Martha Joynt Kumar

Managing the President's Message Martha Joynt Kumar, 2010-04-15 Winner, 2008 Richard E. Neustadt Award, Presidency Research Group organized section of the American Political Science Association Political scientists are rarely able to study presidents from inside the White House while presidents are governing, campaigning, and delivering thousands of speeches. It's even rarer to find one who manages to get officials such as political adviser Karl Rove or presidential counselor Dan Bartlett to discuss their strategies while those strategies are under construction. But that is exactly what Martha Joynt Kumar pulls off in her fascinating new book, which draws on her first-hand reporting, interviewing, and original scholarship to produce analyses of the media and communications operations of the past four administrations, including chapters on George W. Bush and Bill Clinton. Kumar describes how today's White House communications and media operations can be at once in flux and remarkably stable over time. She describes how the presidential Press Office that was once manned by a single presidential advisor evolved into a multilayered communications machine that employs hundreds of people, what modern presidents seek to accomplish through their operations, and how presidents measure what they get for their considerable efforts. Laced throughout with in-depth statistics, historical insights, and you-are-there interviews with key White House staffers and journalists, this indispensable and comprehensive dissection of presidential communications operations will be key reading for scholars of the White House researching the presidency, political communications, journalism, and any other discipline where how and when one speaks is at least as important as what one says.

The Book of the Presidents Bigfoot Yeti,2018-05-18 It is truly a unique tool for self-awareness and the best self-help book. I can argue and prove this in countless ways. This is a serious book written in simple words so that even children can understand what I mean. For the first time, someone explains psychology in such an elementary and realistic way. And at the same time, much better than everyone, so far. I mean much closer to reality, without the illusions of morality and humanity that are prevalent in most philosophical, psychological, and religious books. I'm not a hater who speaks bullshit against Trump. I am not a flatter who is not aware of what he is saying. I don't make politics. These are things that must be understood by every inhabitant of the planet, not only the president. Just I say things that need to be understood by everyone. Things that almost nobody understands. This is why it is very important. Information from reality is like a very complex labyrinth. Very Few people manage to orient themselves in mass delusions. That is why the most important thing is the global view of life. Without personal bias, without diplomacy and without compromise in speaking. I create solutions for every problem on this planet, based on my big philosophical vision about reality. How you understand reality is dramatically important for everything in this life. Not what you know, not how much you know, not even details you know. Because if your vision about reality is wrong all other kind of knowledge and knowing give you only illusions about reality. If your vision about reality is wrong, your own knowledge puts you on more and more difficult labyrinth. And this confuse you more and more. The final result of this is that you can't find solution for any problem. I give you vision about reality that makes very clear the reason for every problem, and on this case, we all can create working solution for our civilization and dying planet. Today is monday 28 May 2018, we will now see how long it takes for this message to reach its addressees.

Delivering the People's Message Julia R. Azari,2014-03-18 Presidents have long invoked electoral mandates to justify the use of executive power. In *Delivering the People's Message*, Julia R. Azari draws on an original dataset of more than 1,500 presidential communications, as well as primary documents from six presidential libraries, to systematically examine choices made by presidents ranging from Herbert Hoover in 1928 to Barack Obama during his 2008 election. Azari argues that Ronald Reagan's election in 1980 marked a shift from the modern presidency formed by Franklin Delano Roosevelt to what she identifies as a more partisan era for the presidency. This partisan model is a form of governance in which the president appears to require a popular mandate in order to manage unruly and deeply contrary elements within his own party and succeed in the face of staunch resistance from the opposition party. Azari finds that when the presidency enjoys

high public esteem and party polarization is low, mandate rhetoric is less frequent and employs broad themes. By contrast, presidents turn to mandate rhetoric when the office loses legitimacy, as in the wake of Watergate and Vietnam and during periods of intense polarization. In the twenty-first century, these two factors have converged. As a result, presidents rely on mandate rhetoric to defend their choices to supporters and critics alike, simultaneously creating unrealistic expectations about the electoral promises they will be able to fulfill.

The Annual Messages of the Presidents of Liberia 1848-2010 D.Elwood Dunn,2011-05-04 Every year since 1848 the Liberian president has delivered a state of the nation speech to parliament, reflecting in detail the country's current political, social, economic and ethno-cultural situation. Liberia, the first and for over one hundred years, the only independent state in black Africa, was founded in 1847 by freed slaves with the assistance of the American Colonization Society looking to the political system of the USA as an example. The Annual Messages of the Presidents of Liberia to the National Legislature 1848-2010 presents these documents, which are scattered in numerous American and African archives, for the first time in single publication. The 146 speeches are supplemented by biographies of the presidents and a scholarly introduction by the editor. This publication represents a first-class source on African history and politics of the last 160 years.

Message of the President of the United States Communicated to the Two Houses of Congress at the Beginning of the First Session of the Fifty-third Congress ,1893

The Message Richard Wolffe,2013-09-17 They had 99 problems but Mitt Romney wasn't one. At the start of an epic election, the team trying to reelect President Obama faced a mountain of challenges: a dismal economy, the faded hopes of the first campaign, and a struggle to raise enough cash to compete. No president had risen so fast, or fallen so far, in the modern era. And no president in living memory had earned a second term in such troubled times. To resell the president, they needed to redefine the world they were living in. They needed to retell their own story and rewrite the characters. They needed to find The Message. But first, they needed to fight the enemy within: each other. For six years they kept a lid on their internal disputes-the ego clashes, the disappointed ambitions, and the battle to control the Obama brand. Everything was out of public view and under wraps. They called their style No Drama Obama, and the phrase matched the mood of the candidate. But it was never completely true. In 2008 they found a way around their rivalries. Four years later, their hostilities threatened to undermine the reelection of a president at a time when most voters were deeply unhappy and ready for change. Drawing on unrivaled access to the key characters, THE MESSAGE tells the inside story of the Mad Men-the marketers, message-shapers, and admakers-who held the Obama presidency in their hands.

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and thrilling novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
