The Administration of Voter Registration Thessalia Merivaki,2020-11-20 This book examines the dynamics behind shifts in voter registration rates across the states and adopts a framework of collaborative governance with election administration at its center. The book starts by introducing readers to the “voter registration gap,” an aggregate measure of variance in voter registration, and demonstrates how it fluctuates between federal elections. To explain why this variance exists, the author examines the relationship between federal reforms, such as the National Voter Registration Act (NVRA) and the Help America Vote Act; and state-level reforms, such as Online Voter Registration. Thessalia Merivaki argues that the weak relationship between the two is not surprising, since it hides dramatic variations in administrative practices at the local level, which take place in shorter intervals than the most frequently used two-year estimates. In closing, she shows that challenges to successfully registering to vote persist, largely because of how, when, and where eligible citizens have to register.

The National Guidelines for Sex Offender Registration and Notification U.s. Department of Justice,2014-10-17 The Sex Offender Registration and Notification Act ("SORNA" or "the Act"), which is title I of the Adam Walsh Child Protection and Safety Act of 2006 (P.L. 109-248), provides a new comprehensive set of minimum standards for sex offender registration and notification in the United States. These Guidelines are issued to provide guidance and assistance to covered jurisdictions—the 50 States, the District of Columbia, the principal U.S. territories, and Indian tribal governments—in implementing the SORNA standards in their registration and notification programs. The adoption of these Guidelines carries out a statutory directive to the Attorney General, appearing in SORNA § 112(b), to issue guidelines to interpret and implement SORNA. Other provisions of SORNA establish the Office of Sex Offender Sentencing, Monitoring, Apprehending, Registering, and Tracking (the "SMART Office"), a component of the Office of Justice Programs of the U.S. Department of Justice. The SMART Office is authorized by law to administer the standards for sex offender registration and notification that are set forth in SORNA and interpreted and implemented in these Guidelines. It is further authorized to cooperate with and provide assistance to states, local governments, tribal governments, and other public and private entities in relation to sex offender registration and notification and other measures for the protection of the public from sexual abuse or exploitation. See SORNA § 146(c). Accordingly, the SMART Office should be regarded by jurisdictions discharging registration and notification functions as their key partner and resource in the federal government in further developing and strengthening their sex offender registration and notification programs, and the SMART Office will provide all possible assistance for this purpose. The development of sex offender registration and notification programs in the United States has proceeded rapidly since the early 1990s, and at the present time such programs exist in all of the states, the District of Columbia, and some of the territories and tribes. These programs serve a number of important public safety purposes. In their most basic character, the registration aspects of these programs are systems for tracking sex offenders following their release into the community. If a sexually violent crime occurs or a child is molested, information available to law enforcement through the registration program about sex offenders who may have been present in the area may help to identify the perpetrator and solve the crime. If a particular released sex offender is implicated in such a crime, knowledge of the sex offender's whereabouts through the registration system may help law enforcement in making a prompt apprehension. The registration program may also have salutary effects in relation to the likelihood of registrants committing more sex offenses. Registered sex offenders

will perceive that the authorities' knowledge of their identities, locations, and past offenses reduces the chances that they can avoid detection and apprehension if they reoffend, and this perception may help to discourage them from engaging in further criminal conduct.

Sex Offender Registration and Community Notification Laws Wayne Logan,J.J. Prescott,2021-06-17 Despite being in existence for over a quarter century, costing multiple millions of dollars and affecting the lives of hundreds of thousands of individuals, sex offender registration and notification (SORN) laws have yet to be subject to a book-length treatment of their empirical dimensions - their premises, coverage, and impact on public safety. This volume, edited by Wayne Logan and J.J. Prescott, assembles the leading researchers in the field to provide an in-depth look at what have come to be known as 'Megan's Laws', offering a social science-based analysis of one of the most important, and controversial, criminal justice system initiatives undertaken in modern times.
