Education and Income Distribution in Asia P. Richards,M. Leonor,2022-08-30 First published in 1981, *Education and Income Distribution in Asia* looks in detail at a number of aspects of the relation between education, employment, and income. Education is now the major programme of expenditure of governments in Asian countries. This book brings case studies from Philippines, India, Sri Lanka, and Thailand to discuss themes like equality in education; schooling, earnings, and occupation; educational expansion and the labour market; determinants of educational achievement; school enrolment in India, Sri Lanka, and Thailand; and educational innovations and inequality. This book is a must read for scholars and researchers of education, public policy, and economics.

Arguing with God Bernd Janowski,2013-10-10 This is the first English translation of Bernd Janowski's incisive anthropological study of the Psalms, originally published in German in 2003 as *Konfliktgespräche mit Gott. Eine*

Anthropologie der Psalmen (Neukirchener). Janowski begins with an introduction to Old Testament anthropology, concentrating on themes of being forsaken by God, enmity, legal difficulties, and sickness. Each chapter defines a problem and considers it in relation to anthropological insights from related fields of study and a thematically relevant example from the Psalms, including how a central aspect of this Psalm is explored in other Old Testament or Ancient Near Eastern texts. Each chapter concludes with an Anthropological Keyword, which explores especially important words and phrases in the Psalms. The book also includes reflections on reading the Psalms from a New Testament perspective, focusing on themes of transience, praising God, salvation from death, and trust in God. Janowski's study demonstrates how the Psalms have important theological implications and ultimately help us to understand what it means to be human.
