HOME SCHOOLING Deborah Nichols Poulos, 2022-07-01 Home Schooling: During COVID-19 and Beyond By: Deborah Nichols Poulos Homeschooling has been a challenge for parents and grandparents who have worked so well to keep their children engaged in learning this pandemic year. Debbie speaks to respect and humor in this second book, which are so important for kids and parent/teachers. This book will be a good organizational tool for future homeschoolers and can be adapted to all teaching levels. -- Carole Plack, retired Administrator, Yolo County Office of Education; parent from Debbie Poulos' 6th grade class, and grandparent _____ Ms. Nichols Poulos was my son's 5th grade teacher and, although a bright child, he had certain behavior issues which created challenges in the classroom. Debbie was the only teacher my son had throughout his schooling that I felt really understood him. She knew how to work with him to help him achieve his best potential; to feel cared about and accepted at school. Her skills, knowledge and abilities, along with her compassion for her students, made her an outstanding teacher. She was unforgettable to her students and their parents alike. Home Schooling: During COVID-19 and Beyond is a treasure trove of information parents (and grandparents!) can use to achieve the same success with their children. She has pulled from her first book, *The Conscious Teacher*, written primarily for teachers, what she thinks will be of the most help to parents. She has added some new information as well. The book's sections on behavior standards and working with gifted students are especially helpful as a parent and now as I work with my grandkids as they school at home. The advice on how to teach the various subjects of reading, writing, math, social studies and computer skills is invaluable. I have greater confidence to help the kids learn at home, regardless of whether they are primarily learning remotely or in a classroom; this book gives you the tools to enrich their learning. -- Sue Woods, Mediator/Facilitator; Consensus and Collaboration Program, CSUS; BA (1975) Social Welfare, San Diego State University _____ I'm a

grandparent and not homeschooling on a regular basis, but I am often helping grandkids with schoolwork. So Home Schooling: During COVID-19 and Beyond is helpful even for having a successful single lesson. The parts about mutual respect and working WITH your student are very useful. The book is well organized, easy to understand and is full of specific routines for productive and rewarding homeschooling for teacher and student. Debbie taught my daughter, Vinci, in fourth grade and it was a wonderful year for her. She gained the necessary confidence to succeed academically in Debbie's class that propelled her lively mind and scholastic achievements to this day. -- Dawn Daro, mother of Vinci Daro, B.A. and secondary teaching credential UC Berkeley, taught Junior High Richmond Unified School District _____ For parents new to teaching, as for anybody else, simple tools can help a lot. Deborah Nichols Poulos' Home Schooling: During COVID-19 and Beyond supplies them in a well-organized format. For math, she gives you handy grids for adding, subtracting, multiplying, and dividing, plus simple tricks that aid intuition, such as the use of manipulative objects. To build up reading and spelling, she offers bonus devices for rewarding new learning without any mark-downs for errors. For writing, try her tips on building sentences and paragraphs. Positive feedback, no tears. Even without covid, this book would have been timely. -- Peter and Lin Lindert, parents of Nick Lindert, one of Deborah's students You can contact Ms. Nichols Poulos at dnpoulos@urcad.org

The Core Leigh A. Bortins, 2010-06-08 The Core is an important resource that helps parents create ways to incorporate study into daily routines involving the entire family. --Book Jacket.

The Homeschool Daily Log Susan Pritt, Vernon Pritt, 2019-08-02 Developed by a family who homeschooled nine of their ten children for eighteen years, this Homeschool Daily Log documents your student's learning for an entire year (180 days). It complies with Pennsylvania Homeschool law, but should work well in any state where you are required to document texts used per day. [Please check your own state or country's homeschool law.] Even if you are not required to keep a log, this will provide you with a record of your instruction and curriculum each day. The simple grid allows you to see at a glance which subjects you have covered each day, and checking each one off can bring you a daily smile of accomplishment. Used by hundreds of families during nearly three decades, these logs are now serving a second generation of homeschoolers.

The First Day of Homeschool Michelle Fredrickson, 2013-07-24 'Twas the first day of homeschool, begins the poetic tale of a young child's return to schooling. The story weaves through the exciting first day as the family enjoys a special time of learning, helping, and sharing together - interrupted only by a mischievous visit from Homeschool Elf who hides the children's school supplies and sends them on a hunt to find the missing books, pencils, and more! In addition to the story text, younger children will enjoy trying to find the hidden Homeschool Elf peeking out from the book illustrations while older children are encouraged to interact with the story by answering questions related to the text and their own homeschool experiences. For those eager to begin their own Homeschool Elf tradition - a pattern of Homeschool Elf has been included at the back of the book. We recommend copying the pattern and cutting it out so if something happens to Homeschool Elf

during the year, you will always have a pattern to replace him.

Teach Your Own John Holt, Pat Farenga, 2003-04-17 Today more than one and a half million children are being taught at home by their own parents. In this expanded edition of the book that helped launch the whole movement, Pat Farenga has distilled John Holt's timeless understanding of the ways children come to understand the world and added up-to-the-moment practical advice. Rather than proposing that parents turn their homes into miniature schools, Holt and Farenga demonstrate how ordinary parents can help children grow as social, active learners. Chapters on living with children, serious play, children and work, and learning difficulties will be of interest to all parents, whether home schooling or not, as well as to teachers. This new edition is supplemented with financial and legal advice as well as a guide to cooperating with schools and facing the common objections to home schooling. Teach Your Own not only has all the vital information necessary to be the bible for parents teaching their own children, it also conveys John Holt's wise and passionate belief in every child's ability to learn from the world that has made his wonderful books into enduring classics.

The author, an elementary school teacher, includes examples from her remote teaching experience to explain her reasoning for many of the suggested strategies.
