Student Activity Funds Charles E. Cuzzetto, 2005-08-05 While providing additional monies and educational opportunities for students, student activity funds can also create accounting and control nightmares for school business administrators. This book helps school business officials establish procedures for tracking and controlling student activity funds at the school and district levels. The book also provides an assessment framework for students, activity sponsors, or administrative staff who are performing internal audits. Sample forms and worksheets in every chapter make this practical text a true 'how-to' guide.

School Activity Fund Guidelines Kansas. State Department of Education, 2021 The nature of activity funds makes them particularly vulnerable to misuse and fraud. For this reason, this document focuses on policies and procedures a school district can adopt to improve controls over these funds. Except for certain disbursement procedures and reporting these funds in the district's financial statements, these guidelines are not mandated, but are suggested procedures with two objectives in mind: safeguard activity fund moneys [and] provide the USD with an efficient and effective means to administer activity funds. Many USDs will find that these guidelines constitute minimum controls they want to adopt. To adopt anything less would likely increase the risk of misuse or fraud. Therefore, before discounting any of these suggested policies and procedures, you should consult your auditor. Your auditor can explain not only the importance of these internal controls, but also can assist you in implementing them.
