**Handbook of Research on Character and Leadership Development in Military Schools** Ryan, Mark Patrick,Weekes, Timothy L.,2021-01-22 Military academies have served youth for more than a century with proud traditions of producing graduates who are scholars, leaders, and athletes who adhere to a code of honor and ethical principles as they take the knowledge, skills, and dispositions gained at those academies into higher education, the business world, military service, civic endeavors, and the broader workforce. There is a current gap and need for research that explores the various components of a K-20 military school/college education and how those components successfully produce leaders of character for our military, civic, academic, and business worlds both in the United States and abroad. The Handbook of Research on Character and Leadership Development in Military Schools synthesizes research on the impact of military academies by providing a singular compendium of current academic studies on the graduates of military academies and the communities of which they enter after graduation. The chapters will explore the academics, leadership, character development, citizenship, athletics, and other dimensions of both global and national, and both private and public, military academies. This book is ideal for current leaders, staffs, governing board members, and alumni of military academies both in the United States and internationally along with policymakers, government officials, practitioners, researchers, academicians, and students interested in the implications of character and leadership development on individuals enrolled in or graduated from military

schools.

Writing Program Architecture Bryna Siegel Finer,Jamie White-Farnham,2017-11-01 Writing Program Architecture offers an unprecedented abundance of information concerning the significant material, logistical, and rhetorical features of writing programs. Presenting the realities of thirty diverse and award-winning programs, contributors to the volume describe reporting lines, funding sources, jurisdictions, curricula, and other critical programmatic matters and provide insight into their program histories, politics, and philosophies. Each chapter opens with a program snapshot that includes summary demographic and historical information and then addresses the profile of the WPA, program conception, population served, funding, assessment, technology, curriculum, and more. The architecture of the book itself makes comparison across programs and contexts easy, not only among the programs described in each chapter but also between the program in any given chapter and the reader's own program. An online web companion to the book includes access to the primary documents that have been of major importance to the development or sustainability of the program, described in a "Primary Document" section of each chapter. The metaphor of architecture allows us to imagine the constituent parts of a writing program as its foundation, beams, posts, scaffolding—the institutional structures that, alongside its people, anchor a program to the ground and keep it standing. The most extensive resource on program structure available to the field, Writing Program Architecture illuminates structural choices made by leaders of exemplary programs around the United States and provides an authoritative source of standard practice that a WPA might use to articulate programmatic choices to higher administration. *Proceedings of the 5th Annual Generalized Intelligent Framework for Tutoring (GIFT) Users Symposium (GIFTSym5)* Robert Sottilare,2017-07-17 This is the fifth year we have been able to capture the research and development efforts related to the Generalized Intelligent Framework for Tutoring (GIFT) community which at the writing of these proceedings has well over 1000 users in over 65 countries. We are proud of what we have been able to accomplish with the help of our user community. These proceedings are intended to document the evolutions of GIFT as a tool for the authoring of intelligent tutoring systems (ITSs) and the evaluation of adaptive instructional tools and methods.

Design Recommendations for Intelligent Tutoring Systems: Volume 8 - Data Visualization Anne Sinatra,Arthur C.

Graesser,Xiangen Hu,Benjamin Goldberg,Andrew J. Hampton,2020-12-30 This book on data visualization is the eighth in a planned series of books that examine key topics (e.g., learner modeling, instructional strategies, authoring, domain modeling, assessment, team tutoring, self-improving systems, data visualization, and competency based scenario design) in intelligent tutoring system (ITS) design. This book focuses on data visualization and how it is applied in ITSs. The chapters within this book specifically examine topics in relationship to the Generalized Intelligent Framework for Tutoring (GIFT) (Sottilare, Brawner, Goldberg & Holden, 2012; Sottilare, Brawner, Sinatra, & Johnston, 2017). GIFT is an open-source, domain-independent, modular, service-oriented architecture for ITSs. The design of GIFT allows for reusability, reduction in authoring time, and reducing the skill level needed to create an ITS. GIFT provides functionality to create ITSs, distribute ITSs to learners through the Cloud, conduct research to evaluate ITSs, and to examine instructional outcomes. Data visualization is an important topic for ITSs, as there are many different users of the systems (including learners, instructors, researchers, subject matter experts). The data that is collected by the ITS can be organized and displayed in a number of different ways. The current book includes a general discussion of how data visualizations can be applied in ITSs, as well as detailed specific examples of existing implementations, and technical details related to incorporating data visualization in ITSs. We believe this book can be used as a design tool for data visualization interfaces in ITSs.

*Handbook for Training Peer Tutors and Mentors* Karen Sue Agee,Russ Hodges,2012 A publication of the College Reading and Learning Association.

*Intelligent Tutoring Systems* Scott Crossley,Elvira Popescu,2022-06-24 This volume constitutes the proceedings of the 18th International Conference on Intelligent Tutoring Systems, ITS 2022, held in Bucharest, Romania, in June 2022. The 14 full papers, 13 short papers and 11 poster papers presented in this volume were carefully reviewed and selected from 50 submissions. The papers are categorized into the following topical sub-headings: Tools and Methods for learning Sciences and Practices; Algorithms for Prediction, Recommendation and Classification in Learning Systems; Tutoring and Learning Systems: New Approaches, Framework and Theories.

**Universal Access in Human-Computer Interaction. User and Context Diversity** Margherita Antona,Constantine Stephanidis,2022-06-16 This two-volume set constitutes the refereed proceedings of the 16th International Conference on Universal Access in Human-Computer Interaction, UAHCI 2022, held as part of the 24th International Conference, HCI International 2022, held as a virtual event, in June-July 2022. A total of 1271 papers and 275 posters included in the 39 HCII 2022 proceedings volumes. UAHCI 2022 includes a total of 73 papers; they focus on topics related to universal access methods, techniques and practices, studies on accessibility, design for all, usability, UX and technology acceptance, emotion

and behavior recognition for universal access, accessible media, access to learning and education, as well universal access to virtual and intelligent assistive environments.

**Your College Experience** Gardner,A. Jerome Jewler,Betsy O. Barefoot,2006 The most thoroughly revised edition yet! Featuring extensive revisions to the Learning chapters and a new chapter on memory, YOUR COLLEGE EXPERIENCE, 7e continues its 20-year tradition of providing straightforward, intelligent coverage of the skills students need to succeed in college today. New co-author Betsy Barefoot has updated and added new research materials throughout, and worked to streamline the text. Now only 16 chapters, the book presents more current information in fewer chapters than ever before. Also new to this edition: iLrn College Success! Available with new copies of the book, this innovative teaching tool lets instructors create assignments that students can use to assess their mastery of topics covered in the book. Assignments are automatically graded, providing instructors and students with immediate feedback on student performance. iLrn gives students the power to prioritize and strategically use their study time, while it gives instructors the power to tailor their in-class time to meet their students' most pressing needs. Author John Gardner is a well-known proponent of the first-year seminar and was instrumental is creating the National Resource Center for the First-Year Experience and Students in Transition at the University of South Carolina. He and co-authors Jewler and Barefoot continue to write, research, and travel to support the First-Year Experience.

**Envisioning Scholar-Practitioner Collaborations** Derek Van Rheenen,Jean Marie DeOrnellas,2018-01-01 Envisioning Scholar-Practitioner Collaborations: Building Communities of Practice in Education and Sport presents a collection of case studies of collaborations between scholars and practitioners dedicated to both the generation of new knowledge and innovative best practices at the nexus of education and sport. This inaugural text in a series sponsored by the Research Focus on Education and Sport Special Interest Group of the American Educational Research Association seeks to reveal a number of educational spaces in which this critical work takes place. The volume, comprising ten unique collaborations, outlines the important intellectual and social work of scholar-practitioners at the intersection of institutional sport and education at a variety of sites, both in school and in non-school settings. Each of these chapters has a unique set of research questions, programmatic goals and findings. For the purpose of this book, however, contributors have described the nature of their collaborations—for whom and by whom these collaborations are forged—such that the “findings” are presented as lessons learned from the process of collaboration. This book reveals educational spaces where scholars and practitioners are collaborating and generating new understandings of the world we know. We characterize this effort as mutually beneficial and respectful, engendering a vision of hope, exploration and educational transformation.

Writing Centers in the Higher Education Landscape of the Arabian Gulf Osman Z. Barnawi,2017-09-06 This book addresses issues surrounding writing centers in the Arabian Gulf region. Including a foreword by Professor Ken Hyland, it

brings together a number of thought-provoking chapters on the history, concept, and ground realities coupled with critical comparative discussions of writing centres in the region. The book begins by offering critical historical accounts of writing centers in the Gulf countries, before moving onto empirical research and reports on pedagogical practices that vividly capture the on-the-ground realities faced and experienced by different actors. These accounts serve to highlight how the writing centers vary between countries, as well as how they differ from the more well-known writing centers in the US and the UK. Finally, the book explores what sort of commonalities and differences the current trend of writing centres is producing within and between the six countries of the Arabian Gulf. This book will be highly relevant to those involved with writing centres along with directors, policymakers, researchers and teacher educators in the fields of Education and Sociology, particularly those with an interest in the Arabian Gulf area.

*Retention, Persistence, and Writing Programs* Todd Ruecker,Dawn Shepherd,Heidi Estrem,Beth Brunk-Chavez,2017-04-01 From scholars working in a variety of institutional and geographic contexts and with a wide range of student populations, Retention, Persistence, and Writing Programs offers perspectives on how writing programs can support or hinder students' transitions to college. The contributors present individual and program case studies, student surveys, a wealth of institutional retention data, and critical policy analysis. Rates of student retention in higher education are a widely acknowledged problem: although approximately 66 percent of high school graduates begin college, of those who attend public four-year institutions, only about 80 percent return the following year, with 58 percent graduating within six years. At public two-year institutions, only 60 percent of students return, and fewer than a third graduate within three years. Less commonly known is the crucial effect of writing courses on these statistics. First-year writing is a course that virtually all students have to take; thus, writing programs are well-positioned to contribute to larger institutional conversations regarding retention and persistence and should offer themselves as much-needed sites for advocacy, research, and curricular innovation. Retention, Persistence, and Writing Programs is a timely resource for writing program administrators as well as for new writing teachers, advisors, administrators, and state boards of education. Teaching Mathematics at a Technical College Zachary Youmans,2022-11-25 Not much has been written about technical colleges, especially teaching mathematics at one. Much had been written about community college mathematics. This book addresses this disparity. Mathematics is a beautiful subject worthy to be taught at the technical college level. The author sheds light on technical colleges and their importance in the higher education system. Technical colleges area more

affordable for students and provide many career opportunities. These careers are becoming or have become as lucrative as careers requiring a four-year-degree. The interest in technical college education is likely to continue to grow. Mathematics, like all other classes, is a subject that needs time, energy, and dedication to learn. For an instructor, it takes many years of hard work and dedication just to be able to teach the subject. Students should not be expected to learn the mathematics overnight. As instructors, we need to be open, honest, and put forth our very best to our students so that they can see that they are able to succeed in whatever is placed in front of them. This book hopes to encourage such an effort. A notable percentage of students who are receiving associate degrees will go through at least one of more mathematics, courses. These students should not be forgotten about—their needs are similar to any student who is required to take a mathematics course to earn a degree. This book offers insight into teaching mathematics at a technical college. It is also a source for students to turn toward when they are feeling dread in taking a mathematics course. Mathematics instructors want to help students succeed. If they put forth their best effort, and us ours, we can all work as one team to get the student through the course and onto chasing their dreams. Though this book focuses on teaching mathematics, some chapters expand to focus on teaching in general. The overall hope is the reader, will be inspired by the great work that is happening at technical colleges all around the country. Technical college can be, should be, and is the backbone of the American working class.

From At-Risk to At-Promise Amy E. Vecchione,Cathlene E. McGraw,2022-11-07 Academic library workers will learn how to collaborate with staff in academic advising and student services to improve undergraduate student belonging, retention rates, and graduation rates for at-promise students. As the demographics of student populations change, many students require additional or different support to be successful in their college careers. Meanwhile, higher education is under pressure to reduce budgets and serve more students within certain areas of the university, including the library, academic advising, and other student services. Academic librarians and student success administrators can collaborate to create additional pathways for students who struggle to succeed. Authors Vecchione and McGraw provide a roadmap for library employees and student success administrators to initiate and develop discussions on college campuses to define and address these emergent student needs. Through a selection of case studies and historical context, readers will learn how to define what student success looks like and how to design custom services to address student barriers to that success. Library employees and student success professionals both serve students at the margins. These readers will acquire skills to enhance student success initiatives and strengthen collaborations with one another.

Creating New Learning Experiences on a Global Scale Erik Duval,Ralf Klamma,Martin Wolpers,2007-08-19 This book constitutes the refereed proceedings of the Second European Conference on Technology Enhanced Learning, EC-TEL 2007, held in Crete, Greece in September 2007. The papers presented were carefully reviewed and selected from 116 submissions. The conference provides a unique forum for all research related to technology-enhanced learning, as well as its interactions

with knowledge management, business processes and work environments.

The Learning Assistance Review Tara Diehl,Rebecca Cofer,Jennifer Rowe,Donna Fenton,Lauren Hensley,Tracy Hallstead,Renee Just,Michael Frizell,2020-05-29 As an official publication of the National College Learning Center Association (NCLCA), The Learning Assistance Review (TLAR) seeks to foster communication among higher education learning center professionals. Its audience includes learning center administrators, teaching staff, and professional or student worker tutors, consultants, mentors, and faculty members and administrators who are interested in improving the learning skills of post-secondary students. NCLCA defines a learning center at institutions of higher education as interactive, academic spaces that exist to reinforce and extend student learning in physical and/or virtual environments. A variety of comprehensive support services and programs are offered in these environments to enhance student academic success, retention, and completion rates by apply best practices, student learning theories, and addressing student-learning needs from multiple pedagogical perspectives. Staffed by professionals, paraprofessionals, faculty, and/or trained student educators, learning centers are designed to reinforce the holistic academic growth of students by fostering critical thinking, metacognitive development, and academic personal success.TLAR aims to publish scholarly articles and reviews that address issues of interest to a broad range of academic professionals. Primary consideration will be given to articles about program design and evaluation, classroom-based research, the application of theory and research to practice, innovative teaching strategies, student assessment, and other topics that bridge the gaps within our diverse and growing profession.The journal is published twice a year. All submissions are subject to a masked, double-blind review process. Administrators use their published work to continue the growth and development of the learning commons space on campus, while faculty may use their publications toward promotion and tenure at institutions where student success initiatives are rewarded as part of the process.

**Curriculum Development and Online Instruction for the 21st Century** Fudge, Tamara Phillips,Ferebee, Susan Shepherd,2021-06-25 The world of education has undergone major changes within the last year that have pushed online instruction to the forefront of learning. Thanks to the COVID-19 pandemic, online learning has become paramount to the continued and uninterrupted teaching of students and has forced students and teachers alike to adjust to an online learning environment. Though some have already returned to the traditional classroom, or plan to very soon, others have begun to appreciate the value of online education – initiatives that had previously been discussed but never acted upon as they have been in the past year. With plenty of positive and negative aspects, online learning is a complex issue with numerous factors to consider. It is an issue that must be studied and examined in order to improve in the future. Curriculum Development and Online Instruction for the 21st Century examines the issues and difficulties of online teaching and learning, as well as potential solutions and best practices. This book includes an examination on the value of teaching fully via the internet as

well as the challenges inherent in the training of teachers to teach in online environments. While addressing key elements of remote learning, such as keeping student data safe, as well as methods in which to engage students, this book covers topics that include assessment tools, teaching deaf students, web technology, and standardized curricula. Ideal for K-12 teachers, college faculty, curriculum developers, instructional designers, educational software developers, administrators, academicians, researchers, and students, this book provides a thorough overview of online education and the benefits and issues that accompany it.

*Applying Design Thinking to the Measurement of Experiential Learning* Peck, Adam,DeSawal, Danielle,2021-06-25 In the field of student affairs, many are rethinking the value of a wide variety of traditional aspects associated with the student experience. Recent commentary has questioned whether students should attend college that has an all-inclusive tuition, focused primarily upon academic and support services. Given the need for changes the COVID-19 pandemic has created, it is imperative to question whether this kind of academic package is ideal for the future of higher education. As issues surrounding the traditional aspects of the student experience continue to develop, research has begun to focus on how student learning and awareness can be improved, specifically within the principles of design thinking. Applying Design Thinking to the Measurement of Experiential Learning is a forward-thinking and innovative look at assessment and design conditions that promote student learning. It proposes new models for education, conditions for student learning, and student learning assessment using design thinking and experiential learning. These topics include adjustments to curriculum, integrated learning environments, student success and student affairs, campus-wide design thinking, and testing assessments. This book is valuable for senior leaders in the field of student affairs, student affairs assessment professionals and faculty teaching in higher education programs, practitioners, researchers, academicians, and students interested in how the principles of design thinking can be applied to higher education.

**The Undergraduate Experience** Peter Felten,John N. Gardner,Charles C. Schroeder,Leo M. Lambert,Betsy O. Barefoot,Freeman A. Hrabowski,2016-05-16 A clear, practical framework for getting higher education back on track The Undergraduate Experience is a guide for significantly improving student learning and institutional performance in the rapidly changing world of higher education. Written by recognized experts in undergraduate education, this book encourages college and university leaders to rethink current practices that fragment the student experience, and to focus on creating powerful, integrated undergraduate learning for all students. Drawing from their own deep experience and the latest research, the authors reveal key principles that enable institutional change and enhance student outcomes in any higher education setting. Coverage includes high-impact practices for engagement, the importance of strategic leadership, the necessity of setting and maintaining high expectations, and insight on fostering excellence through systematic planning. Through its core themes and action principles, this book can be a valuable resource for faculty, staff, administrators, and governing boards at all types of

postsecondary institutions. The book provides a practical framework for achieving excellence in undergraduate education by focusing on: Learning Relationships Expectations Alignment Improvement Leadership The value of an undergraduate education is under greater scrutiny than ever before, and campus leaders must be able to convey the value of their institutions to students, boards, donors, and legislators. Is a college or university degree worth the increasing cost? Are today's students academically adrift? What's the difference between a degree and an education? Responding to these questions requires focused action by individuals and institutions. The Undergraduate Experience offers practical guidance for creating and sustaining excellence in the face of disruption and change in higher education.

## ASC Tutoring Schedule Fall 2017 Introduction

In the digital age, access to information has become easier than ever before. The ability to download ASC Tutoring Schedule Fall 2017 has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download ASC Tutoring Schedule Fall 2017 has opened up a world of possibilities. Downloading ASC Tutoring Schedule Fall 2017 provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading ASC Tutoring Schedule Fall 2017 has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download ASC Tutoring Schedule Fall 2017. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers

access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading ASC Tutoring Schedule Fall 2017. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading ASC Tutoring Schedule Fall 2017, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download ASC Tutoring Schedule Fall 2017 has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
