*Xamissa* Henk Rossouw, 2018 *Xamissa* is a book-length poem that sounds out the city of Cape Town in a joyful elegy for the city of alternate takes. *Xamissa* adapts the mythical name for the springs and streams running from Table Mountain to the sea, under the city itself, since before the colonial Dutch ships came--the X of the title standing in for the multiple ways in the languages of the Cape, past and present, the reader may pronounce the first consonant. A work of documentary poetics that investigates the cost of whiteness in South Africa, *Xamissa* code-switches at times into Lontara, the subversive Indonesian script that undercuts the prevalence of Dutch in the colonial archive. Through serial questions around the ethics of its address, *Xamissa* probes the interrelation of language, sociality, and resistance, in its bid to interrogate the archive as a draft of the city's future.

*Creative Composition* Danita Berg, Lori A. May, 2015-05-01 For decades theorists have opined that the lines between creative writing and composition need to be lifted, yet little has been written about the pedagogical methods that allow a cohesive approach between the disciplines. This book brings together contemporary authors and well-respected creative writing instructors and theorists to explore ways creativity in composition may be encouraged in student writers. The question in this anthology is not 'Can writing be taught?' but 'How can we inspire students to embrace the creative process no matter what they write?' This book offers multiple strategies to merge the best practices of teaching writing, regardless of the genre.

**Released Into Language** Wendy Bishop, 1990 After a brief review of the history of college writing instruction, this book examines the undergraduate creative writing workshop. The book attempts to reweave the currently separate strands of college-level creative writing instruction and composition instruction in the belief that developments in these perhaps artificially separated areas can and should enrich each other. In design, the book should serve the students in the creative writing workshops to the extent that it asks their teachers to consider new ways of approaching their academic subject. Chapters in the book include: (1) Writers in Motion; (2) Writers and Researchers on Writing; (3) Options in Design; (4) Generating Writing; (5) Ten Inventions and Variations; (6) Collaborative Composing and Imitations; (7) Responding and Revising; and (8) Evaluating and Responding. (A 125-item annotated bibliography and response protocol sheets designed to help students complete creative writing critique sessions are attached.) (RS)
