Brown Girl Dreaming Jacqueline Woodson,2016-10-11 Jacqueline Woodson's National Book Award and Newbery Honor winner is a powerful memoir that tells the moving story of her childhood in mesmerizing verse. A President Obama O Book Club pick Raised in South Carolina and New York, Woodson always felt halfway home in each place. In vivid poems, she shares what it was like to grow up as an African American in the 1960s and 1970s, living with the remnants of Jim Crow and her growing awareness of the Civil Rights movement. Touching and powerful, each poem is both accessible and emotionally charged, each line a glimpse into a child's soul as she searches for her place in the world. Woodson's eloquent poetry also reflects the joy of finding her voice through writing stories, despite the fact that she struggled with reading as a child. Her love of stories inspired her and stayed with her, creating the first sparks of the gifted writer she was to become. Includes 7 additional poems, including *Brown Girl Dreaming*. Praise for Jacqueline Woodson: Ms. Woodson writes with a sure understanding of the thoughts of young people, offering a poetic, eloquent narrative that is not simply a story . . . but a mature exploration of grown-up issues and self-discovery."—The New York Times Book Review

Supervising Student Teachers Alexander Cuenca, 2013-02-11 The student teaching experience is often considered one of the most influential aspects of teacher preparation. Key in the success of student teaching is the university supervisor. During the student teaching experience, the university supervisor is mainly responsible for helping pre-service teachers relate university coursework with the situated experiences in schools. However, much like the various other spaces and places in teacher education, facilitating teacher learning is an incredibly complex endeavor. This edited volume addresses the complexities of supervising student teachers from three distinct vantage points. First, salient issues regarding the supervision of student teachers such as the preparation of novice supervisors, negotiating power in the student teaching triad, and the low status of clinical teacher education are examined. Second, different pedagogical frameworks for the work of supervision are provided such as care theory, teacher education for democracy, and social justice. Finally, future directions for field-based teacher education are discussed, such as a call to reconsider where supervision takes place, the necessity to develop a pedagogy of supervision, 21st century trends facing clinical teacher education, and the value added by university supervisors to teacher development. Each of these chapters engage the supervision of student teachers through a mix of research, theory, and personal stories from the field. As such, this edited volume is designed for new supervisors, veteran supervisors, and supervision scholars.

We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically it's either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these paperbacks as a service so you don't have to.
