*A Culture of Caring* Theodora Schiro, 2020-02-20 As awareness grows about the alarming increase in youth suicide rates, school leaders need information on suicide prevention and postvention. Tragically, the search often begins only after the school community has suffered the loss of a student. Schools must start to be proactive and educate themselves about risk factors and prevention strategies. Designed as a handbook for busy educators, *A Culture of Caring: A Suicide Prevention Guide for Schools (K–12)* includes information about prevention, intervention, and postvention along with commentary from experts in the field. Each chapter stands alone and does not have to be read in sequence. Resources and descriptions of programs relevant to each chapter are organized by topic. School leaders, counselors, and teachers can use the information to create their own plans or just glance through it to get ideas. With this book, any school community that takes suicide prevention seriously will have access the knowledge, tools and resources to save lives.

They can shop around for the cheapest goods and services. Their rights as citizens and consumers are protected by EU laws throughout the Union just as they would be in their home country. The Essential Eldercare Handbook for Nevada Kim Boyer, Mary Shapiro, 2014-03-18 The senior years can be daunting, for spouses, children, other caregivers, and seniors themselves. Too often a sudden crisis leaves a family unprepared and feeling helpless. Chronic illnesses and limited funds can present difficult and emotional choices regarding care or housing. Rules and

resources vary from state to state. Everyone can use help from experienced professionals in understanding them. Boyer and Shapiro provide Nevada-specific information--medical, legal, and financial--on the wide range of problems that arise during the elder years. Case studies show how a typical family copes with troubles such as failing health or financial cares and what options they have. This guide will help any Nevada resident plan for their own senior years and take care of aging parents, spouses, and other loved ones.

**Bullying in the Arts** Anne-Marie Quigg, 2016-04-08 Diva, Prima Donna, Maestro, Virtuoso: creative geniuses with the ability to deliver artistic excellence. However this perception can serve to tilt the balance of power in relationships and to substantiate the notion of artistic temperament; the Master is always right and the Diva must have her way. The artistic genius may be hell to work with but the end result (the art) is exceptional, so behaviour deemed unacceptable in normal circumstances must be tolerated. If the corporate culture in the arts is in thrall to the concept of the artistic genius, then across the various disciplines within the creative sector the prevailing mentality may be subscribing to a set of values that allows, even directly encourages, behaviour and employment conditions that are abusive. Bullying in the Arts argues that this mindset can have a profoundly negative effect in performing arts organisations, permitting managers and other staff to ignore bullying behaviour, as long as the show goes on. Researchers in a range of disciplines and fields have studied workplace bullying and, having witnessed bullying in a number of different arts organisations, Anne-Marie Quigg researched whether the behaviour represented isolated, rare occurrences in specific creative environments or if it was indicative of a more widespread problem in the arts and cultural sector. She discovered the highest level of bullying recorded in any single employment sector in the UK. Bullying in the Arts reveals Dr Quigg's findings, including the personal, organisational, legal and economic consequences of bullying behaviour. Looking at the experiences of countries such as Australia, Canada, France, Sweden, and the United States, this book challenges the notion that the arts are beyond the limitations of the ordinary milieu, exempt from the rules and regulations governing the treatment of employees. Arts managers and professionals, teachers, students and researchers in the arts world, and all those in management or management education, will find here a new model centred on management responses to bullying behaviour, which demonstrates the beneficial effect that knowledgeable, skilled action can have on the outcome of bullying incidents.

**Walking in Footsteps of Promise** Kiran H. J. Dellimore, 2018-12-31 Barbadian-born writer Kiran Dellimore takes you on an enthralling trek with his intimate memoir Walking in Footsteps of Promise. From growing up in a sheltered, privileged

environment on the Eastern Caribbean island of Barbados, to being left for dead at the roadside in Washington D.C., Kiran weaves a compelling tale of his relentless, up-and-down struggle to achieve his grand dreams. *Walking in Footsteps of Promise*, is a refreshing take on the age old tale of the triumph of the human spirit over adversity. This book is a must read if you feel stuck in life or are in need of inspiration to persevere against all odds in the pursuit of your dreams. It is an inimitable, honest account of Kiran's remarkable personal journey of healing and redemption, penned in a witty anecdotal style. As Kiran eloquently points out: Dreams are not an end unto themselves. They are merely stepping stones to achieving our higher selves. *Walking in Footsteps of Promise* will leave you with a new perspective on life.

*What's the Use?* Sara Ahmed, 2019-10-25 In *What's the Use?* Sara Ahmed continues the work she began in *The Promise of Happiness and Willful Subjects* by taking up a single word—in this case, use—and following it around. She shows how use became associated with life and strength in nineteenth-century biological and social thought and considers how utilitarianism offered a set of educational techniques for shaping individuals by directing them toward useful ends. Ahmed also explores how spaces become restricted to some uses and users, with specific reference to universities. She notes, however, the potential for queer use: how things can be used in ways that were not intended or by those for whom they were not intended. Ahmed posits queer use as a way of reanimating the project of diversity work as the ordinary and painstaking task of opening up institutions to those who have historically been excluded.
