Anthropology of Addictions and Recovery Irene Glasser,2011-12-14 It is nearly impossible to discuss alcohol, tobacco, and drugs without applying our own cultural prism. In a concise, non-technical manner, Glasser combines her own research with that of others to show the importance of removing cultural biases to uncover crucial understandings about substance use and misuse. Ethnographic examples elucidate the diverse meanings of alcohol, tobacco, and drugs around the world as well as the psychological and physiological effects of their use. Glasser applies anthropological research methods in her examination of treatment and recovery and uncovers why some programs are more effective than others. The books focus on culture and how it affects peoples relationships to mind-altering substances, together with hands-on activities at the end of each chapter, will generate new realizations and open doors for further exploration.

*Water Resources in Jordan* Munther J. Professor Haddadin, 2010-09-30 This is the first comprehensive, multi-disciplinary book to address water policy in Jordan. Edited by the former Minister of Water and Irrigation of Jordan, with contributions by other prominent Jordanian and international water professionals, this volume covers such areas as the population-water resources equation in Jordan; institutional and legal frameworks; the data systems used for the assessment and formulation of water policy; water allocations and uses in municipal, industrial, and agricultural sectors; social and environmental issues; and water conflict with Jordan's neighbors. The book is a must for readers interested in Middle East politics and the critical nature of water issues in the region. The book notes the importance of interaction with the outside world to augment water resources through trade, making the experience of Jordan relevant to other developing regions where water is scarce. It introduces the term 'shadow water' to mean the scarce indigenous water resources that the import of agricultural and industrial commodities saves or replaces. The book shows how financially profitable it can be to treat water as a tradable commodity, to be exchanged peaceably across international borders. Haddadin and his distinguished contributors bring the water conflicts between Jordan and its neighbors, Israel and Syria, into sharp focus. The book includes a historical perspective on the development of water policies in Jordan and explores the significance of water in the religious, social, and political life of the country.

The Woman in the Mirror Cynthia M. Bulik, Ph.D.,2012-01-01 Many women-regardless of income, size, shape, ethnicity, and age-are uncomfortable in their own skin. We fixate on our body image and try endless diets, implants, hair extensions, and new shoes, but it's never enough. The problem is that girls and women have been socialized to mistakenly conflate body esteem and self-esteem. Body esteem refers to how you think and feel about your physical appearance: your size, shape, hair, and features. Self-esteem refers to how you think and feel about your personality, your role in relationships, your accomplishments, and your values-everything that contributes to who you are as a person. The Woman in the Mirror goes beyond typical self-esteem books to dig deep into the origins of women's problems with body image. Psychologist Cynthia Bulik guides readers in the challenging task of disentangling self-esteem from body esteem, and taking charge of the insidious negative self-talk that started as early as when you first realized you didn't really look like a fairy princess. By reprogramming how we feel about ourselves and our bodies, we can practice healthy eating and sensible exercise, and focus on the many things we have to offer our family, community, and job. Bulik provides us the tools to reclaim our self-confidence and to respect and love who we are. Praise for Crave: More than 7 million Americans struggle with binge eating disorder (BED) . . . Crave: Why You Binge Eat and How to Stop helps shed light on the problem.-O, the Oprah Magazine
