Academic Entrepreneurship Melissa Morriss-Olson,2020-01-28 Is it time to launch that new academic program? Here is the 'art' and 'science' of answering that question. Never has it been so critical for academic leaders to adopt an entrepreneurial mindset. Traditional financial management approaches such as resource prioritization and/or cutting one's way to sustainability are no longer sufficient long-term solutions. Successful academic leaders are outward-looking and have developed a discipline around driving entrepreneurial growth in ways that live and further leverage the mission. We need provosts, deans, and other academic leaders who are creative, willing to take intelligent risks, and ready to seek answers to questions like: How can we do this differently? What do we do really well that might be leveraged in new and unique ways? What market opportunities exist that we are uniquely equipped to meet? During her time as provost, Melissa Morriss-Olson has helped Bay Path University launch more than 20 successful new graduate programs over the past decade. In this comprehensive guide, Morriss-Olson will walk you through how to build and sustain entrepreneurial growth in your academic enterprise.

From Equity Talk to Equity Walk Tia Brown McNair,Estela Mara Bensimon,Lindsey Malcom-Piqueux,2020-01-22 A practical guide for achieving equitable outcomes From Equity Talk to Equity Walk offers practical guidance on the design and application of campus change strategies for achieving equitable outcomes. Drawing from campus-based research projects sponsored by the Association of American Colleges and Universities and the Center for Urban Education at the University of Southern California, this invaluable resource provides real-world steps that reinforce primary elements for examining equity in student achievement, while challenging educators to specifically focus on racial equity as a critical lens for institutional and systemic change. Colleges and universities have placed greater emphasis on education equity in recent years. Acknowledging the changing realities and increasing demands placed on contemporary postsecondary education, this book meets educators where they are and offers an effective design framework for what it means to move beyond equity being a buzzword in higher education. Central concepts and key points are illustrated through campus examples. This indispensable guide presents academic administrators and staff with advice on building an equity-minded campus culture, aligning strategic priorities and institutional missions to advance equity, understanding equity-minded data analysis,

developing campus strategies for making excellence inclusive, and moving from a first-generation equity educator to an equity-minded practitioner. *From Equity Talk to Equity Walk: A Guide for Campus-Based Leadership and Practice* is a vital wealth of information for college and university presidents and provosts, academic and student affairs professionals, faculty, and practitioners who seek to dismantle institutional barriers that stand in the way of achieving equity, specifically racial equity to achieve equitable outcomes in higher education.

Johnny Pail Face Becomes a Human Being John Jarvis, 2015-06-06 A biography that spans almost a century, the book is the story of 97-year-old Johnny Pail Face, a Native American born on a Navajo reservation in New Mexico. His life's journey began in the Old West and led him to soldier in three wars and to not one but two brushes with genocide in a single lifetime. In the first, his Native American people were the victims. In the second, he fought with gun and bayonet alongside fellow G. I.s against Hitler's war machine and came out the victor. The first genocide left him crazy with anger, the second crazy with despair. It took him two more wars to work things out. Through it all, he struggled against the demons of depression and alcoholism to ultimately find the best pieces of what it means to be a human being within himself and to make peace with a troubled world. Based on in-depth interviews and weaving in the oral tradition of Native American storytelling, *Johnny Pail Face Becomes a Human Being* was written over the span of several years. According to Jarvis, "This book records the life of a remarkable human being. It is a roadmap for how to persevere and to overcome that speaks to Native and non-Native American readers alike. It's been more than a privilege...it has been an honor to capture Johnny's story so that it will not become lost to a nation that often forgets some of the best lessons from its own past as it rushes toward the future."

Redesigning America's Community Colleges Thomas R. Bailey, Shanna Smith Jaggars, Davis Jenkins, 2015-04-09 Community colleges enroll half of the nation's undergraduates. Yet only 40 percent of entrants complete an undergraduate degree in six years. *Redesigning America's Community Colleges* explains how two-year colleges can increase their students' success rate quickly and at less cost, through a program of guided pathways to completion.

The Book of Real-World Negotiations Joshua N. Weiss, 2020-08-25 Real world negotiation examples and strategies from one of the most highly respected authorities in the field This unique book can help you change your approach to negotiation by learning key strategies and techniques from actual cases. Through hard to find real world examples you will learn exactly how to effectively and productively negotiate. *The Book of Real World Negotiations: Successful Strategies from Business, Government and Daily Life* shines a light on real world negotiation examples and cases, rather than discussing hypothetical scenarios. It reveals what is possible through preparation, persistence, creativity, and taking a strategic approach to your negotiations. Many of us enter negotiations with skepticism and without understanding how to truly negotiate well. Because we lack knowledge and confidence, we may abandon the negotiating process prematurely or agree to deals that leave value on the table. *The Book of Real World Negotiations* will change that once and for all by immersing you

in these real world scenarios. As a result, you'll be better able to grasp the true power of negotiation to deal with some of the most difficult problems you face or to put together the best deals possible. This book also shares critical insights and lessons for instructors and students of negotiation, especially since negotiation is now being taught in virtually all law schools, many business schools, and in the field of conflict resolution. Whether you're a student, instructor, or anyone who wants to negotiate successfully, you'll be able to carefully examine real world negotiation situations that will show you how to achieve your objectives in the most challenging of circumstances. The cases are organized by realms—domestic business cases, international business cases, governmental cases and cases that occur in daily life. From these cases you will learn more about: Exactly how to achieve Win-Win outcomes The critical role of underlying interests The kind of thinking that goes into generating creative options How to consider your and the other negotiator's Best Alternative to a Negotiated Agreement (BATNA) Negotiating successfully in the face of power Achieving success when negotiating cross-culturally Once you come to understand through these cases that negotiation is the art of the possible, you'll stop saying a solution is impossible. With the knowledge and self-assurance you gain from this book, you'll roll up your sleeves and keep negotiating until you reach a mutually satisfactory outcome!

Women's Colleges in the United States Irene Harwarth, Mindi Maline, Elizabeth DeBra, 1997 Women's colleges have had a long and prestigious role in the education of American women. This volume offers insights into the continuing significant role of women's colleges in higher education. It provides a brief history of women's colleges in the U.S. in the context of social and legislative issues that have affected the country, examines how women's colleges have managed to survive in an era of coeducational institutions and equal opportunities in education, and identifies the unique features of women's colleges that make them attractive to young women. Charts and tables. Extensive bibliography.

International Perspectives on Supporting and Engaging Online Learners Jaimie Hoffman, Patrick Blessinger, 2021-09-16 The COVID-19 pandemic has accelerated growth in online education across the world, forcing many to learn remotely. Presenting case studies from authors around the globe, this volume provides College and university personnel with research, theoretical foundations, and best practice to support and engage online learners.

The Fifth Wave Michael M. Crow, William B. Dabars, 2020-04-14 Out of the crises of American higher education emerges a new class of large-scale public universities designed to accelerate social change through broad access to world-class knowledge production and cutting-edge technological innovation. America's research universities lead the world in discovery, creativity, and innovation—but are captive to a set of design constraints that no longer aligns with the changing needs of society. Their commitment to discovery and innovation, which is carried out largely in isolation from the socioeconomic challenges faced by most Americans, threatens to impede the capacity of these institutions to contribute decisively and

consistently to the collective good. The global preeminence of our leading institutions, moreover, does not correlate with overall excellence in American higher education. Sadly, admissions practices that flatly exclude the majority of academically qualified applicants are now the norm in our leading universities, both public and private. In *The Fifth Wave*, Michael M. Crow and William B. Dabars argue that colleges and universities need to be comprehensively redesigned in order to educate millions more qualified students while leveraging the complementarities between discovery and accessibility. Building on the themes of their prior collaboration, *Designing the New American University*, this book examines the historical development of American higher education—the first four waves—and describes the emerging standard of institutions that will transform the field. What must emerge in this Fifth Wave of universities, Crow and Dabars posit, are institutions that are responsive to the needs of students, focused on access, embedded in their regions, and committed to solving global problems. The Fifth Wave in American higher education, Crow and Dabars write, comprises an emerging league of colleges and universities that aspires to accelerate positive social outcomes through the seamless integration of world-class knowledge production with cutting-edge technological innovation. This set of institutions is dedicated to the advancement of accessibility to the broadest possible demographic that is representative of the socioeconomic and intellectual diversity of our nation. Recognizing the fact that both cooperation and competition between universities is essential if higher education hopes to truly serve the needs of the nation, Fifth Wave schools like Arizona State University are already beginning to spearhead a network spanning academia, business and industry, government agencies and laboratories, and civil society organizations. Drawing from a variety of disciplines, including design, economics, public policy, organizational theory, science and technology studies, sociology, and even cognitive psychology and epistemology, *The Fifth Wave* is a must-read for anyone concerned with the future of higher education in our society.

The Body Hunters Sonia Shah, 2012-03-13 Hailed by John le Carré as “an act of courage on the part of its author” and singled out for praise by the leading medical journals in the United States and the United Kingdom, *The Body Hunters* uncovers the real-life story behind le Carré’s acclaimed novel *The Constant Gardener* and the feature film based on it. A trenchant exposé . . . meticulously researched and packed with documentary evidence (Publishers Weekly), Sonia Shah’s

riveting journalistic account shines a much-needed spotlight on a disturbing new global trend. Drawing on years of original research and reporting in Africa and Asia, Shah examines how the multinational pharmaceutical industry, in its quest to develop lucrative drugs, has begun exporting its clinical research trials to the developing world, where ethical oversight is minimal and desperate patients abound. As the New England Journal of Medicine notes, “it is critical that those engaged in drug development, clinical research and its oversight, research ethics, and policy know about these stories,” which tell of an impossible choice being faced by many of the world’s poorest patients—be experimented upon or die for lack of medicine.

Sexual Assault Frances P. Reddington, Betsy Wright Kreisel, 2009 The second edition of Sexual Assault provides a broader overview of the crime of sexual assault by adding new chapters on drug facilitated sexual assault, child sexual abuse, sexual abuse of the elderly, sex offender treatment and public policy concerning sex offenders. In addition, the second edition provides more Special Features which truly compliment the academic sections of the book. Also, this new edition completes each of the six parts of the text with a page of suggested discussion questions, videos to show and class activities. Authors Reddington and Kreisel approach the topic of sexual assault in a unique way by examining it from a criminal justice perspective. In giving an overview of sexual assault, examining its victimology, discussing the sexual offender, and looking at the role the criminal justice system plays, this book presents a comprehensive and thoroughly informative study of the crime. Emotions and Education: Promoting Positive Mental Health in Students with Learning Disabilities Nicholas D. Young, Christine N. Michael, Teresa Allissa Citro, 2018-01-15 Written by an experienced team of practitioners and scholars, this text attempts to fill the gap in texts that specifically address the needs of Learning Disabilities (LD) students in the socioemotional and mental health domains. By providing a foundational understanding of some of the salient issues facing students with learning disabilities, we hope to empower all of those who are working to ensure their success by providing the

particular challenges that LD students and their families may face, and strategies and best practices for building creativity, resiliency, prosocial behavior, and positive mental health. As a practitioner and family-oriented text, this book seeks to offer a truncated review of relevant literature followed by suggestions to guide practice.

Bullying Maria Luisa Arroyo, Magdalena Gomez, 2012-05-01 Physical, emotional, verbal, and now cyber bullying are an increasing problem in our nation's schools and within our children's social networks. How can we understand it? Community leaders and activists Gómez and Arroyo worked with children, teenagers, and parents—both the victims and the bullies—to put together this searing anthology of original essays, poetry, plays, and commentary on how bullying has affected their lives.

The Path to Gay Rights Jeremiah J. Garretson, 2018-06-05 An innovative, data-driven explanation of how public opinion shifted on LGBTQ rights The Path to Gay Rights is the first social science analysis of how and why the LGBTQ movement achieved its most unexpected victory--transforming gay people from a despised group of social deviants into a minority worthy of rights and protections in the eyes of most Americans. The book weaves together a narrative of LGBTQ history with new findings from the field of political psychology to provide an understanding of how social movements affect mass attitudes in the United States and globally. Using data going back to the 1970s, the book argues that the current understanding of how social movements change mass opinion—through sympathetic media coverage and endorsements from political leaders—cannot provide an adequate explanation for the phenomenal success of the LGBTQ movement at changing the public's views. In The Path to Gay Rights, Jeremiah Garretson argues that the LGBTQ community's response to the AIDS crisis was a turning point for public support of gay rights. ACT-UP and related AIDS organizations strategically targeted political and media leaders, normalizing news coverage of LGBTQ issues and AIDS and signaled to LGBTQ people across the

United States that their lives were valued. The net result was an increase in the number of LGBTQ people who came out and lived their lives openly, and with increased contact with gay people, public attitudes began to warm and change. Garretson goes beyond the story of LGBTQ rights to develop an evidence-based argument for how social movements can alter mass opinion on any contentious topic.
