Cheryl Cisero Durwin, Marla Reese-Weber

Eastern Connecticut State University Tara Ludlow Hurt, 2005-09 Eastern Connecticut State University was founded in 1889 in Willimantic. The university's diverse history includes a one-room start on the third floor of a bank building, tumultuous years of building fires and possible closings, and expansion through the 1960s and 1970s. Today, the university is a sprawling 178-acre campus with 50 administrative, instructional, and residential buildings. Eastern Connecticut State University is a photographic journey beginning with the university's humble beginnings as a small normal school. Highlighted are the eight university principals and presidents who helped shape the school as it grew. The photographs contained within tell a story of persistence, perseverance, determination, and the desire for education to prevail.

Fantasy Literature Mark A. Fabrizio, 2016-10-11 Fantasy literature, often derided as superficial and escapist, is one of the most popular and enduring genres of fiction worldwide. It is also—perhaps surprisingly—thought-provoking, structurally complex, and relevant to contemporary society, as the essays in this volume attest. The scholars, teachers, and authors represented here offer their perspectives on this engaging genre. Within these pages, a reader will find a wealth of ideas to help teachers use these texts in the classroom, challenging students to read fantasy with a critical eye. They employ interdisciplinary, philosophical, and religious lenses, as well as Marxist and feminist critical theory, to help students unlock texts. The books discussed include epic fantasy by such authors as Tolkien and Le Guin, children's fantasy by Beatrix Potter and Saint-Exupéry, modern fantasy by Rowling and Martin, and even fairy tales and comic books. The contributors offer provocations, questioning the texts and pushing the boundaries of meaning within the fantasy genre. And in doing so, they challenge readers themselves to ponder these tales more deeply. But through each of these chapters runs a profound love of the genre and a respect for those who produce such beautiful and moving stories. Furthermore, as with all the books in this series, this volume is informed by the tenets of critical pedagogy, and is focused on re-envisioning fantasy literature through the lens of social justice and empowerment. Prepare to be challenged and inspired as you read these explorations of a much-loved genre.

Into the Beautiful North Luis Alberto Urrea, 2010-06-16 Nineteen-year-old Nayeli works at a taco shop in her Mexican village and dreams about her father, who journeyed to the US when she was young. Recently, it has dawned on her that he isn't the only man who has left town. In fact, there are almost no men in the village—they've all gone north. While watching

The Magnificent Seven, Nayeli decides to go north herself and recruit seven men--her own Siete Magníficos--to repopulate her hometown and protect it from the bandidos who plan on taking it over. Filled with unforgettable characters and prose as radiant as the Sinaloan sun, *Into the Beautiful North* is the story of an irresistible young woman's quest to find herself on both sides of the fence.

This Radical Land Daegan Miller, 2018-03-22 "The American people sees itself advance across the wilderness, draining swamps, straightening rivers, peopling the solitude, and subduing nature," wrote Alexis de Tocqueville in 1835. That's largely how we still think of nineteenth-century America today: a country expanding unstoppably, bending the continent's natural bounty to the national will, heedless of consequence. A country of slavery and of Indian wars. There's much truth in that vision. But if you know where to look, you can uncover a different history, one of vibrant resistance, one that's been mostly forgotten. *This Radical Land* recovers that story. Daegan Miller is our guide on a beautifully written, revelatory trip across the continent during which we encounter radical thinkers, settlers, and artists who grounded their ideas of freedom, justice, and progress in the very landscapes around them, even as the runaway engine of capitalism sought to steamroll everything in its path. Here we meet Thoreau, the expert surveyor, drawing anticapitalist property maps. We visit a black antislavery community in the Adirondack wilderness of upstate New York. We discover how seemingly commercial photographs of the transcontinental railroad secretly sent subversive messages, and how a band of utopian anarchists among California's sequoias imagined a greener, freer future. At every turn, everyday radicals looked to landscape for the language of their dissent—drawing crucial early links between the environment and social justice, links we're still struggling to strengthen today. Working in a tradition that stretches from Thoreau to Rebecca Solnit, Miller offers nothing less than a new way of seeing the American past—and of understanding what it can offer us for the present . . . and the future.

Bosom Friends Thomas J. Balcerski, 2019-08-02 The friendship of the bachelor politicians James Buchanan (1791-1868) of Pennsylvania and William Rufus King (1786-1853) of Alabama has excited much speculation through the years. Why did neither marry? Might they have been gay? Or was their relationship a nineteenth-century version of the modern-day bromance? In *Bosom Friends: The Intimate World of James Buchanan and William Rufus King*, Thomas J. Balcerski explores the lives of these two politicians and discovers one of the most significant collaborations in American political history. He traces the parallels in the men's personal and professional lives before elected office, including their failed romantic courtships and the stories they told about them. Unlikely companions from the start, they lived together as congressional messmates in a Washington, DC, boardinghouse and became close confidantes. Around the nation's capital, the men were mocked for their effeminacy and perhaps their sexuality, and they were likened to Siamese twins. Over time, their intimate friendship blossomed into a significant cross-sectional political partnership. Balcerski examines Buchanan's and King's

contributions to the Jacksonian political agenda, manifest destiny, and the increasingly divisive debates over slavery, while contesting interpretations that the men lacked political principles and deserved blame for the breakdown of the union. He closely narrates each man's rise to national prominence, as William Rufus King was elected vice-president in 1852 and James Buchanan the nation's fifteenth president in 1856, despite the political gossip that circulated about them. While exploring a same-sex relationship that powerfully shaped national events in the antebellum era, *Bosom Friends* demonstrates that intimate male friendships among politicians were--and continue to be--an important part of success in American politics.

Extractive Imperialism in the Americas James Petras, Henry Veltmeyer, 2014-07-24 This book explores the changing face of US imperialism in the context of a system that is in crisis. At issue are the devastating effects of the turn of many multinational corporations towards 'extractivism'—a pillage of society's natural resources.

Making Mongol History Stefan Kamola, 2019-08-05 This book examines the life and work of Rashid al-Din Tabib (d. 1318), the most powerful statesman working for the Mongol Ilkhans in the Middle East. It begins with an overview of administrative history and historiography in the early Ilkhanate, culminating with Rashid al-Din's *Blessed History of Ghazan*, the indispensable source for Mongol and Ilkhanid history. Later chapters lay out the results of the most comprehensive study to date of the manuscripts of Rashid al-Din's historical writing. The complicated relationship between Rashid al-Din's historical and theological writings is also explored, as well as his appropriation of the work of his contemporary historian, `Abd Allah Qashani.

Land of Water, City of the Dead Sarah E. Baires, 2017-06-27 Explores the embodiment of religion in the Cahokia land and how places create, make meaningful, and transform practices and beliefs Cahokia, the largest city of the Mississippian mound cultures, lies outside present-day East St. Louis. *Land of Water, City of the Dead* reconceptualizes Cahokia's emergence and expansion (ca. 1050-1200), focusing on understanding a newly imagined religion and complexity through a non-Western lens. Sarah E. Baires argues that this system of beliefs was a dynamic, lived component, based on a broader ontology, with roots in other mound societies. This religion was realized through novel mortuary practices and burial mounds as well as through the careful planning and development of this early city's urban landscape. Baires analyzes the organization and alignment of the precinct of downtown Cahokia with a specific focus on the newly discovered and excavated Rattlesnake Causeway and the ridge-top mortuary mounds located along the site axes. *Land of Water, City of the Dead* also presents new data from the 1954 excavations of the ridge-top mortuary Wilson Mound and a complete analysis of the associated human remains. Through this skeletal analysis, Baires discusses the ways that Cahokians processed and buried their ancestors, identifying unique mortuary practices that include the intentional dismemberment of human bodies and burial with marine shell beads and other materials.

African American Connecticut Explored Elizabeth J. Normen, 2014-01-27 Winner of the Connecticut League of

Historic Organization Award of Merit (2015) The numerous essays by many of the state's leading historians in African American Connecticut Explored document an array of subjects beginning from the earliest years of the state's colonization around 1630 and continuing well into the 20th century. The voice of Connecticut's African Americans rings clear through topics such as the Black Governors of Connecticut, nationally prominent black abolitionists like the reverends Amos Beman and James Pennington, the African American community's response to the Amistad trial, the letters of Joseph O. Cross of the 29th Regiment of Colored Volunteers in the Civil War, and the Civil Rights work of baseball great Jackie Robinson (a twenty-year resident of Stamford), to name a few. Insightful introductions to each section explore broader issues faced by the state's African American residents as they struggled for full rights as citizens. This book represents the collaborative effort of Connecticut Explored and the Amistad Center for Art & Culture, with support from the State Historic Preservation Office and Connecticut's Freedom Trail. It will be a valuable guide for anyone interested in this fascinating area of Connecticut's history. Contributors include Billie M. Hanging Out and Hanging On Elsa Nunez, 2014-05-07 Hanging Out and Hanging on: From the Projects to the Campus chronicles the progress of students from Hartford and Manchester, Connecticut, who are enrolled in the Dual College Enrollment Program (DCEP) at Eastern Connecticut State University. "Hanging Out" sets the stage for describing the program by first reaching back in time to tell of Dr. Núñez's own beginnings in Puerto Rico and Newark, New Jersey, of her struggles as a non-English speaking elementary school student and her triumphs in high school and college. The next section of the book describes the lives of Latinos in Connecticut and the social, economic, and educational challenges they have faced over time. Her personal experiences and desire to improve the lives of the underprivileged led Dr. Núñez to create the DCEP Program. Through the words of faculty and staff and the personal accounts of six DCEP students, you will read stories of desperation and hope, of struggle and triumph, of heart-breaking failure and stunning success. We hope their story can serve as a model for other communities to follow.

EdPsych Modules Cheryl Cisero Durwin, Marla Reese-Weber, 2016-12-01 Now with SAGE Publications, Cheryl Cisero Durwin and Marla Reese-Weber's EdPsych Modules uses an innovative implementation of case studies and a modular format to address the challenge of effectively connecting theory and research to practice. Each module is a succinct, stand-alone

topic that represents every subject found in traditional chapter texts and can be used in any order for maximum flexibility in organizing your course. Each of the book's eight units of modules begins with a set of four case studies—early childhood, elementary, middle school, and secondary—and ends with “Assess” and “Reflect and Evaluate” questions and activities to encourage comprehension and application of the research and theories presented. The case approach and the extensive pedagogy that support it allows students to constantly see the applications of the theories and research that they are studying in the text.

Young Children's Play Jeffrey Trawick-Smith, 2019-08-16 *Young Children's Play: Development, Disabilities, and Diversity* is an accessible, comprehensive introduction to play and development from birth to age 8 years that introduces readers to various play types and strategies and helps them determine when intervention might be needed. Skillfully addressing both typically developing children and those with special needs in a single volume, this book covers dramatic play, blocks, games, motor play, artistic play, and non-traditional play forms, such as humor, rough and tumble play, and more. Designed to support contemporary classrooms, this text deliberately interweaves practical strategies for understanding and supporting the play of children with specific disabilities (e.g. autism, Down syndrome, or physically challenging conditions) and those of diverse cultural backgrounds into every chapter. In sections divided by age group, Trawick-Smith explores strategies for engaging children with specific special needs, multicultural backgrounds, and incorporating adult-child play and play intervention. Emphasizing diversity in play behaviors, each chapter includes vignettes featuring children's play and teacher interactions in classrooms to illustrate core concepts in action. Filled with research-based applications for professional practice, this text is an essential resource for students of early childhood and special education, as well as teachers and coaches supporting early grades or inclusive classrooms.

Positioning Daniel Defoe's Non-Fiction Aino Mäkikalli, Andreas K. E. Mueller, 2020-05-15 This volume analyses the form, structure and genre of a selection of non-fictional works by Daniel Defoe. Directing our scholarly gaze away from the much studied novels, the essays explore the rhetorical strategies and generic inventiveness on display in Defoe's better known non-fictional texts, such as *The Shortest Way with the Dissenters* and *A Tour through the Whole Island of Great Britain*, and some of his lesser known publications, such as his *Complete English Tradesman* and *An Essay on the History and Reality of Apparitions*. What emerges from the collection is the picture of an author who responded to early eighteenth-century debates and events with outstanding authorial skill and energy, and to whom matters of form and style were of great importance.

The Rise of Israel Jonathan Adelman, 2008-03-25 The state of Israel is one of the most controversial countries in the world. Yet, its unique creation and rise to power in 1948 has not been adequately explained either by its friends (mainstream Zionists) nor by its detractors (Arabists and post-Zionists). Using a variety of comparative methodologies; from contrasting the Jewish state to other minorities in the Ottoman Turkish Empire to the rise of the four Tigers in Asia to newly independent countries and revolutionary socialist countries in Europe and Asia, Jonathan Adelman examines how Israel has gained the strength to overcome great obstacles and become a serious regional power in the Middle East by 2007. Themes addressed include: how the creation of Israel is strikingly different from that of most new states, as undetermined by the major structural forces in the world in the twentieth century how voluntarist forces, those of individual choice, will and strategy, played a major role in its creation and success in-depth analysis of the creation of a revolutionary party, government, army and secret police as critical to the success of the socialist revolution (1881-1977) the enormity of the forces aligned against the state; from major international and religious organizations representing billions of people, international reluctance to helping Israel in crisis, and internal Israeli and Jewish issues the tremendous impact of revolutionary (socialist and semi-capitalist nationalist) factors in giving Israel the strength to survive and become a significant regional power over time. Jonathan Adelman provides a fresh perspective to view one of the most controversial states in the world and avoids the highly charged ideological descriptions that often plague such discussions. Understanding the rise of Israel, a central state in the region, helps to explain a great deal about the Middle East today.
