Metaliteracy: Reinventing Information Literacy to Empower Learners Thomas P. Mackey, Trudi E. Jacobson, 2014 Today's learners communicate, create, and share information using a range of information technologies such as social media, blogs, microblogs, wikis, mobile devices and apps, virtual worlds, and MOOCs. In *Metaliteracy*, respected information literacy experts Mackey and Jacobson present a comprehensive structure for information literacy theory that builds on decades of practice while recognizing the knowledge required for an expansive and interactive information environment. The concept of metaliteracy expands the scope of traditional information skills (determine, access, locate, understand, produce, and use information) to include the collaborative production and sharing of information in participatory digital environments (collaborate, produce, and share) prevalent in today's world. Combining theory and case studies, the authors Show why media literacy, visual literacy, digital literacy, and a host of other specific literacies are critical for informed citizens in the twenty-first century Offer a framework for engaging in today's information environments as active, selfreflective, and critical contributors to these collaborative spaces Connect metaliteracy to such topics as metadata, the Semantic Web, metacognition, open education, distance learning, and digital storytelling This cutting-edge approach to information literacy will help your students grasp an understanding of the critical thinking and reflection required to engage in technology spaces as savvy producers, collaborators, and sharers.

East West Street Philippe Sands, 2017-07-11 A profound, important book, a moving personal detective story and an uncovering of secret pasts, set in Europe's center, the city of bright colors—Lviv, Ukraine, dividing east from west, north from south, in what had been the Austro-Hungarian Empire. A book that explores the development of the world-changing legal concepts of “genocide” and “crimes against humanity” that came about as a result of the unprecedented atrocities of Hitler's Third Reich. It is also a spellbinding family memoir, as the author traces the mysterious story of his grandfather as he maneuvered through Europe in the face of Nazi atrocities. This is “a monumental achievement ... told with love, anger and precision” (John le Carré, acclaimed internationally bestselling author). *East West Street* looks at the personal and intellectual evolution of the two men who simultaneously originated the ideas of “genocide” and “crimes against humanity,” both of whom, not knowing the other, studied at the same university with the same professors, in “the Paris of Ukraine,” a major cultural center of Europe, a city variously called Lemberg, Lwów, Lvov, or Lviv. Phillippe Sands changes the way we look at the world, at our understanding of history and how civilization has tried to cope with mass murder

The Light Above Maria Dintino, 2022-01-18 *The Light Above* is a memoir told through the unfolding stories of two proud daughters of New England—Margaret Fuller, American transcendentalist, women's rights champion, and public intellectual, alive in the first half of the nineteenth century; and Maria Dintino, the author, daughter of a first-generation Italian American

and longtime New Hampshire. A literary enthusiast, Dintino encounters Fuller and discovers that her stories shed light on her own. Fuller becomes Dintino's guide and teacher, and Dintino gradually deepens in understanding and trust of her own life story. A memoir that reveals the impact of shared stories, extending beyond the limits of time and place.

Terminal Brian Keene, 2005-05-31 From award-winning author Brian Keene comes a darkly suspenseful tale of crime and the common man—with a surprising jolt of the supernatural . . . Tommy O'Brien once hoped to leave his run-down industrial hometown. But marriage and fatherhood have kept him running in place, working a job that doesn't even pay the bills. And now he seems fated to stay for the rest of his life. Tommy's just learned he's going to die young— and soon. But he refuses to leave his family with less than nothing—especially now that he has nothing to lose. Over a couple of beers with his best friends, John and Sherm, Tommy launches a bold scheme to provide for his family's future. And though his plan will spin shockingly out of control, it will throw him together with a child whose touch can heal—and whose ultimate lesson is that there are far worse things than dying. "A powerful, unique novel with a fascinating plot and characters, and echoes of Stephen King's working-class voice."—Ed Gorman

Hope in the Age of Anxiety Anthony Scioli, Henry Biller, 2009-09-03 Economic collapse, poverty, disease, natural disasters, the constant threat of community unrest and international terrorism--a quick look at any newspaper is enough to cause almost anyone to feel trapped and desperate. Yet the recent election also revealed a growing search for hope spreading through society. In the timely *Hope in the Age of Anxiety*, Anthony Scioli and Henry Biller illuminate the nature of hope and offer a multitude of techniques designed to improve the lives of individuals, and bring more light into the world. In this fascinating and humane book, Scioli and Biller reveal the ways in which human beings acquire and make use of hope. *Hope in the Age of Anxiety* is meant to be a definitive guide. The evolutionary, biological, and cultural roots of hope are covered along with the seven kinds of hope found in the world's religions. Just as vital, the book provides many personal tools for addressing the major challenges of the human condition: fear, loss, illness, and death. Some of the key areas illuminated in *Hope in the Age of Anxiety*: How do you build and sustain hope in trying times? How can hope help you to achieve your life goals? How can hope improve your relationships with others? How can hope aid your recovery from trauma or illness? How does hope relate to spirituality? *Hope in the Age of Anxiety* identifies the skills needed to cultivate hope, and offers suggestions for using these capacities to realize your life goals, support health and healing, strengthen relationships, enhance spirituality, and inoculate yourself against the despair that engulfs many individuals.

A Deep Presence Robert Goodby, 2021-10-11 Almost 13,000 years ago, small groups of Paleoindians endured frigid winters on the edge of a river in what would become Keene, New Hampshire. This begins the remarkable story of Native Americans in the Monadnock region of southwestern New Hampshire, part of the traditional homeland of the Abenaki people. Typically neglected or denied by conventional history, the long presence of Native people in southwestern New Hampshire is revealed by archaeological evidence for their deep, enduring connections to the land and the complex social worlds they inhabited. From the Tenant Swamp Site in Keene, with the remains of the oldest known dwellings in New England, to the 4,000-year-old Swanzey Fish Dam still visible in the Ashuelot River, *A Deep Presence* tells their story in a narrative fashion, drawing on the author's thirty years of fieldwork and presenting compelling evidence from archaeology, written history, and the living traditions of today's Abenaki people.

Someone Else's Yesterday Jeffrey J. Keene, 2003 *Someone Else's Yesterday* is an amazing journey as seen through the eyes of two people: one a Georgian, the other a Connecticut Yankee. Gathering information from records, wartime reports, and love letters, Keene uncovers parallels between his life and that of General Gordon.
