The Annual Catalogue of Purdue University, Lafayette, Indiana ... with Announcements for ... Purdue University, 1898

**A University of Tradition** Purdue Reamer Club, 2013 A University of Tradition is a fascinating compilation of history, customs, pictures, and facts about Purdue University from its founding in 1869 to the present day. Covering all aspects of Purdue, from the origin of the nickname of its students and alumni--Boilermakers--to a chronological list of all buildings ever constructed on the campus of West Lafayette, Indiana, this book presents the ultimate insider's guide to one of the world's great universities. It contains a wealth of facts about student, academic, sporting, and campus traditions, as well as biographical information on all the University presidents and other members of Purdue's family, including David Ross, Neil Armstrong, Eliza Fowler, Jack Mollenkopf, Helen Schleman, and Amelia Earhart. A University of Tradition spotlights many items that will spark the memories of any Purdue alumnus or fan. No matter if you were in the All-American Marching Band, lived in the Quad, participated in Grand Prix, wrote for the Purdue Exponent, or were on campus when the Boilermakers won the 1967 Rose Bowl, you will appreciate and enjoy this book. The second edition is fully updated for 2012 and includes information about new landmarks, new traditions, and the incoming twelfth president of the University.

**Ever True** John Norberg, 2019-05-06 In 1869 the State of Indiana founded Purdue University as Indiana's land-grant university dedicated to agriculture and engineering. Today, Purdue stands as one of the elite research and education institutions in the world. Its halls have been home to Nobel Prize- and World Food Prize-winning faculty, record-setting astronauts, laureled humanists, researchers, and leaders of industry. Its thirteen colleges and schools span the sciences, liberal arts, management, and veterinary medicine, boasting more than 450,000 living alumni. Ever True: 150 Years of Giant Leaps at Purdue University by John Norberg captures the essence of this great university. In this volume, Norberg takes readers beyond the iconic redbrick walls of Purdue University's West Lafayette campus to delve into the stories of the faculty, alumni, and leaders who make up this remarkable institution's distinguished history. Written to commemorate Purdue University's sesquicentennial celebrations, Ever True picks up where prior histories leave off, bringing the intricacies of historic tales to the forefront, updating the Purdue story to the present, and looking to the future.

**Purdue at 150** David M. Hovde, Adriana Harmeyer, Neal Harmeyer, 2019-05-06 **Purdue at 150: A Visual History of Student Life** by David M. Hovde, Adriana Harmeyer, Neal Harmeyer, and Sammie L. Morris tells Purdue's story through rare images, artifacts, and words. Authors culled decades of student papers, from scrapbooks, yearbooks, letters, and newspapers to historical photographs and memorabilia preserved in the Purdue University Libraries Virginia Kelly Karnes Archives and Special Collections. Many of the images and artifacts included have never been published, presenting a unique history of the land-grant university from the student perspective. **Purdue at 150** is organized by decade, presenting a scrapbook-like experience of viewing over 400 rare photographs, documents, and artifacts alongside critical contextual information. Each chapter provides a decadal historical sketch of Purdue University, offering insight into the institution's unique culture while incorporating campus responses to major national events such as world wars and the Great Depression. Spotlight sections highlight Purdue firsts, including the first graduates of programs, the growth and development of the international student population at Purdue, the creation of significant student organizations, and the foundations of both old and new campus traditions. This curated journey through the personal experiences, spaces, and events of Purdue's history not only celebrates major accomplishments and acknowledges the contributions Purdue has made to society, but it also explores some of the challenges and tragedies that shaped Indiana's land-grant university. As a result, **Purdue at 150** connects the identity and character of the University of 1869 to the University of 2019 and beyond, as told through the stories of its students. Running throughout this journey is the enduring vision of the land-grant institution and its impact on society, as seen through the material culture of Boilermakers from around the world.

**A Purdue Icon** James L. Mullins, 2019-07-15 The former Purdue Power Plant (HPN) with its iconic smoke stack and the attached Engineering Administration Building (ENAD) at the very heart of campus played important roles for most of the twentieth century. To many Purdue students and alumni, the smoke stack not only symbolized the emphasis at Purdue on technology but also provided a visible marker for the Purdue campus. The smoke stack was lovingly referred to by many as

\Purdue's finger to the world.\ Amid controversy, the smoke stack was demolished in the early 1990s when the Purdue Clock Tower was constructed to locate the campus on the landscape. A Purdue Icon: Creation, Life, and Legacy is an edited volume that speaks to the history of the Power Plant, from the initial need for increased power and heat to meet a growing campus demand and its Romanesque architecture that allowed it to fit contextually on the campus, to the people who worked to bring heat and power to the campus by keeping the boilers up and the students who experienced the principles and applications of mechanical engineering through active learning. This book tells the story of the transition to alternative power and heat sources at the University, the decommissioning of the Power Plant, the controversy about what was to be done with this important site at the heart of the campus, and the challenges associated with the Power Plant's potential reuse or demolition. The unique problems faced with demolishing a contaminated building in the middle of a major research university campus are insightfully explored before introducing the Thomas S. and Harvey D. Wilmeth Active Learning Center-a potential new Purdue icon.

**The Grand Old Man of Purdue University and Indiana Agriculture** Fred Whitford, Andrew G. Martin, 2005 This book recounts William Latta's far-reaching influence on agriculture at the university, throughout Indiana, and on a national level. Recognized as the Father of the School of Agriculture and of Extension at Purdue, Latta was an early and tireless promoter of the university and what it could do for the people of the state. From developing the four-year agriculture program, to conducting practical agricultural research prior to the creation of Purdue's Agricultural Experiment Station, to leading Purdue's agricultural outreach efforts to bring the university to the people, Latta's contributions are still evident in Purdue's modern-day agricultural programs. Latta's story traces the history of agriculture at Purdue, showing agriculturists, historians, and the Purdue community where we've been and the foundation upon which we continue to build today's teaching, research, and Extension programs.--BOOK JACKET.
