Best 143 Business Schools Nedda Gilbert, Princeton Review (Firm), 2004 Our Best 357 Colleges is the best-selling college guide on the market because it is the voice of the students. Now we let graduate students speak for themselves, too, in these brand-new guides for selecting the ideal business, law, medical, or arts and humanities graduate school. It includes detailed profiles; rankings based on student surveys, like those made popular by our Best 357 Colleges guide; as well as student quotes about classes, professors, the social scene, and more. Plus we cover the ins and outs of admissions and financial aid. Each guide also includes an index of all schools with the most pertinent facts, such as contact information. And we've topped it all off with our school-says section where participating schools can talk back by providing their own profiles. It's a whole new way to find the perfect match in a graduate school.

You Me Everything Catherine Isaac, 2018-05-01 "Equal parts wry comedy and touching family drama, it's ultimately a heartbreaker that'll stay with you long after you're done." —Marie Claire "Glass of chilled rosé, check. Comfy chair, check. Box of tissues, check. *You Me Everything* is everything you need for a moving, funny, heartbreaking, and ultimately joyous read." --Susan Wiggs, #1 New York Times bestselling author of *Map of the Heart* Set in the French countryside on an idyllic summer vacation, a delicious, tender novel about finding joy and love even in the most unexpected places. Jess and her ten-year-old son William set off to spend the summer at Château de Roussignol, deep in the rich, sunlit hills of the Dordogne. There, Jess's ex-boyfriend—and William's father—Adam, runs a beautiful hotel in a restored castle. Lush gardens, a gorgeous pool, delectable French food, and a seemingly never-ending wine list—what's not to like? Jess is bowled over by what Adam has accomplished, but she's in France for a much more urgent reason: to make Adam fall in love with his own son. But Adam has other ideas, and another girlfriend—and he doesn't seem inclined to change the habits of a lifetime just because Jess and William have appeared on the scene. Jess isn't surprised, but William—who has quickly come to idolize his father—wants nothing more than to spend time with him. But Jess can't allow Adam to let their son down—because she is tormented by a secret of her own, one that nobody—especially William—must discover. By turns heartwrenching and hopeful, *You Me*

Everything is a novel about one woman's fierce determination to grab hold of the family she has and never let go, and a romantic story as heady as a crisp Sancerre on a summer day.

Identity Politics in the United States Khalilah L. Brown-Dean, 2019-09-20 In 2017, a white supremacist rally at the University of Virginia forced many to consider how much progress had been made in a country that, nine years prior, had elected its first Black president. Beyond these racial flashpoints, the increasingly polarized nature of US politics has reignited debates around the meaning of identity, citizenship, and acceptance in America today. In this pioneering book, Khalilah L. Brown-Dean moves beyond the headlines to examine how contemporary controversies emanate from longstanding struggles over power, access, and belonging. Using intersectionality as an organizing framework, she draws on current tensions such as voter suppression, the Me Too movement, the Standing Rock protests, marriage equality, military service, the rise of the Religious Right, protests by professional athletes, and battles over immigration to show how conflicts over group identity are an inescapable feature of American political development. Brown-Dean explores issues of citizenship, race, ethnicity, gender, sexual identity, and religion to argue that democracy in the United States is built upon the battle of ideas related to how we see ourselves, how we see others, and the mechanisms available to reinforce those distinctions. *Identity Politics in the United States* will be an essential resource for students and engaged citizens who want to understand the link between historical context, contemporary political challenges, and paths to move toward a stronger democracy.

We're Not Broken Eric Garcia, 2021 This book is a message from autistic people to their parents, friends, teachers, coworkers and doctors showing what life is like on the spectrum. It's also my love letter to autistic people. For too long, we have been forced to navigate a world where all the road signs are written in another language. With a reporter's eye and an insider's perspective, Eric Garcia shows what it's like to be autistic across America. Garcia began writing about autism because he was frustrated by the media's coverage of it; the myths that the disorder is caused by vaccines, the narrow portrayals of autistic people as white men working in Silicon Valley. His own life as an autistic person didn't look anything like that. He is Latino, a graduate of the University of North Carolina, and works as a journalist covering politics in Washington D.C. Garcia realized he needed to put into writing what so many autistic people have been saying for years; autism is a part of their identity, they don't need to be fixed. In *We're Not Broken*, Garcia uses his own life as a springboard to discuss the social and policy gaps that exist in supporting those on the spectrum. From education to healthcare, he explores how autistic people wrestle with systems that were not built with them in mind. At the same time, he shares the

experiences of all types of autistic people, from those with higher support needs, to autistic people of color, to those in the LGBTQ community. In doing so, Garcia gives his community a platform to articulate their own needs, rather than having others speak for them, which has been the standard for far too long.

Kalamazoo Gals John Thomas, 2012 According to company lore, Gibson, the guitar manufacturer, had ceased guitar production during World War II with only seasoned craftsmen too old for battle doing repairs and completing the few instruments already in progress at their Kalamazoo, Michigan factory. However, beginning in 1942, Gibson started producing wartime guitars each marked with a small, golden banner displaying the slogan: only a Gibson is good enough. Over 9000 of these Banner guitars were produced between 1942 and 1945 and they are considered to be some of the finest acoustic guitars ever produced but who was making them? In this work of musical and social history, Thomas explores the origins of the Gibson Banner guitars and the remarkable women, many of whom had no prior training in instrument construction, who built them.

Red Speedo Lucas Hnath, 2020-08-04 The Obie-winning play by the Tony-nominated playwright of *A Doll's House, Part 2* Ray's swum his way to the eve of the Olympic trials. If he makes the team, he'll get a deal with Speedo. If he gets a deal with Speedo, he'll never need a real job. So, when someone's stash of performance-enhancing drugs is found in the locker-room fridge, threatening the entire team's Olympic fate, Ray has to crush the rumors or risk losing everything. *Red Speedo* is a sharp and stylish play about swimming, survival of the fittest, and the American dream of a level playing field—or of leveling the field yourself.

Sandlot Stats Stanley Rothman, 2012-11-01 *Sandlot Stats* uses the national pastime to help students who love baseball learn—and enjoy—statistics. As Derek Jeter strolls toward the plate, the announcer tosses out a smattering of statistics—from hitting streaks to batting averages. But what do the numbers mean? And how can America's favorite pastime be a model for learning about statistics? *Sandlot Stats* is an innovative textbook that explains the mathematical underpinnings of baseball so that students can understand the world of statistics and probability. Carefully illustrated and filled with exercises and examples, this book teaches the fundamentals of probability and statistics through the feats of baseball legends such as Hank Aaron, Joe DiMaggio, and Ted Williams—and more recent players such as Barry Bonds, Albert Pujols, and Alex Rodriguez. Exercises require only pen-and-paper or Microsoft Excel to perform the analyses. *Sandlot Stats* covers all the bases, including • descriptive and inferential statistics • linear regression and correlation • probability • sports betting • probability distribution functions • sampling distributions • hypothesis testing • confidence intervals • chi-square distribution *Sandlot Stats* offers information covered in most introductory statistics books, yet is peppered with interesting facts from the history of baseball to enhance the interest of the student and make learning fun.

Contested Bodies Sasha Turner, 2017-05-05 It is often thought that slaveholders only began to show an interest in

female slaves' reproductive health after the British government banned the importation of Africans into its West Indian colonies in 1807. However, as Sasha Turner shows in this illuminating study, for almost thirty years before the slave trade ended, Jamaican slaveholders and doctors adjusted slave women's labor, discipline, and health care to increase birth rates and ensure that infants lived to become adult workers. Although slaves' interests in healthy pregnancies and babies aligned with those of their masters, enslaved mothers, healers, family, and community members distrusted their owners' medicine and benevolence. Turner contends that the social bonds and cultural practices created around reproductive health care and childbirth challenged the economic purposes slaveholders gave to birthing and raising children. Through powerful stories that place the reader on the ground in plantation-era Jamaica, *Contested Bodies* reveals enslaved women's contrasting ideas about maternity and raising children, which put them at odds not only with their owners but sometimes with abolitionists and enslaved men. Turner argues that, as the source of new labor, these women created rituals, customs, and relationships around pregnancy, childbirth, and childrearing that enabled them at times to dictate the nature and pace of their work as well as their value. Drawing on a wide range of sources—including plantation records, abolitionist treatises, legislative documents, slave narratives, runaway advertisements, proslavery literature, and planter correspondence—*Contested Bodies* yields a fresh account of how the end of the slave trade changed the bodily experiences of those still enslaved in Jamaica.

Spring 2003 Lab Manual for Quinnipiac University Harry Pylypiw, 2002-12

Weapon of Choice Fredrick E. Ayres, 2020-10-27 How ordinary Americans, frustrated by the legal and political wrangling over the Second Amendment, can fight for reforms that will both respect gun owners' rights and reduce gun violence. Efforts to reduce gun violence in the United States face formidable political and constitutional barriers. Legislation that would ban or broadly restrict firearms runs afoul of the Supreme Court's current interpretation of the Second Amendment. And gun rights advocates have joined a politically savvy firearm industry in a powerful coalition that stymies reform. Ian Ayres and Fredrick Vars suggest a new way forward. We can decrease the number of gun deaths, they argue, by empowering individual citizens to choose common-sense gun reforms for themselves. Rather than ask politicians to impose one-size-fits-all rules, we can harness a libertarian approach—one that respects and expands individual freedom and personal choice—to combat the scourge of gun violence. Ayres and Vars identify ten policies that can be immediately adopted at the state level to reduce the number of gun-related deaths without affecting the rights of gun owners. For example, Donna's Law, a voluntary program whereby individuals can choose to restrict their ability to purchase or possess firearms, can significantly decrease suicide rates. Amending Red Flag statutes, which allow judges to restrict access to guns when an individual has shown evidence of dangerousness, can give police flexible and effective tools to keep people safe. Encouraging the use of unlawful possession petitions can help communities remove guns from more than a million Americans who are legally disqualified from owning them. By embracing these and other new forms of decentralized gun control, the United States can

move past partisan gridlock and save lives now.

Situated Narratives and Sacred Dance Jill Flanders Crosby, JT Torres, 2023-02-14 Using storytelling and performance to explore shared religious expression across continents Through a revolutionary ethnographic approach that foregrounds storytelling and performance as alternative means of knowledge, *Situated Narratives and Sacred Dance* explores shared ritual traditions between the Anlo-Ewe people of West Africa and their descendants, the Arará of Cuba, who were brought to the island in the transatlantic slave trade. The volume draws on two decades of research in four communities: Dzodze, Ghana; Adjodogou, Togo; and Perico and Agramonte, Cuba. In the ceremonies, oral narratives, and daily lives of individuals at each fieldsite, the authors not only identify shared attributes in religious expression across continents, but also reveal lasting emotional, spiritual, and personal impacts in the communities whose ancestors were ripped from their homeland and enslaved. The authors layer historiographic data, interviews, and fieldnotes with artistic modes such as true fiction, memoir, and choreographed narrative, challenging the conventional nature of scholarship with insights gained from sensorial experience. Including reflections on the making of an art installation based on this research project, the volume challenges readers to imagine the potential of approaching fieldwork as artists. The authors argue that creative methods can convey truths deeper than facts, pointing to new possibilities for collaboration between scientists and artists with relevance to any discipline. Publication of the paperback edition made possible by a Sustaining the Humanities through the American Rescue Plan grant from the National Endowment for the Humanities.

After the Fact Jeff Cooper, 2021-11-09 When Jack Collins leaves a small Connecticut law practice to join one of the nation's most prestigious firms, he trades a nondescript office for an elite one in a gleaming New York City skyscraper. He basks in the pride of working with people far more glamorous than those he left behind, including a famous boss, an alluring coworker, and a well-known client, Abigail Walker, the wealthy widow of a senator. Jack thinks he's on the path to glory, but he's really a victim of deceit, a pawn in a game he doesn't even know he's playing. His new boss harbors deep secrets, his seductive coworker is not the person he thinks she is, and his new law firm is at the very center of a blackmail plot involving the widow Walker. Blinded by the allure of wealth and power, Jack doesn't see the danger around him. Time is running out for him to figure out the truth before he loses everything: his career, his marriage, and maybe even his life.
