**The Sustainability in Prisons Project** Carri J. LeRoy, Kelli Bush, Joslyn Trivett, Brittany Gallagher, 2012-09-12 The Sustainability in Prisons Project is a partnership between The Evergreen State College and the Washington State Department of Corrections. Our mission is to bring science and nature into prisons. We conduct ecological research and conserve biodiversity by forging collaborations with scientists, inmates, prison staff, students, and community partners. Equally important, we help reduce the environmental, economic, and human costs of prisons by inspiring and informing sustainable practices.

**Colleges that Change Lives** Loren Pope, 1996 The distinctive group of forty colleges profiled here is a well-kept secret in a status industry. They outdo the Ivies and research universities in producing winners. And they work their magic on the B and C students as well as on the A students. Loren Pope, director of the College Placement Bureau, provides essential information on schools that he has chosen for their proven ability to develop potential, values, initiative, and risk-taking in a wide range of students. Inside you'll find evaluations of each school's program and personality to help you decide if it's a community that's right for you; interviews with students that offer an insider's perspective on each college; professors' and deans' viewpoints on their school, their students, and their mission; and information on what happens to the graduates and what they think of their college experience. Loren Pope encourages you to be a hard-nosed consumer when visiting a college, advises how to evaluate a school in terms of your own needs and strengths, and shows how the college experience can enrich the rest of your life.

**Additions to the Taxonomy of New World Pheidole (Hymenoptera: Formicidae)** John Thomas Longino, 2009

*Listening Is an Act of Love* Dave Isay, 2007-11-08 A New York Times Bestseller "Each interview is a revelation." —USA Today "As heartwarming as a holiday pumpkin pie and every bit as homey . . . what emerges in these compelling pages is hard-won wisdom and boundless humanity." —Seattle Post-Intelligencer As heard on NPR, a wondrous nationwide celebration of our shared humanity StoryCorps founder and legendary radio producer Dave Isay selects the most memorable

stories from StoryCorps' collection, creating a moving portrait of American life. The voices here connect us to real people and their lives—to their experiences of profound joy, sadness, courage, and despair, to good times and hard times, to good deeds and misdeeds. To read this book is to be reminded of how rich and varied the American storybook truly is, how resistant to easy categorization or stereotype. We are our history, individually and collectively, and *Listening Is an Act of Love* touchingly reminds us of this powerful truth. Dave Isay's latest book, *Callings*, published in 2016 from Penguin Press.

*Teaching Critical Thinking* bell hooks, 2013-02-01 In *Teaching Critical Thinking*, renowned cultural critic and progressive educator bell hooks addresses some of the most compelling issues facing teachers in and out of the classroom today. In a series of short, accessible, and enlightening essays, hooks explores the confounding and sometimes controversial topics that teachers and students have urged her to address since the publication of the previous best-selling volumes in her Teaching series, *Teaching to Transgress* and *Teaching Community*. The issues are varied and broad, from whether meaningful teaching can take place in a large classroom setting to confronting issues of self-esteem. One professor, for example, asked how black female professors can maintain positive authority in a classroom without being seen through the lens of negative racist, sexist stereotypes. One teacher asked how to handle tears in the classroom, while another wanted to know how to use humor as a tool for learning. Addressing questions of race, gender, and class in this work, hooks discusses the complex balance that allows us to teach, value, and learn from works written by racist and sexist authors. Highlighting the importance of reading, she insists on the primacy of free speech, a democratic education of literacy. Throughout these essays, she celebrates the transformative power of critical thinking. This is provocative, powerful, and joyful intellectual work. It is a must read for anyone who is at all interested in education today.

**A Guide to Teaching Effective Seminars** Susan R. Fiksdal, 2014-03-21 *A Guide to Teaching Effective Seminars* provides college and university faculty with a new approach to thinking about their teaching and helps them develop a deeper understanding of conversation itself. Seminars often inspire collaborative learning and produce rich educational environments, yet even experienced faculty find these conversations can range in quality. *A Guide to Teaching Effective Seminars* addresses this challenge by presenting a sociolinguistic perspective on seminars and providing instructors with best practices to manage successful seminars. Grounded in research, data, and her own deep experience teaching seminars, author Susan Fiksdal reveals ways students negotiate perspectives on reading, on conversation, and on social identities and power. By giving readers an appreciation of the discourse of seminars, the book helps to undermine stereotypes about language and people, increase civility, reduce misunderstandings, and foster tolerance for new ideas and diverse ways of expressing them. This important resource is for faculty members at all levels of experience and in every discipline who want practical advice about facilitating effective seminars. Special Features: Each chapter explores a key aspect of conversation with examples from a wide range of seminars across disciplines. Transcripts from videotaped seminars showcase authentic

conversations and negotiations between students. End-of-chapter best practices promote critical thinking and collaboration. A companion website features video clips of the transcripts in the book and additional resources.

Colleges That Change Lives Loren Pope, 2006-07-25 Prospective college students and their parents have been relying on Loren Pope's expertise since 1995, when he published the first edition of this indispensable guide. This new edition profiles 41 colleges—all of which outdo the Ivies and research universities in producing performers, not only among A students but also among those who get Bs and Cs. Contents include: Evaluations of each school's program and personality Candid assessments by students, professors, and deans Information on the progress of graduates This new edition not only revisits schools listed in previous volumes to give readers a comprehensive assessment, it also addresses such issues as homeschooling, learning disabilities, and single-sex education.

Jim Crow's Children Peter Irons, 2004-01-27 Peter Irons, acclaimed historian and author of *A People History of the Supreme Court*, explores one of the supreme court's most important decisions and its disappointing aftermath In 1954 the U.S. Supreme Court sounded the death knell for school segregation with its decision in *Brown v. Board of Education of Topeka*. So goes the conventional wisdom. Weaving together vivid portraits of lawyers and such judges as Thurgood Marshall and Earl Warren, sketches of numerous black children throughout history whose parents joined lawsuits against Jim Crow schools, and gripping courtroom drama scenes, Irons shows how the erosion of the *Brown* decision—especially by the Court's rulings over the past three decades—has led to the “resegregation” of public education in America.

**Tahoma and Its People** Jeff Antonelis-Lapp, 2021-07-14 A magnificent active volcano, Mount Rainier ascends to 14,410 feet above sea level—the highest in Washington State. The source of five major rivers, it has more glaciers than any other peak in the contiguous U.S. Its slopes are home to ancient forests, spectacular subalpine meadows, and unique, captivating creatures. In *Tahoma and Its People*, a passionate, informed, hands-on science educator presents a natural and environmental history of Mount Rainier National Park and the surrounding region. Jeff Antonelis-Lapp explores geologic processes that create and alter landscapes, interrelationships within and between plant and animal communities, weather and climate influences on ecosystems, and what linked the iconic mountain with the people who traveled to it for millennia. He intersperses his own direct observation and study of organisms, as well as personal interactions with rangers, archaeologists, a master Native American weaver, and others. He covers a plethora of topics: geology, archaeology, indigenous villages and use of resources, climate and glacier studies, alpine and forest ecology, rivers, watershed dynamics, keystone species, threatened wildlife, geological hazards, and current resource management. Numerous color illustrations, maps, and figures supplement the text. 2020 Banff Mountain Book Competition Finalist, Mountain Environment and Natural History category

**Savage Conversations** LeAnne Howe, 2019-02-05 “Savage Conversations takes place somewhere in between its sources,

between sanity and madness, between then and now, between the living and the dead. It pushes past the limitations of textual sources for telling indigenous history and accounts of insanity.” —Barrelhouse Reviews May 1875: Mary Todd Lincoln is addicted to opiates and tried in a Chicago court on charges of insanity. Entered into evidence is Ms. Lincoln’s claim that every night a Savage Indian enters her bedroom and slashes her face and scalp. She is swiftly committed to Bellevue Place Sanitarium. Her hauntings may be a reminder that in 1862, President Lincoln ordered the hanging of thirty-eight Dakotas in the largest mass execution in United States history. No one has ever linked the two events—until now. *Savage Conversations* is a daring account of a former first lady and the ghosts that tormented her for the contradictions and crimes on which this nation is founded.

More Courageous Conversations About Race Glenn E. Singleton, 2012-10-03 In this companion to his best-selling book, Singleton presents first-person vignettes and a detailed case study showing educators how to usher in courageous conversations to ignite systemic transformation.

**The Physicist's World** Thomas Grissom, 2011-06-02 Thomas Grissom explains what physics really is: the science of understanding how everything in the universe works. This book tells the unfolding story of our attempt to quantify the material world and to conceptualize the nature of physical laws.

**Defending Wild Washington** Edward A. Whitesell, 2004 Inspiring the next generation: How to lead an effective, grassroots environmental campaign in Washington state.

**Unlikely Alliances** Zoltán Grossman, 2017-06-20 Often when Native nations assert their treaty rights and sovereignty, they are confronted with a backlash from their neighbors, who are fearful of losing control of the natural resources. Yet, when both groups are faced with an outside threat to their common environment—such as mines, dams, or an oil pipeline—these communities have unexpectedly joined together to protect the resources. Some regions of the United States with the most intense conflicts were transformed into areas with the deepest cooperation between tribes and local farmers, ranchers, and fishers to defend sacred land and water. *Unlikely Alliances* explores this evolution from conflict to cooperation through place-based case studies in the Pacific Northwest, Great Basin, Northern Plains, and Great Lakes regions during the 1970s through the 2010s. These case studies suggest that a deep love of place can begin to overcome even the bitterest divides.

*Governing Washington* Cornell W. Clayton, Nicholas P. Lovrich, 2011 American states have recently reemerged as powerful centers of legislative change and policy innovation, and Washington is no exception. Drawing from Populist and Progressive Era roots, Evergreen State voters continue to construct their own distinct brand of democracy and weave strands from the past into current political fiber. Yet other trends suggest an unpredictable future. In *Governing Washington*, contemporary research and updated analysis from prominent regional authorities and commentators examine these themes

and more, and provide a seasoned perspective on the state's ever-changing political landscape.

**Political Bodies** Alice A. Nelson, 2002 Furthermore, she argues that this contest has been enacted literally and figuratively on the stage of human bodies as sites of domination and resistance. Examining works by Pia Barros, David Benavente and the Taller de Investigacion Teatral, Ariel Dorfman, Diamela Eltit, and Isabel Allende, *Political Bodies* engages emergent feminist critiques of authoritarianism in terms of gender and class, history and language.

*How to Be a Dean* George Justice, 2019-03-12 And finally, readers who are simply curious about what deans do will find pointed analysis about what works and what doesn't.

**The Evergreen Study** Charles William Chance, Denis J. Curry, Washington (State). Council for Postsecondary Education, 1978
