Hartford Seen Pablo Delano, 2020-02-21 Hartford Seen is the first modern-day art photography book to focus on Connecticut's capital. Comprising more than 150 full-color images, it has been in the making for two decades. In this personal meditation on the city's built environment, he implements a methodical but intuitive approach, using color and meticulous compositions to evoke the city's essence, particularly the way global population flows impact the city's physical structures. Hartford Seen is meant to be taken as a whole, as a visual document that can shed light on the unique characteristics of one city's past, present, and potential futures.

The Hartford Book Samuel Amadon, 2012 Poetry. In Samuel Amadon's intense, second collection, a sequence of meditative and darkly comic postmodern narratives about what it is like to be from Hartford, Connecticut, we stagger with the speaker down the streets of his still-present past, together with a motley cast of crackheads, liars, scoundrels, and unlikely heroes. The speaker is on the rack and only timidly aware of the torture he cannot help wreaking. Our poetry will never be the same now Amadon has spoken, our language can be entirely different. Happily for us. Richard Howard These poems are street-smart, buoyantly lyrical, and they possess something beautiful and permanent at their core. Samuel Amadon does for Hartford what Koch, Schuyler, and O'Hara have done for New York City. Tracy K. Smith

Vanished Downtown Hartford Daniel Sterner, 2013-05-14 Early nineteenth-century illustrations of Hartford, Connecticut, show church steeples towering over the Victorian homes and brownstone facades of businesses around them. The modern skyline of the town has lost many of these elegant steeples and their quaint and smaller neighbors. Banks have yielded to newer banks, and organizations like the YMCA are now parking lots. In the 1960s, Constitution Plaza replaced an entire neighborhood on Hartford's east side. The city has evolved in the name of progress, allowing treasured buildings to pass into history. Those buildings that survive have been repurposed--the Old State House, built in 1796, is one of the oldest and has found new life as a museum. Yet the memory of these bygone landmarks and scenes has not been lost. Historian Daniel Sterner recalls the lost face of downtown and preserves the historic landmarks that still remain with this nostalgic exploration of Hartford's structural evolution.

Voices from Women Leaders on Success in Higher Education Barbara Cozza,Ceceilia Parnter,2022-02-24 This book assists aspiring and current women leaders on how to advance into higher education leadership roles. Drawn from research and the lived experiences of women and non-binary people in higher education leadership, this book serves as a guide in understanding the gender disparity in higher education leadership and how women leaders forge pathways to promotion and success through systemic barriers, obstacles, and a lack of representation. A critical review of traditional leadership theory offers an opportunity to reimagine how effective leadership is framed and valued in higher education. Chapter authors and case studies explore the intersections of multiple identities and their impacts on leadership through lenses, including institutional type, functional areas, ability, gender identity, sexuality, race, and ethnicity. Focusing on a bridge from theory to practice that is designed to empower and inspire women leaders at all levels of the spectrum, this book is ideal reading for higher education scholars, students, and faculty aspiring to become leaders.

Confronting Urban Legacy Xiangming Chen,Nick Bacon,2013-10-18 *Confronting Urban Legacy* fills a critical lacuna in urban scholarship. As almost all of the literature focuses on global cities and megacities, smaller, secondary cities, which actually hold the majority of the world's population, are either critically misunderstood or unexamined in their entirety. This neglect not only biases scholars' understanding of social and spatial dynamics toward very large global cities but also maintains a void in students' learning. This book specifically explores the transformative relationship between globalization and urban transition in Hartford, Connecticut, while including crucial comparative chapters on other forgotten New England cities: Portland, Maine, along with Lawrence and Springfield, Massachusetts. Hartford's transformation carries a striking imprint of globalization that has been largely missed: from its 17th century roots as New England first inland colonial settlement, to its emergence as one of the world's most prosperous manufacturing and insurance metropolises, to its present configuration as one of America's poorest post-industrial cities, which by still retaining a globally lucrative FIRE Sector is nevertheless surrounded by one of the nation's most prosperous metropolitan regions. The myriad of dilemmas confronting Hartford calls for this book to take an interdisciplinary approach. The editors' introduction places Hartford in a global comparative perspective; Part I provides rich historical delineations of the many rises and (not quite) falls of Hartford; Part II offers a broad contemporary treatment of Hartford by dissecting recent immigration and examining the demographic and educational dimensions of the city-suburban divide; and Part III unpacks Hartford's current social, economic, and political situation and discusses what the city could become. Using the lessons from this book on Hartford and other

underappreciated secondary cities in New England, urban scholars, leaders, and residents alike can gain a number of essential insights—both theoretical and practical.

Narcissism and Selfhood in Medieval French Literature Nicholas Ealy, 2019-09-30 This book offers analyses of texts from medieval France influenced by Ovid's myth of Narcissus including the Lay of Narcissus, Alain de Lille's *Plaint of Nature*, René d'Anjou's *Love-Smitten Heart*, Chrétien de Troyes's *Story of the Grail* and Guillaume de Machaut's *Fountain of Love*. Together, these texts form a corpus exploring human selfhood as wounded and undone by desire. Emerging in the twelfth century in Western Europe, this discourse of the wounded self has survived with ever-increasing importance, informing contemporary methods of theoretical inquiry into mourning, melancholy, trauma and testimony. Taking its cue from the moment Narcissus bruises himself upon learning he cannot receive the love he wants from his reflection, this book argues that the construct of the wounded self emphasizes fantasy over reality, and that only through the world of the imagination—of literature itself—can our narcissistic injuries seemingly be healed and desire fulfilled.

It discusses the development of mainstream HRM and analyses the significance of the international contexts, processes and issues pertaining to the effective employment of people in different geographical locations. The book is underpinned by a clear analytical framework of key aspects of international HRM and contains some contributed chapters from experts in the field.

One Hundred Years of Hartt Demaris Hansen, 2020-01-07 The University of Hartford's Hartt School celebrates its centennial in this lavishly illustrated book. The Hartt School holds unique qualities that continue to distinguish it from other performing arts institutions. Through personal and official written communications, school newsletters, speeches, and the exquisite quality of artistic expression, a belief in the value of art is continually reinforced, often with great eloquence,

sometimes with humor, and always from the heart.

The Whalers Patrick Pickens, 2021-10-15 More than twenty years after departing Hartford, Connecticut, for Raleigh, North Carolina, the NHL's Whalers continue to inspire passion among fans. As HartfordBusiness.com reported in 2015, Whalers merchandise...still has a cult following not only among fans in Connecticut but around the country. But Whalers devotees aren't just clamoring for jerseys, hats and t-shirts. They're nostalgic for a team that had New England roots for nearly 25 years--in Boston, Springfield, and Hartford--and featured some of the greatest players in NHL history, including Gordie Howe (with his sons Mark and Marty), Bobby Hull, and Ron Francis. Pat Pickens's book details the Whalers' origin in Boston in 1972, the team's WHA championship in 1973, the roof collapse of their home arena that indirectly led to their entrance to the NHL in 1979, their stunning NHL playoff-series win against the top-seeded Quebec Nordiques in 1986, the 1986-87 season when they claimed their first division championship, and their relocation south in 1997 as the Carolina Hurricanes. Pickens imagines a Stanley Cup delivered to hockey-crazed Hartford in 2006, when the Hurricanes instead brought it home to North Carolina. The book also explores the likelihood of an NHL team returning to the Nutmeg State.

Neuro-Symbolic Artificial Intelligence: The State of the Art P. Hitzler, 2022-01-19 Neuro-symbolic AI is an emerging subfield of Artificial Intelligence that brings together two hitherto distinct approaches. "Neuro" refers to the artificial neural networks prominent in machine learning, "symbolic" refers to algorithmic processing on the level of meaningful symbols, prominent in knowledge representation. In the past, these two fields of AI have been largely separate, with very little crossover, but the so-called "third wave" of AI is now bringing them together. This book, *Neuro-Symbolic Artificial Intelligence: The State of the Art*, provides an overview of this development in AI. The two approaches differ significantly in terms of their strengths and weaknesses and, from a cognitive-science perspective, there is a question as to how a neural system can perform symbol manipulation, and how the representational differences between these two approaches can be bridged. The book presents 17 overview papers, all by authors who have made significant contributions in the past few years and starting with a historic overview first seen in 2016. With just seven months elapsed from invitation to authors to final copy, the book is as up-to-date as a published overview of this subject can be. Based on the editors' own desire to understand the current state of the art, this book reflects the breadth and depth of the latest developments in neuro-symbolic AI, and will be of interest to students, researchers, and all those working in the field of Artificial Intelligence.

A Guide to Historic Hartford, Connecticut Daniel Sterner, 2012-07-10 Hartford, Connecticut, was settled as an agrarian society with fertile fields and abundant crops at the confluence of the Connecticut and Little (later Park) Rivers by Reverend Thomas Hooker and his Puritan congregation. Navigation on the rivers quickly established the city as a center for commerce. Author Daniel Sterner delves into the history of Hartford with tours from Bushnell Park to Asylum Hill and through Frog Hollow. Discover the many people, places and events that have shaped the capital of the Constitution State.

The Business of Race: How to Create and Sustain an Antiracist Workplace—And Why it's Actually Good for Business Margaret H. Greenberg, Gina Greenlee, 2021-08-31 This book is not written specifically for White readers, Black readers, readers who are Latino, Asian, or other specific racial or ethnic groups. If you are a business leader, individual contributor, Human Resources or DEI (Diversity, Equity and Inclusion) professional, educator, coach, or consultant, then *The Business of Race* is for you. In the business world, incident-driven, company position statements on Black Lives Matter or Stop Asian Hate are not proxies for the heavy lifting that will penetrate and sustain a shift in the status quo. Advancing racial equity to disrupt institutional racism requires more than a company-wide memo or a tab on a corporate website. Businesses often water down, negate or skirt this reality by touting successes from its cousin—diversity. However, you cannot advance a strategy you do not name. The general term “diversity” enables that dynamic. It’s impossible to create an antiracist workplace when we avoid speaking the words “race” and “racism.” Co-authored by two business women, one Black and one White, *The Business of Race* can help us all prepare for this transformative work. Rather than diving headfirst with well-meaning but ineffectual efforts, we must first ready our organizations. The authors outline both the inner work (raising our own individual awareness and creating new ways of thinking and being), and the outer work organizations must undertake. This includes honest and often uncomfortable discussions. And carrying out as core to operational business strategy and performance, policies and practices to reimagine a racially equitable workplace. Whether you’re a rising entrepreneur, a supervisor or manager, a leader of a large multinational company, or a frontline employee, you’ll find concrete actions in this essential guide: Why Racial Diversity, Why Now – A Competitive Advantage Commitment, Specificity, and the Science of Small Wins Uncomfortable Truths and Fearless Leaders Look for Talent Where Others Are Not No Secrets in Pay and Promotions – Close the Wage Gap Discover Your “E” and Measure its Impact Woven throughout *The Business of Race* are interviews with dozens of business professionals across myriad industries, fields and organizational levels. Their stories bring voice to the challenges and opportunities businesses face every day, and provide readers with the courage and tools to openly, honestly, and effectively address the deeply complex, emotional and intimidating dynamic of race and racism in the workplace.
