Dead Wrong Richard Belzer, David Wayne, 2012-08-01 For years, the government has put out hits on people that they found “expendable,” or who they felt were “talking too much,” covering up their assassinations with drug overdoses and mysterious suicides. In *Dead Wrong*, a study of the scientific and forensic facts of various Government cover-ups, Richard Belzer and David Wayne argue that Marilyn Monroe was murdered, that the person who shot Martin Luther King Jr. was ordered to do so by the government, and examines many other terrifying lies we've been told throughout our country's history. The extensive research shows how our government has taken matters into its own hands, plotting murder whenever it saw fit. Belzer and Wayne also examine the deaths of White House Counsel Vincent Foster, U.N. Weapons Inspector Dr. David C. Kelly, and bio-weapons expert Dr. Frank Olson, as well as the cases of two murders directly linked Lyndon B. Johnson, the 36th President of the United States. “Big Brother” is watching you—through the scope of a sniper rifle. *Dead Wrong* will give you the straight facts on some of the most controversial and famous deaths this country has ever seen. The harsh reality is that our government only tells us what we want to hear, as they look out for their own best interests and eliminate anyone who gets in their way.

Walt Kelly and Pogo James Eric Black, 2015-12-30 One of the most popular comic strips of the 1950s and the first to reference politics of the day, Walt Kelly's *Pogo* took on Joe McCarthy before the controversial senator was a blip on Edward R. Murrow's radar. The strip's satire was so biting, it was often relegated to newspaper editorial sections at a time when artists in other media were blacklisted for far less. *Pogo* was the vanguard of today's political comic strips, such as *Doonesbury* and *Pearls Before Swine*, and a precursor of the modern political parody of late night television. This comprehensive biography of Kelly reveals the life of a conflicted man and unravels the symbolism and word-play of his art for modern readers. There are 241 original *Pogo* comic strips illustrated and 13 other Kelly artworks (as well as illustrations by other cartoonists).

Letters of the Century Lisa Grunwald, Stephen J. Adler, 2008-04-08 Immediate and evocative, letters witness and fasten history, catching events as they happen, write Lisa Grunwald and Stephen J. Adler in their introduction to this remarkable book. In more than 400 letters from both famous figures and ordinary citizens, *Letters of the Century* encapsulates the people and places, events and trends that shaped our nation during the last 100 years. Here is Mark Twain's hilarious letter of complaint to the head of Western Union, an ecstatic letter from a young Charlie Chaplin upon receiving his first movie contract, Einstein's letter to Franklin Roosevelt warning about atomic warfare, Mark Rudd's generation gap letter to the president of Columbia University during the student riots of the 60s, and a letter from young Bill Gates imploring hobbyists not to share software so that innovators can make some money... In these pages, our century's most celebrated figures become everyday people and everyday people become part of history. Here is a veteran's wrenching letter left at the Vietnam Wall, a poignant correspondence between two women trying to become mothers, a heart-breaking letter from an AIDS sufferer telling his parents how he wants to be buried, an indignant e-mail from a PC user to his on-line server... Letters, write Grunwald and Adler, give history a voice. Arranged chronologically by decade, illustrated with over 100 photographs, *Letters of the Century* creates an extraordinary chronicle of our history, through the voices of the men and women who have lived its greatest moments.

Rehoboth Beach Michael Morgan, 2009-03-17 Memories of lost pirates' treasure, daring rescues off the coast and prowling German U-boats linger amidst the dunes and sea grass of Rehoboth Beach. From modest beginnings as a religious retreat, the town has survived fierce storms and gales to blossom into a vibrant community and the nation's summer capital. Though today the town's population is in decline on par with many small towns, but during the summer months, this little Delaware community can expect as many as 25,000 tourists soaking up the sun and playing in the surf. With spirit and a touch of wry humor, Delmarva journalist Michael Morgan regales his audience with tales of intrepid explorers, brave guardians of the beach and ever-evolving trends in swimwear. Morgan invites his readers beyond the boardwalk to catch a glimpse of the true Rehoboth Beach.

Concentrated Investing Allen C. Benello, Michael van Biema, Tobias E. Carlisle, 2016-03-31 Discover the secrets of the world's top concentrated value investors *Concentrated Investing: Strategies of the World's Greatest Concentrated Value Investors* chronicles the virtually unknown—but wildly successful—value investors who have regularly and spectacularly blown away the results of even the world's top fund managers. Sharing the insights of these top value investors, expert authors Allen Benello, Michael van Biema, and Tobias Carlisle unveil the strategies that make concentrated value investing incredibly profitable, while at the same time showing how to mitigate risk over time. Highlighting the history and approaches of four top value investors, the authors tell the fascinating story of the investors who dare to tread where few others have,

and the wildly-successful track records that have resulted. Turning the notion of diversification on its head, concentrated value investors pick a small group of undervalued stocks and hold onto them through even the lean years. The approach has been championed by Warren Buffett, the best known value investor of our time, but a small group of lesser-known investors has also used this approach to achieve outstanding returns. Discover the success of Lou Simpson, a former GEICO investment manager and eventual successor to Warren Buffett at Berkshire Hathaway Read about Kristian Siem, described as Norway's Warren Buffett, and the success he has had at Siem Industries Concentrated Investing will quickly have you re-thinking the conventional wisdom related to diversification and learning from the top concentrated value investors the world has never heard of.

Funnybooks Michael Barrier, 2015 Funnybooks is the story of the most popular American comic books of the 1940s and 1950s, those published under the Dell label. For a time, “Dell Comics Are Good Comics” was more than a slogan—it was a simple statement of fact. Many of the stories written and drawn by people like Carl Barks (Donald Duck, Uncle Scrooge), John Stanley (Little Lulu), and Walt Kelly (Pogo) repay reading and rereading by educated adults even today, decades after they were published as disposable entertainment for children. Such triumphs were improbable, to say the least, because midcentury comics were so widely dismissed as trash by angry parents, indignant librarians, and even many of the people who published them. It was all but miraculous that a few great cartoonists were able to look past that nearly universal scorn and grasp the artistic potential of their medium. With clarity and enthusiasm, Barrier explains what made the best stories in the Dell comic books so special. He deftly turns a complex and detailed history into an expressive narrative sure to appeal to an audience beyond scholars and historians.

On Record Schalk van der Merwe, 2017-07-12 Popular Afrikaans music artists have done well in post-apartheid South Africa and enjoy the enthusiastic support of loyal fans. This support is fuelled by a complex set of emotions linked to e;being Afrikaanse; in a culturally pluralistic society. In On Record, van der Merwe investigates the interplay between popular music and the unfolding of Afrikaans culture politics from the start of the twentieth century to the present. It includes a search for the earliest recorded Afrikaans songs and documents subsequent phases of music development that reflect the agency of ordinary individuals - artists and listeners - against a background of fundamental societal and political change. It regards both the music mainstream and the alternative, and reveals, among other things, historical cases of compliance and resistance regarding the master narrative of Afrikaner nationalist ideology, the attempts by cultural entrepreneurs to establish authority over popular Afrikaans culture, class tension, lasting racial exclusivity, protest and censorship, and the post-apartheid invocation of Afrikaner nostalgia and white victimhood. Ultimately, On Record provides an uninterrupted account, and a critique, of the entire history of recorded popular Afrikaans music up to the present.

Plate en Politiek S.D. van der Merwe, 2019-07-31 Populere Afrikaanse musiekkunstenaars het sover goed gedoen in

post'apartheid Suid-Afrika en geniet die entoesiastiese ondersteuning van lojale volgelinge. Hierdie ondersteuning word aangevuur deur 'n komplekse stel emosies wat verband hou daarmee e;om Afrikaans te weese; in 'n kultureel pluralistiese samelewing. In Plate en Politiek ondersoek Van der Merwe die interaksie tussen populere musiek en die ontvouing van 'n Afrikaanse kultuurpolitiek vanaf die begin van die twintigste eeu tot die hede. Dit sluit 'n soektog in na die eerste opgeneemde Afrikaanse lieder en dokumenteer die daaropvolgende fases van musiekontwikkeling wat die agentskap van ordinere mense - kunstenaar en luisteraar - weerspieël teen die agtergrond van fundamentele sosiale en politieke verandering. Dit besin oor beide die musiekhooftroom en meer alternatiewe musiek, en ontbloot onder andere, historiese voorbeelde van die akkommodering van, en verset teen, die meesternarratief van die Afrikanernasionalistiese ideologie, pogings van kulturele entrepreneurs om beheer uit te oefen oor populere Afrikaanse kultuur, klassespanning, blywende rasse-eksklusiwiteit, protes en sensuur, en die post'apartheid oproeping van Afrikaner nostalgie en wit slagofferskap. Uiteindelik bied Plate en Politiek 'n on-onderbroke weergawe van , en 'n kritiese blik op, meer as 'n eeu van opgeneemde Afrikaanse musiek.

Hidden History of Lewes Michael Morgan, 2014-04-15 Proudly laying claim to the title of first town in the first state, Lewes, Delaware, has a history brimming with little-known tales of gentleman pirates, desperate acts of cannibalism and a failed British bombardment in the War of 1812. Another attempted invasion occurred in 1853, when raucous New England fishermen intent on having a good time were repelled by residents armed with clubs and an old cannon. In 1926, the Cape Henlopen Lighthouse toppled onto the beach. With the light extinguished, bootleggers had an easier time plying their trade. On January 5, 1932, a captured rumrunner was accidentally set ablaze when an oil slick caught fire on the Lewes and Rehoboth Canal. Author Michael Morgan explores stories of impromptu presidential dips, charismatic preachers, German POW camps and other lost tales from the history of Lewes.

Second Reading Jonathan Yardley, 2011-06-28 The Pulitzer Prize-winning book critic shares recollections and reviews from his career at the Washington Post. In this book, Jonathan Yardley considers lesser-known works from renowned authors and underappreciated talents, and offers fresh takes on old favorites. Yardley's reviews of sixty titles include fiction by Gabriel García Márquez, John Cheever, and Henry Fielding; the autobiography of Louis Armstrong; essays by Nora Ephron; and Margaret Leech's history of Washington during the Civil War. Second Reading is also the memoir of a passionate and lifelong reader told through the books that have meant the most to him. Playing the part of both reviewer and bibliophile, Yardley takes on Steinbeck and Salinger, explores the southern fiction of Shirley Ann Grau and Eudora Welty, looks into a darker side of Roald Dahl, and praises the pulp fiction of William Bradford Huie and the crime novels of John D. MacDonald. Collected from a popular Washington Post column of the same name, Second Reading is an incisive and entertaining look at the career and times of an esteemed critic and the venerable books that shaped him. This delightful consideration reminds

readers that thoughtful criticism and a lively sense of fun can exist side by side.

The Future of United States, China, and Taiwan Relations C. Lin, D. Roy, 2011-05-09 Relations across the Taiwan Strait were unstable for decades before May 2008. Several acknowledged crises raised the possibility of war between China and the US and/or Taiwan and at times political disputes wracked the US-Taiwan relationship. Nevertheless, the Taiwan Relations Act (TRA) of 1979 helped maintain peace by deterring coercive actions by China against the island.

Paths to a Green World The Political Economy of the Global Environment Jennifer Clapp And Peter Dauvergne, 2008

The Complete Civil War Road Trip Guide Michael Weeks, 2009-03-24 This tour guide features ten different itineraries that lead visitors through every major campaign site, as well as 450 lesser-known venues in unlikely places such as Idaho and New Mexico.

Paths to a Green World, second edition Jennifer Clapp, Peter Dauvergne, 2011-03-11 A new edition of a book that takes a comprehensive look at the ways economic processes affect global environmental outcomes. This comprehensive and accessible book fills the need for a political economy view of global environmental politics, focusing on the ways international economic processes affect environmental outcomes. It examines the main actors and forces shaping global environmental management, particularly in the developing world. Moving beyond the usual emphasis on international agreements and institutions, it strives to capture not only academic theoretical debates but also views on politics, economics, and the environment within the halls of global conferences, on the streets during antiglobalization protests, and in the boardrooms of international agencies, nongovernmental organizations, and industry associations. The book maps out an original typology of four contrasting worldviews of environmental change—those of market liberals, institutionalists, bioenvironmentalists, and social greens—and uses them as a framework to examine the links between the global political economy and ecological change. This typology provides a common language for students, instructors, and scholars to discuss the issues across the classical social science divisions. The second edition of this popular text has been thoroughly revised and updated to reflect recent events, including the food crisis of 2007-2008, the financial meltdown of 2008, and the Copenhagen Climate Conference of 2009. Topics covered include the environmental implications of globalization; wealth, poverty, and consumption; global trade; transnational corporations; and multilateral and private finance.

Teaching Comics Through Multiple Lenses Crag Hill, 2016-08-05 Building off the argument that comics succeed as literature—rich, complex narratives filled with compelling characters interrogating the thought-provoking issues of our time—this book argues that comics are an expressive medium whose moves (structural and aesthetic) may be shared by literature, the visual arts, and film, but beyond this are a unique art form possessing qualities these other mediums do not. Drawing from a range of current comics scholarship demonstrating this point, this book explores the unique intelligence/s of

comics and how they expand the ways readers engage with the world in ways different than prose, or film, or other visual arts. Written by teachers and scholars of comics for instructors, this book bridges research and pedagogy, providing instructors with models of critical readings around a variety of comics.

Approaches to Developing Accessible Learning Experiences Jane Seale, 2013-10-18 For the past five to ten years researchers have been developing tools and guidelines for developing accessible e-learning experiences for students with disabilities. Despite this, very few practitioners in higher education are confident that they know how to develop accessible e-learning experiences. This is prompting researchers to work with practitioners in order to develop meaningful approaches to addressing accessibility; ones that facilitate the development of a clear conceptualisation of why and how practice can be changed to meet the varied needs of students. This book describes these approaches and explores the extent to which they might challenge current thinking and understanding. Topics covered include: approaches to developing accessible multimedia and learning objects holistic approaches to developing accessible e-learning and blended learning experiences institutional and programme approaches to addressing accessibility issues. Exploration and discussion of these topics will challenge practitioners to reconceptualise their understanding of 'best practice' in relation to accessibility and e-learning and offer directions for future practice and development. This book was previously published as a special issue of Alt-J.
