*The Thin Light of Freedom: The Civil War and Emancipation in the Heart of America* Edward L. Ayers,2017-10-24 Winner of the Lincoln Prize A landmark Civil War history told from a fresh, deeply researched ground-level perspective. At the crux of America's history stand two astounding events: the immediate and complete destruction of the most powerful system of slavery in the modern world, followed by a political reconstruction in which new constitutions established the fundamental

rights of citizens for formerly enslaved people. Few people living in 1860 would have dared imagine either event, and yet, in retrospect, both seem to have been inevitable. In a beautifully crafted narrative, Edward L. Ayers restores the drama of the unexpected to the history of the Civil War. From the same vantage point occupied by his unforgettable characters, Ayers captures the strategic savvy of Lee and his local lieutenants, and the clear vision of equal rights animating black troops from Pennsylvania. We see the war itself become a scourge to the Valley, its pitched battles punctuating a cycle of vicious attack and reprisal in which armies burned whole towns for retribution. In the weeks and months after emancipation, from the streets of Staunton, Virginia, we see black and white residents testing the limits of freedom as political leaders negotiate the terms of readmission to the Union. With analysis as powerful as its narrative, here is a landmark history of the Civil War.

*The Wild Cascades* Harvey Manning, 1969

*World Mythology* Roy G. Willis, 1993 The great myths of the world create meaning out of the fundamental events of human existence: birth, death, conflict, loss, reconciliation, the cycle of the seasons. They speak to us of life itself in voices still intelligible, yet compellingly strange and distant. World Mythology offers readers an authoritative and wide-ranging guide to these enduring mythological traditions, combining the pure narrative of the myths themselves with the background necessary for more complete understanding. Here, noted mythology expert Roy Willis, brings together a team of nineteen leading scholars navigate a clear path through the complexities of myth as they distill the essence of each regional tradition and focus on the most significant figures and the most enthralling stories. All aspects of the world's key mythologies are covered, from tales of warring deities and demons to stories of revenge and metamorphosis; from accounts of lustful gods and star-crossed human lovers to journeys in the underworld. All are told at length and are accompanied by illuminating and readable introductory text. Also included are summaries of important theories about the origins and meaning of myth, and an examination of themes that recur across a range of civilizations. Beautifully illustrated with more than 500 color photographs, works of art, charts, and maps, World Mythology offers readers the most accessible guide yet to the heritage of the world's imagination.

**Niagara Digressions** E. R. Baxter, 2012 A naturalist storyteller's memoir, Niagara Digressions presents land as historical palimpsest, with legacies poetic and violent.

Transforming Lives and Systems Jack Frawley, Tran Nguyen (Lecturer in cultural competence), Emma Sarian, 2020 This open access book explores the transformative experiences of participants in the University of Sydney's National Centre for Cultural Competence (NCCC) programs. The establishment of the NCCC was viewed as a critical point of departure for developing an institution-wide agenda of cultural competence. The NCCC's work since its inception reflects efforts to lay important foundations for cultural change at the University. With the ultimate aim of establishing cultural competence as an agent for transformational change and social justice education, the NCCC has steadily expanded its research and teaching

work both within and beyond the University of Sydney. Further, it has developed foundational resources to support and encourage University staff to integrate cultural competence philosophy and pedagogy in their curricula, teaching and research. This includes the ability to engage meaningfully with the cultures, histories and contemporary issues in Aboriginal and Torres Strait Islander communities. The NCCC programs have been designed to encourage participants to learn about who they are and how they can positively impact the transformational change the University has begun. The book presents participants reflections on their experiences at the organisational and personal level. Readers will gain insights into a range of topics including cultural competence, communities of practice, policy implementation, and transformative leadership at the interface between higher education and professional lives.

**Complete Cheerleading** Justin Carrier, Donna McKay, 2005-10-31 In the past decade, cheerleading has lit up the sidelines and become an activity all its own. Attendance at summer camps has grown to more than 500,000 participants annually, and tens of thousands train for regional and national competitions each year, with championships and even college scholarships on the line. As cheerleading continues to grow, so too does the need for a source of information that covers the range of skills, stunts, and moves. Complete Cheerleading provides all the information participants need in order to excel in this highly athletic and increasingly competitive activity. Top cheerleading coaches and judges lend their expert instruction on such crucial topics as body position and movement, voice control, jumps and tumbling, stunt technique, and choreography. There are chapters dedicated solely to games and pep rallies, camps and competition, and practices and conditioning, in addition to XX stunts for all levels of cheer squads. Teaming Justin Carrier, National Cheerleading Association (NCA) director of curriculum, and Donna McKay, cheer coach in Iowa and national judge, this book combines success at the national level, long-term coaching expertise at the high school level, and judging experience at every level. Complete Cheerleading is the all-in-one authoritative source that cheerleaders, coaches, and advisors will turn to from one spirited season to the next.

**Corvette Concept Cars** Scott Kolecki, 2022-05-15 For more than a half century, the Corvette has been celebrated as “America’s sports car” by owners and enthusiasts. Since the first model rolled off the assembly line on June 29, 1953, it has been transformed time and again from a well-intentioned-but-underpowered boulevard cruiser into one of the most iconic sports cars of all time! How did Harley Earl’s original vision for a two-seat sports car progress through eight distinct generations to become the car that we know and love today? Who were the visionaries responsible for advancing its form and function over the last 70 years? Also, why has the Corvette continued to find commercial success in an ever-changing marketplace when so many other automobiles have come and gone since its creation? Corvette Concept Cars: Developing America's Favorite Sports Car answers these questions by delving into the origins of the Chevrolet Corvette and of the countless designers, engineers, drivers, and dreamers responsible for its creation. It explores the personal histories of

Corvette's greatest visionaries (Harley Earl, Zora Arkus-Duntov, and Bill Mitchell) and tells how each of their fates were indelibly intertwined with the rich (and sometimes volatile) history of Chevrolet's flagship sports car. This book is an exploration of the Corvette concept cars from the earliest turnstile dream cars and purpose-built racers to the many unique mid-engined concept and research vehicles that preceded the creation of the current production model: the eighth-generation mid-engine Stingray. Painstakingly researched and written by Corvette historian Scott Kolecki and packed with more than 400 incredible photographs, *Corvette Concept Cars: Developing America's Favorite Sports Car* is the quintessential history of the evolution of the Chevrolet Corvette!

**Realising REDD+** Arild Angelsen, 2009-01-01 REDD+ must be transformational. REDD+ requires broad institutional and governance reforms, such as tenure, decentralisation, and corruption control. These reforms will enable departures from business as usual, and involve communities and forest users in making and implementing policies that affect them. Policies must go beyond forestry. REDD+ strategies must include policies outside the forestry sector narrowly defined, such as agriculture and energy, and better coordinate across sectors to deal with non-forest drivers of deforestation and degradation. Performance-based payments are key, yet limited. Payments based on performance directly incentivise and compensate forest owners and users. But schemes such as payments for environmental services (PES) depend on conditions, such as secure tenure, solid carbon data and transparent governance, that are often lacking and take time to change. This constraint reinforces the need for broad institutional and policy reforms. We must learn from the past. Many approaches to REDD+ now being considered are similar to previous efforts to conserve and better manage forests, often with limited success. Taking on board lessons learned from past experience will improve the prospects of REDD+ effectiveness. National circumstances and uncertainty must be factored in. Different country contexts will create a variety of REDD+ models with different institutional and policy mixes. Uncertainties about the shape of the future global REDD+ system, national readiness and political consensus require flexibility and a phased approach to REDD+ implementation.

**The Politics and Civics of National Service** Melissa Bass, 2013-01-03 In 1933 President Franklin D. Roosevelt created America's first domestic national service program: the Civilian Conservation Corps (CCC). As part of this program—the largest and most highly esteemed of its kind—nearly three million unemployed men worked to rehabilitate, protect, and build the nation's natural resources. It demonstrated what citizens and government could accomplish together. Yet despite its success, the CCC was short lived. While more controversial programs such as President Johnson's Volunteers in Service to America (VISTA) and President Clinton's AmeriCorps survived, why did CCC die? And why—given the hard-won continuation and expansion of AmeriCorps—is national service an option for fewer Americans today than at its start nearly eighty years ago? In *The Politics and Civics of National Service*, Melissa Bass focuses on the history, current relevance, and impact of domestic civilian national service. She explains why such service has yet to be deeply institutionalized in the United States;

while military and higher education have solidified their roles as American institutions, civilian national service is still not recognized as a long-term policy option. Bass argues that only by examining these programs over time can we understand national service's successes and limitations, both in terms of its political support and its civics lessons. *The Politics and Civics of National Service* furthers our understanding of American political development by comparing programs founded during three distinct political eras—the New Deal, the Great Society, and the early Clinton years—and tracing them over time. To a remarkable extent, the CCC, VISTA, and AmeriCorps reflect the policymaking ethos and political controversies of their times, illuminating principles that hold well beyond the field of national service. By emphasizing these programs' effects on citizenship and civic engagement, *The Politics and Civics of National Service* deepens our understanding of how governmental programs can act as public policy for democracy.

*The Bike Path Killer* Michael Beebe, Maki Becker, 2012-03-01 He Raped. . . Altemio Sanchez was a modern-day Jekyll and Hyde—a family man who resided in Buffalo, New York, with a wife and two sons, worked nights as a machinist, and concealed a terrible secret. Once a year, after his shift, he'd make a side trip to a secluded spot where women would ride bikes and jog. He was called The Bike Path Rapist—until he crossed the line from rape to murder. He Killed. . . For fourteen years, the Bike Path Killer mercilessly raped and murdered his prey, eluding police every step of the way. Then, the killings stopped. People wondered whether he'd left town, had been locked up in prison for another crime, or maybe even died. But when another woman's corpse with the same lethal signature surfaced, authorities knew the Bike Path Killer was back. And He Almost Got Away With It. Now, for the first time, two award-winning reporters follow a depraved killer's bloody trail of terror to the bitter end: his horrifying confession. . . Includes 16 pages of shocking photos.

Affiliation in the Workplace Ron Elsdon, 2002-10-30 This book draws on studies that quantify the link between individual development and organizational value creation. Strengthening this link is key to building a strong sense of affiliation and a more productive workforce. The author provides frameworks for characterizing the workforce, listening to the organization, using inclusion as a key differentiator, and applying mathematical modeling techniques to explore and quantify related areas. We are entering an era when it makes sense to move away from mere retention strategies of control and toward more mutually beneficial strategies of affiliation. This trend can be traced to the recognition of the knowledge worker's influence and the value of human capital in today's economy. To succeed in this emerging work world, organizational leaders and human resource professionals must create new relationships with individuals built around the concept of affiliation. This will mean changed roles and behaviors that respect mutual interests, and will require a culture of inclusion expressed internally through workforce diversity, externally through workforce partnerships, at a community level through philanthropy, and globally through the pursuit of a greater good.

Women and War in Antiquity Jacqueline Fabre-Serris,Alison Keith,2015-12-15 Women in ancient Greece and Rome played a much more active role in battle than previously assumed. The martial virtues—courage, loyalty, cunning, and strength—were central to male identity in the ancient world, and antique literature is replete with depictions of men cultivating and exercising these virtues on the battlefield. In *Women and War in Antiquity*, sixteen scholars reexamine classical sources to uncover the complex but hitherto unexplored relationship between women and war in ancient Greece and Rome. They reveal that women played a much more active role in battle than previously assumed, embodying martial virtues in both real and mythological combat. The essays in the collection, taken from the first meeting of the European Research Network on Gender Studies in Antiquity, approach the topic from philological, historical, and material culture perspectives. The contributors examine discussions of women and war in works that span the ancient canon, from Homer's epics and the major tragedies in Greece to Seneca's stoic writings in first-century Rome. They consider a vast panorama of scenes in which women are portrayed as spectators, critics, victims, causes, and beneficiaries of war. This deft volume, which ultimately

challenges the conventional scholarly opposition of standards of masculinity and femininity, will appeal to scholars and students of the classical world, European warfare, and gender studies.
