I Can Hear You Whisper Lydia Denworth, 2015-02-24 “A skilled science translator, Denworth makes decibels, teslas and brain plasticity understandable to all.”—Washington Post Lydia Denworth’s third son, Alex, was nearly two when he was identified with significant hearing loss that was likely to get worse. Denworth knew the importance of enrichment to the developing brain but had never contemplated the opposite: deprivation. How would a child’s brain grow outside the world of sound? How would he communicate? Would he learn to read and write? An acclaimed science journalist as well as a mother, Denworth made it her mission to find out, interviewing experts on language development, inventors of groundbreaking technology, Deaf leaders, and neuroscientists at the frontiers of brain plasticity research. *I Can Hear You Whisper* chronicles Denworth’s search for answers—and her new understanding of Deaf culture and the exquisite relationship between sound, language, and learning.

My Dear Bessie Chris Barker, Bessie Moore, 2015-02-05 AS HEARD ON RADIO 4 'Utterly wonderful' NINA STIBBE, author of *Love*, Nina Twenty hours have gone since I last wrote. I have been thinking of you. I shall think of you until I post this, and until you get it. Can you feel, as you read these words, that I am thinking of you now; aglow, alive, alert at the thought that you are in the same world, and by some strange chance loving me. In September 1943, Chris Barker was serving as a signalman in North Africa when he decided to brighten the long days of war by writing to old friends. One of these was Bessie Moore, a former work colleague. The unexpected warmth of Bessie's reply changed their lives forever. Crossing continents and years, their funny, affectionate and intensely personal letters are a remarkable portrait of a love played out against the backdrop of the Second World War. Above all, their story is a stirring example of the power of letters to transform

ordinary lives.
