Co-Create David Nour,2017-05-09 What if your customers had a vested interest in guiding your company toward greater success? What if your employees had a personal as well as professional commitment to elevating your organization? Imagine how different your results would be if investors, vendors, and even analysts treasured the relationship they have built with

you? Most important . . . is your company capable of setting aside a bit of its own self-interest to become part of dramatically more rewarding collaborative effort? That's the provocative and ultimately earthshaking question David Nour poses. He argues that co-creation is a transformational journey that naturally leads to growth and evolution . . . because it gives birth to shared interests that dwarf anything that existed previously. In Co-Create, David Nour makes the case that co-creation leads to Market GravityTM, a force that attracts stakeholders to your business because they recognize that many others have also united their interests with yours. It's the sense—backed by tangible metrics—that this is bigger than any of us imagined . . . except that you imagined precisely such an outcome. That's the power of co-creation.

You'll also find: A list of 26 distinct behaviors that signal a manager or executive is working in an abundance leadership mindset Strategies for leading bravely, making big, impactful promises, and aligning your organization around its purpose Ways to shape the culture at your organization in ways that drive dramatic improvements to the bottom line and worker satisfaction An essential resource for managers, executives, board members, and other business leaders, *Abundance Leaders* will also earn a place in the libraries of anyone with an interest in leadership or organizational culture.
