**Up Your Org** Tawan M. Perry, 2012-03-01 No one ever said that being a student orientation leader is easy. As a former orientation leader, I completely understand the challenges that orientation leaders encounter. I've written this book with you in mind. This guide covers several important topics, such as facilitating small groups, planning dynamic events, dealing with "difficult parents," and being an effective peer mentor. Whether you are a seasoned orientation leader or first-timer, this guide will help you to better serve new students and create an enriching collegiate experience starting day one. Orientation leaders will also discover:

- Creative ways to connect students to your campus as soon as they arrive on campus
- How to masterfully balance and prioritize the first eight weeks of the school year
- How to market events that will result in standing room only attendance
- How to organize a well-attended event from start to finish
- Fun and enjoyable ice breakers for all and practical event evaluation forms

College Orientation for First-Year and Transfer Student Populations Jamie Caplan, 2010-05 Each autumn, millions of new students enter colleges and universities across the country. Orientation is an institution's main opportunity to introduce and integrate new students into the campus community and culture, form class and institutional identity and prepare students to begin classes. Though the majority of new students are first-years, a significant number of participants are transfer students who have previously attended other institutions. During orientation, transfer students are in a unique position; not yet integrated into their college community, they are often considered equal to first-years, though they have previous college experience. Creating and executing successful orientation programming for transfers and first-years simultaneously is difficult but essential to achieve; it can be argued that orientation is the most important contributor to the social and academic integration of new students. The goal of my research was to understand how transfer students and first-years differently experience orientation and to provide a complete outline of how orientation can best support all new students: how can transfer students best be served during orientation?

**Teaching Critical Thinking** bell hooks, 2013-02-01 In *Teaching Critical Thinking*, renowned cultural critic and progressive educator bell hooks addresses some of the most compelling issues facing teachers in and out of the classroom today. In a series of short, accessible, and enlightening essays, hooks explores the confounding and sometimes controversial topics that teachers and students have urged her to address since the publication of the previous best-selling volumes in her Teaching series, *Teaching to Transgress* and *Teaching Community*. The issues are varied and broad, from whether meaningful teaching can take place in a large classroom setting to confronting issues of self-esteem. One professor, for example, asked how black female professors can maintain positive authority in a classroom without being seen through the lens of negative racist, sexist stereotypes. One teacher asked how to handle tears in the classroom, while another wanted to know how to use humor as a tool for learning. Addressing questions of race, gender, and class in this work, hooks discusses the complex balance that allows us to teach, value, and learn from works written by racist and sexist authors. Highlighting the importance of reading, she insists on the primacy of free speech, a democratic education of literacy. Throughout these essays, she celebrates the transformative power of critical thinking. This is provocative, powerful, and joyful intellectual work. It is a must read for anyone who is at all interested in education today.

**Student Success in College** George D. Kuh, Jillian Kinzie, John H. Schuh, Elizabeth J. Whitt, 2011-01-07 *Student Success in College* describes policies, programs, and practices that a diverse set of institutions have used to enhance student achievement. This book clearly shows the benefits of student learning and educational effectiveness that can be realized when these conditions are present. Based on the Documenting Effective Educational Practice (DEEP) project from the Center for Postsecondary Research at Indiana University, this book provides concrete examples from twenty institutions that other colleges and universities can learn from and adapt to help create a success-oriented campus culture and learning environment.

*Freshman Seminar* Robert D. Cohen, 2020-12-07 This book deals with the ongoing orientation program as a method for helping students to make transition to the college environment. It is a practical guidebook for the college administrator and for the student personnel professional who will implement Hunter College's Freshman Seminar Program.

*College Orientation* Karen Bendersky, Catherine M. Chastain-Elliott, 2013-01-22 Communicates college-level expectations during orientation, boot camp, and freshman seminars and sets the stage for higher student performance and greater faculty engagement. *College Orientation* targets freshmen entering four-year institutions and is designed for use from college orientation programs until graduation day and beyond. It provides a roadmap for campus staff and faculty offering orientation programs to facilitate behaviors that increase retention, improve four-year graduation rates, and ultimately, reduce student loan debt. Students receive the information they need to adapt to college life and stay on track towards a degree—all the while learning behaviors that promote achievement after graduation. This comprehensive reference tool is

written from an insider's point of view and has a distinct focus on promoting appropriate college conduct. It covers a multitude of topics that help students navigate the university system while learning how to adapt this information to their future workplace.

100 Lessons That I Learned in College Cristina Doan, 2009-10 So. You're off to college. You've been to Student Orientation and they've told you the generic things about college, like where the library is and where to get your books. But have they told you the important stuff yet? Of course not. But have no fear. 100 Lessons That I Learned In College is here. That's right. 100 Lessons. I learned them all in my first year of college at the University of California, Berkeley. Consider this your survival guide to college, whether you're a freshman or a senior. Inside are secrets and some honest truths about college that your relatives, counselors, and even your closest friends probably won't tell you. Whenever you need a good laugh to cheer you up after you failed your first midterm, this is a good read as well. So don't settle for being clueless about the college life. Be totally prepared for what's to come with this ingenious collection of lessons that you won't learn in the classroom.

*Becoming the Pastor You Hope to Be* Barbara J. Blodgett, 2011-03-29 Becoming the Pastor You Hope to Be unapologetically urges clergy readers to develop practices that will help them become more excellent ministers. A long-time field educator, now serving as a denominational staff person responsible for ministerial formation, Barbara Blodgett believes excellence is a matter of doing simple things with care and consistency. Ministers who commit themselves to excellence will grow and flourish, and even become happier in ministry. Blodgett urges ministers to resist praise and instead to ask for

feedback, to seek the company of mentors who are better than the reader is at what he or she does, to be vulnerable before their peers in order to learn from them, and to define themselves as a leader who does not merely take activist stances but risks entering into deep, transformative relationships. Improvement in ministry, Blodgett argues, comes about not through extraordinary leaps and bounds but rather through adopting simple habits and carrying through on small but thoughtfully made choices. Addressed to ministers, *becoming the Pastor You Hope to Be* is also a valuable resource for discernment committees, Christian educators, leaders of continuing education and lay education programs, and all those who partner with theological schools to help form ministers, both lay and ordained.
