**We Are Not Dreamers** Leisy J. Abrego, Genevieve Negrón-Gonzales, 2020-08-14 The widely recognized “Dreamer narrative” celebrates the educational and economic achievements of undocumented youth to justify a path to citizenship. While a well-intentioned, strategic tactic to garner political support of undocumented youth, it has promoted the idea that access to citizenship and rights should be granted only to a select group of “deserving” immigrants. The contributors to *We Are Not Dreamers*—themselves currently or formerly undocumented—poignantly counter the Dreamer narrative by grappling with the nuances of undocumented life in this country. Theorizing those excluded from the Dreamer category—academically struggling students, transgender activists, and queer undocumented parents—the contributors call for an expansive articulation of immigrant rights and justice that recognizes the full humanity of undocumented immigrants while granting full and unconditional rights. Illuminating how various institutions reproduce and benefit from exclusionary narratives, this volume articulates the dangers of the Dreamer narrative and envisions a different way forward. Abrego, Gabrielle Cabrera, Gabriela Garcia Cruz, Lucía León, Katy Joseline Maldonado Dominguez, Grecia Mondragón, Gabriela Monico, Genevieve Negrón-Gonzales, Maria Liliana Ramirez, Joel Sati, Audrey Silvestre, Carolina Valdivia

**Endemic** Kari Nixon, Lorenzo Servitje, 2016-09-01 This book develops a new multimodal theoretical model of contagion for interdisciplinary scholars, featuring contributions from influential scholars spanning the fields of medical humanities, philosophy, political science, media studies, technoculture, literature, and bioethics. Exploring the nexus of contagion's metaphorical and material aspects, this volume contends that contagiousness in its digital, metaphorical, and biological forms is a pervasively endemic condition in our contemporary moment. The chapters explore both endemicity itself and how epidemic discourse has become endemic to processes of social construction. Designed to simultaneously prime those new to the discourse of humanistic perspectives of contagion, complicate issues of interest to seasoned scholars of science and technology studies, and add new topics for debate and inquiry in the field of bioethics, *Endemic* will be of wide interest for researchers and educators.

**The Sunshine Sisters** Jane Green, 2017 The New York Times bestselling author of *Falling* presents a warm, wise, and

wonderfully vivid novel about a mother who asks her three estranged daughters to come home to help her end her life. Ronni Sunshine left London for Hollywood to become a beautiful, charismatic star of the silver screen. But at home, she was a narcissistic, disinterested mother who alienated her three daughters. As soon as possible, tomboy Nell fled her mother's overbearing presence to work on a farm and find her own way in the world as a single mother. The target of her mother's criticism, Meredith never felt good enough, thin enough, pretty enough. Her life took her to London--and into the arms of a man whom she may not even love. And Lizzy, the youngest, more like Ronni than any of them, seemed to have it easy, using her drive and ambition to build a culinary career to rival her mother's fame, while her marriage crumbled around her. But now the Sunshine sisters are together again, called home by Ronni, who has learned that she has a serious disease and needs her daughters to fulfill her final wishes. And though Nell, Meredith, and Lizzy have never been close, their mother's illness draws them together to confront the old jealousies and secret fears that have threatened to tear these sisters apart. As they face the loss of their mother, they will discover if blood might be thicker than water after all...

**Transgender Family Law** Edited by Jennifer L. Levi & Elizabeth E. Monnin-Browder, 2012-04-19 Transgender people have unique needs and vulnerabilities in the family law context. Any family law attorney engaged in representing transgender clients must know the ins and outs of this rapidly developing area of law. *Transgender Family Law: A Guide to Effective Advocacy* is the first book to comprehensively address legal issues facing transgender people in the family law context and provide practitioners the tools to effectively represent transgender clients. The chapters address a broad range of topics, including: Culturally Competent Representation, Recognition of Name and Sex, Relationship Recognition and Protections, Protecting Parental Rights, Relationship Dissolution, Parental Rights after Relationship Dissolution, Custody Disputes Involving Transgender Children, Protections for Transgender Youth, Intimate Partner Violence, Estate Planning and Elder Law. Written by attorneys with expertise in both family law and advocacy for transgender clients, including: Kylar W. Broadus, Patience Crozier, Benjamin L. Jerner, Michelle B. LaPointe, Jennifer L. Levi, Morgan Lynn, Shannon Price Minter, Elizabeth E. Monnin-Browder, Zack M. Paakkonen, Terra Slavin, Wayne A. Thomas Jr., Deborah H. Wald, and Janson Wu, *Transgender Family Law* is a must-have, practical guide for attorneys interested in becoming effective advocates for their clients. It is also a valuable resource to consult for any transgender person who is forming, expanding, or dissolving a family relationship.

*The Economic and Opportunity Gap* Anni K. Reinking, Theresa Marie Bouley, 2021-04-15 *The Economic and Opportunity Gap* has a great deal of information, ideas and resources focused on children and families living in poverty. Specifically, how teachers and other professionals working with students can reflect, improve, and implement inclusive practices. The information in this book is based in research, such as the foundational starting piece that nearly one-fourth of our children in the United States are living in poverty, a whopping 21%. This number, one that is doubled in some communities and does not

consider children in families near the poverty line, is striking when compared to other similarly situated countries. Understanding that many students and families are on the trajectory of poverty will come to light as readers make their way through from statistics, to research, to definitions, to action items.

**Jane Doe No More** M. William Phelps, Donna Palomba, 2012-09-06 In 1993, Donna Palomba was raped by a masked assailant in her own home. Yet, her story is more than a victim's tale of physical and emotional recovery. It is a story of one woman's hunt for justice while fending off attacks by institutions designed to defend and protect her—the police department, the local government, and a community clinging to an outrageous claim that Donna had invented the crime to cover up a sexual affair. From the night of the attack, the botched crime scene investigation, and the abuse as authorities attempted to close the case by discrediting her, Donna was left as a victim with no name and no identity. Meanwhile, there was one courageous detective, later to become chief of police, who broke a cops' code of silence in the name of justice. As they fought on, a legal battle ensued after the Waterbury Police Department—now with media support—refused to let go of its allegations against her and admit wrongdoing. Finally, after eleven years of struggle, Donna learned the identity of her attacker from the chief of police, who explained that the DNA from the rape kit taken a decade ago had turned up a shocking match. In 2007, Donna Palomba was the subject of a special two-hour Dateline episode about her case. Suddenly, she was Jane Doe no more, launching the Jane Doe No More organization and becoming a promoter of the rights of women and victims of sexual assault. With the help of crime investigator and author M. William Phelps, this is her story.

**Categorical Data Analysis and Multilevel Modeling Using R** Xing Liu, 2022-02-24 Categorical Data Analysis and Multilevel Modeling Using R provides a practical guide to regression techniques for analyzing binary, ordinal, nominal, and count response variables using the R software. Author Xing Liu offers a unified framework for both single-level and multilevel modeling of categorical and count response variables with both frequentist and Bayesian approaches. Each chapter demonstrates how to conduct the analysis using R, how to interpret the models, and how to present the results for publication. A companion website for this book contains datasets and R commands used in the book for students, and solutions for the end-of-chapter exercises on the instructor site.

**One Blood** John Perkins, 2018-04-03 Dr. Perkins' final manifesto on race, faith, and reconciliation We are living in historic times. Not since the civil rights movement of the 60s has our country been this vigorously engaged in the reconciliation conversation. There is a great opportunity right now for culture to change, to be a more perfect union. However, it cannot be done without the church, because the faith of the people is more powerful than any law government can enact. The church is the heart and moral compass of a nation. To turn a country away from God, you must sideline the

church. To turn a nation to God, the church must turn first. Racism won't end in America until the church is reconciled first. Then—and only then—can it spiritually and morally lead the way. Dr. John M. Perkins is a leading civil rights activist today. He grew up in a Mississippi sharecropping family, was an early pioneer of the civil rights movement, and has dedicated his life to the cause of racial equality. In this, his crowning work, Dr. Perkins speaks honestly to the church about reconciliation, discipleship, and justice... and what it really takes to live out biblical reconciliation. He offers a call to repentance to both the white church and the black church. He explains how band-aid approaches of the past won't do. And while applauding these starter efforts, he holds that true reconciliation won't happen until we get more intentional and relational. True friendships must happen, and on every level. This will take the whole church, not just the pastors and staff. The racial reconciliation of our churches and nation won't be done with big campaigns or through mass media. It will come one loving, sacrificial relationship at a time. The gospel and all that it encompasses has always traveled best relationally. We have much to learn from each other and each have unique poverties that can only be filled by one another. The way forward is to become wounded healers who bandage each other up as we discover what the family of God really looks like. Real relationships, sacrificial love between actual people, is the way forward. Nothing less will do.

*Forgotten Anzacs* Peter Ewer,2016-03-28 This is the largely unknown story of another Anzac force, which fought not at Gallipoli, but in Greece, during World War II. Desperately outnumbered and fighting in deeply inhospitable conditions, these Anzacs found themselves engaging in a long retreat through Greece, under constant air attack. Most of the Anzac Corps was evacuated by the end of April 1941, but many men got only as far as Crete. Fighting a German paratroop invasion there in

May, large numbers were taken captive and spent four long years as prisoners of the Nazis. The campaign in Greece turned out to have uncanny parallels to the original Gallipoli operation: both were inspired by Winston Churchill, both were badly planned by British military leaders, and both ended in defeat and evacuation. Just as Gallipoli provided military academies the world over with lessons in how not to conduct a complex feat of arms, Churchill's Greek adventure reinforced fundamental lessons in modern warfare — heavy tanks could not be stopped by men armed with rifles, and Stuka dive-bombers would not be deflected by promises of air support from London that were never honoured. In this revised edition, based on fresh archival research, and containing a collection of previously unpublished photos, the truth finally emerges as to how the Australian, Greek, and New Zealand Governments were misled over key decisions that would define the campaign. PRAISE FOR PETER EWER 'This is an important contribution to Australian war literature ... an engrossing history of a very important Anzac campaign.' The Sydney Morning Herald 'This clear and well-written account of the campaign should do much to rescue the forgotten Anzacs from neglect by subsequent generations.' Australian Book Review

*Real Boys' Voices* William Pollack, Todd Shuster, 2000-09-20 In my travels throughout this country, I have discovered a glaring truth: America's boys are absolutely desperate to talk about their lives, says Dr. William Pollack, author of the bestseller *Real Boys*. Now, in *Real Boys' Voices*, Pollack lets us hear what boys today are saying, even as he explores ways to get them to talk more openly with us. Boys long to talk about the things that are hurting them—their harassment from other boys, their troubled relationships with their fathers, their embarrassment around girls and confusion about sex, their disconnection from and love for their parents, the violence that haunts them at school and on the street, their constant fear that they might not be as masculine as other boys. In *Real Boys' Voices* we hear, verbatim, what boys from big cities and small towns, including Littleton, Colorado, have to say about violence, drugs, sports, school, parents, love, anger, body image, becoming a man, and much, much more. *Real Boys' Voices* takes us into the daily worlds of boys not only to show how society's outdated expectations force them to mask many of their true emotions, but also to let us hear how boys themselves describe their isolation, depression, longing, love, and hope. How can you get behind the mask of masculinity many boys wear? How can you tell whether a bad boy is actually a sad boy—and how do you spot the danger signals of depression? How can you grow closer to the boy you love? Pollack explores how to create safe spaces and engage in action talk, how to listen so a boy will speak the truth about, and be, himself. In the real boys' voices here, boys speak eloquently and truthfully about such topics as shame, bullying and teasing, the pressure to fit in, addictions, how they see the lives of the men they know, the importance of their mothers and fathers, their own spiritual and creative experiences, friendships with other boys and with girls, being gay, and coping with divorce and other losses, including the death of a friend or parent. We also hear what boys from Columbine High School and other places say about fear and violence in their lives. Full of insights from and about young and adolescent boys, William Pollack's *Real Boys' Voices* is an important, illuminating, and invaluable book, for boys

themselves and for all the people in their lives. From Real Boys' Voices Boys are supposed to shut up and take it, to keep it all in. —Scotty, from a small town in New England What I hate about this school is that I am being picked on in the halls and just about everywhere else. —Cody, from a suburb in New England Sometimes people say there are two me's, like I have a dual personality. . . . The public persona is not really who I am. It's a tool . . . to be who everyone wants me to be. —Raphael, from a city in the West If you see [abuse] coming, just walk out of the room or walk out of the house or go somewhere, go to a friend's house, go for a walk, take your dog for a run, whatever. Just try to get away from that situation before it actually explodes. —Paul, from a suburb in the West Maybe a couple of times I used to bully some kids. I haven't bullied anyone since the shooting. I try to be nicer to people even if I don't like them. —John, from Littleton, Colorado

Nuclear Suburbs Patrick Vitale, 2021-02-23 From submarines to the suburbs—the remaking of Pittsburgh during the Cold War During the early Cold War, research facilities became ubiquitous features of suburbs across the United States. Pittsburgh's eastern and southern suburbs hosted a constellation of such facilities that became the world's leading center for the development of nuclear reactors for naval vessels and power plants. The segregated communities that surrounded these laboratories housed one of the largest concentrations of nuclear engineers and scientists on earth. In *Nuclear Suburbs*, Patrick Vitale uncovers how the suburbs shaped the everyday lives of these technology workers. Using oral histories, Vitale follows nuclear engineers and scientists throughout and beyond the Pittsburgh region to understand how the politics of technoscience and the Cold War were embedded in daily life. At the same time that research facilities moved to Pittsburgh's suburbs, a coalition of business and political elites began an aggressive effort, called the Pittsburgh Renaissance, to renew the region. For Pittsburgh's elite, laboratories and researchers became important symbols of the new Pittsburgh and its postindustrial economy. *Nuclear Suburbs* exposes how this coalition enrolled technology workers as allies in their remaking of the city. Offering lessons for the present day, *Nuclear Suburbs* shows how race, class, gender, and the production of urban and suburban space are fundamental to technoscientific networks, and explains how the “renewal” of industrial regions into centers of the tech economy is rooted in violence and injustice.

**Cahokia and the North American Worlds** Sarah E. Baires, 2022-03-10 The City of Cahokia provides a unique case study to review what draws people to a place and why. This Element examines not only the emergence and decline of this great American city but its intersection with the broader Native American world during this period. Cahokia was not an isolated complex but a place vivid on the landscape where people made pilgrimages to and from Cahokia for trade and religious practices. Cahokia was a centre-place with expansive reach and cultural influence. This Element analyses the social and political processes that helped create this city while also reflecting on the trajectory of Native American history in North America.
