Gerald Klickstein

O Welcome Fair Wood Robert Franz, 1856

The 1939-1940 New York World's Fair Bill Cotter, 2009 After enduring 10 harrowing years of the Great Depression, visitors to the 1939-1940 New York World's Fair found welcome relief in the fair's optimistic presentation of the World of Tomorrow. Pavilions from America's largest corporations and dozens of countries were spread across a 1,216-acre site, showcasing the latest industrial marvels and predictions for the future intermingled with cultural displays from around the world. Well known for its theme structures, the Trylon and Perisphere, the fair was an intriguing mixture of technology, science, architecture, showmanship, and politics. Proclaimed by many as the most memorable world's fair ever held, it predicted wonderful times were ahead for the world even as the clouds of war were gathering. Through vintage photographs, most never published before, *The 1939-1940 New York World's Fair* recaptures those days when the eyes of the world were on New York and on the future.

Social Butterflies Michael Sanders, Susannah Hume, 2019-04-18 'Engaging, fact-filled and profoundly illuminating. It's inspiring to read - and it should help make the world a lot better.' Cass Sunstein, author of *Nudge* The rise of social media has sent our social instincts into overdrive, and the impact of our networks has never been greater. But what if we could reclaim the positive power that influences our decisions, to behave better and be happier? In this groundbreaking book, Sanders and Hume build on the incredible findings of their own cutting-edge research from their work at the world's first Nudge Unit, as well as illuminating case studies from experts around the world, to show how small changes in our environments can have a huge impact on where our instincts lead us. At a time when our trust in each other is being destroyed on a global scale, it's never been more important to understand what motivates us and how to use our predictable behaviours to drive positive change. From helping us to run more cohesive organizations, to building important relationships and connections that matter, this is an essential roadmap back to our better social selves.
