In the Nation's Compelling Interest Institute of Medicine,Board on Health Sciences Policy,Committee on Institutional and Policy-Level Strategies for Increasing the Diversity of the U.S. Health Care Workforce,2004-06-29 The United States is rapidly transforming into one of the most racially and ethnically diverse nations in the world. Groups commonly referred to as minorities-including Asian Americans, Pacific Islanders, African Americans, Hispanics, American Indians, and Alaska Natives-are the fastest growing segments of the population and emerging as the nation's majority. Despite the rapid growth of racial and ethnic minority groups, their representation among the nation's health professionals has grown only modestly in the past 25 years. This alarming disparity has prompted the recent creation of initiatives to increase diversity in health professions. In the Nation's Compelling Interest considers the benefits of greater racial and ethnic diversity, and identifies institutional and policy-level mechanisms to garner broad support among health professions leaders, community members, and other key stakeholders to implement these strategies. Assessing the potential benefits of greater racial and ethnic diversity among health professionals will improve the access to and quality of healthcare for all Americans.

Ask a Manager Alison Green,2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . Forbidden Knowledge Terence H. Young,2023-02-21 Terence Young exposes the pharmaceutical industry secrets and cultural myths that thwart our safe use of prescription drugs.... Everyone should read it before their next visit to a doctor. — DR. NANCY OLIVIERI, MD, physician and professor When it comes to drug safety, Big Pharma holds all the power, and it's time for patients to take it back. Tens of millions of patients in North America take prescription drugs, but the safety of these drugs is often based on medical myths. We are led to believe that if a medication isn't safe, the government would never allow it on the market and that doctors would never prescribe a drug that isn't proven effective. Who controls these

narratives? And do they always have the best interests of patients in mind? In an in-depth study of the enormous influence the pharmaceutical industry has over our health, drug safety advocate Terence Young explores how those with the most to gain financially are also those who wield all the power in health care — and withhold the knowledge that is critical to the safety of patients. *Forbidden Knowledge* reveals the truth you need to know about prescription drugs and what to do about it. It will empower you to partner with your doctor to talk openly and plainly about medications to help avoid serious adverse drug reactions. This is your survival guide to Big Pharma.

The Book of Unknown Americans Cristina Henríquez, 2014-06-03 A stunning novel of hopes and dreams, guilt and love—a book that offers a resonant new definition of what it means to be American and illuminates the lives behind the current debates about Latino immigration (The New York Times Book Review). When fifteen-year-old Maribel Rivera sustains a terrible injury, the Riveras leave behind a comfortable life in Mexico and risk everything to come to the United States so that Maribel can have the care she needs. Once they arrive, it's not long before Maribel attracts the attention of Mayor Toro, the son of one of their new neighbors, who sees a kindred spirit in this beautiful, damaged outsider. Their love story sets in motion events that will have profound repercussions for everyone involved. Here Henríquez seamlessly interweaves the story of these star-crossed lovers, and of the Rivera and Toro families, with the testimonials of men and women who have come to the United States from all over Latin America.
