Soldiers of Conscience Shirley Castelnovo, 2010-06-01 The history of Japanese Americans in World War II does not record the stories of these resisters. It does not mention the War Department Special Organization, to which many of them were transferred, or the individuals who were tried and sentenced by military courts to long prison terms. The two hundred conscientious military resisters felt betrayed by the government and viewed the decision to imprison Japanese Americans as an immoral acquiescence to West Coast racism.--Pub. desc.

Un-American Richard Cahan, Michael F. Williams, 2016 In 1942 more than 109,000 Japanese Americans, including 70,000 U.S. citizens, were picked up and sent to incarceration centers, most for the duration of the war. It was the shame of America-- and it was documented on film. Cahan and Williams provide a visual history which includes interviews with many of the people reflecting on their experiences.

Colors of Confinement Bill T. Manbo, Eric L. Muller, 2012 Presents a collection of rare photographs depicting the Japanese camps in the Midwest to which Japanese Americans were confined during World War II.

And Justice for All John Tateishi, 1984 Personal accounts of Japanese Americans kept in relocation camps during World War II express experiences with riots, unsanitary conditions, poor medical care, government inquiries, and divided families.

Prisoners Without Trial Roger Daniels, Eric Foner, 1993 Recounts the placement of Japanese Americans in internment camps after the attack on Pearl Harbor, and describes their reactions to this unjust action

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32

years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Sociology in America Craig Calhoun, 2008-09-15 Though the word "sociology" was coined in Europe, the field of

sociology grew most dramatically in America. Despite that disproportionate influence, American sociology has never been the subject of an extended historical examination. To remedy that situation—and to celebrate the centennial of the American Sociological Association—Craig Calhoun assembled a team of leading sociologists to produce *Sociology in America*. Rather than a story of great sociologists or departments, *Sociology in America* is a true history of an often disparate field—and a deeply considered look at the ways sociology developed intellectually and institutionally. It explores the growth of American sociology as it addressed changes and challenges throughout the twentieth century, covering topics ranging from the discipline's intellectual roots to understandings (and misunderstandings) of race and gender to the impact of the Depression and the 1960s. *Sociology in America* will stand as the definitive treatment of the contribution of twentieth-century American sociology and will be required reading for all sociologists. Science Teaching Michael R. Matthews, 2015-12-22 *Science Teaching* argues that science teaching and science teacher education can be improved if teachers know something of the history and philosophy of science and if these topics are included in the science curriculum. The history and philosophy of science have important roles in many of the theoretical issues that science educators need to address: what constitutes an appropriate science curriculum for all students; how science should be taught in traditional cultures; how scientific literacy can be promoted; and the conflict which can occur between science curriculum and deep-seated religious or cultural values and knowledge. Outlining the history of liberal approaches to the teaching of science, Michael Matthews elaborates contemporary curriculum developments that explicitly address questions about the nature and the history of science. He provides examples of classroom teaching and develops useful arguments on constructivism, multicultural science education and teacher education.

The Oliver Stone Encyclopedia James Michael Welsh, Donald M. Whaley, 2013 Oliver Stone has written and directed many memorable films while also developing a reputation for tackling controversial subjects, such as the Turkish prison system (*Midnight Express*), the Vietnam war (*Platoon* and *Born on the Fourth of July*), insider trading (*Wall Street*), presidential assassination (*JFK*), and a voyeuristic media (*Natural Born Killers*). Along the way, Stone has been nominated for more than

10 Academy Awards and three times received Oscars for his work. In *The Oliver Stone Encyclopedia*, James M. Welsh and Donald M. Whaley provide an overarching evaluation of Stone's work as screenwriter, producer, and director. While the entries in this volume address all of the usual aspects of Stone's career, they also explore new avenues of critical evaluation, especially influences such as Friedrich Nietzsche and Buddhism, which Stone converted to in the 1990s. In addition, this volume traces Stone's obsession with Latin American politics, evident in his film *Salvador* (1986), his screenplay for Alan Parker's *Evita* (1996), and the documentaries *Commandante* (2003), *Looking for Fidel* (2004), and *South of the Border* (2010). Each entry is followed by a bibliography of published sources, both in print and online. A comprehensive and engaging examination of the director, *The Oliver Stone Encyclopedia* will appeal to scholars and fans alike as the most comprehensive reference on this director's body of work.

Operation Medusa Major General David Fraser, Brian Hanington, 2018-05-08 From the Canadian in charge of the joint military command in Kandahar Province in Afghanistan, this is the real on-the-ground story of one of NATO's bloodiest, most decisive and misunderstood operations: The battle of Panjwayi, the defining moment of Operation Medusa. In the summer of 2006, David Fraser was the Canadian general in charge of NATO's Regional Command South, a territory spanning six Afghan provinces surrounding the Arghandab Valley. Birthplace of the Taliban decades earlier, this fertile region had since become Afghanistan's most deadly turf. It would soon turn deadlier still. Advised in the night by his intelligence officers that the Taliban had secretly amassed for a full-scale military assault, Fraser knew it would fall to him, his Canadians and their allies to avoid the wholesale slaughter of NATO troops, keep the Taliban from laying siege to Kandahar and restore control of the south of the country to a newly formed, democratic Afghan government. The odds were solidly against Fraser's forces. The Taliban knew every millimetre of their own terrain. During the months of secret manoeuvres they had stocked every farmhouse, school, grape hut and tunnel with weapons and ammunition. They had drilled Soviet-era landmines into all of the marijuana and poppy fields, and dug IEDs into every roadway. Protected from detection by corrupt officials, their sophisticated warfare schools had successfully readied an army of zealous fighters to attack and fight to the death. And now their top commanders were poised to launch decisive military operations against freshly arrived troops who had never seen combat. The bloodiest battle in NATO's history was about to begin.
