Arbor City Community Foundation Karl Schmedders, Russell Walker, Michael Stritch, 2017 The Arbor City Community Foundation (ACCF) was a medium-sized endowment established in Illinois in the late 1970s through the hard work of several local families. The vision of the ACCF was to be a comprehensive center for philanthropy in the greater Arbor City region. ACCF had a fund balance (known collectively as the fund) of just under \$240 million. The ACCF board of trustees had appointed a committee to oversee investment decisions relating to the foundation assets. The investment committee, under the guidance of the board, pursued an active risk-management policy for the fund. The committee members were primarily concerned with the volatility and distribution of portfolio returns. They relied on the value-at-risk (VaR) methodology as a measurement of the risk of both short- and mid-term investment losses. The questions in Part (A) of the case direct the students to analyze the risk inherent in both one particular asset and the entire ACCF portfolio. For this analysis the students need to calculate daily VaR and monthly VaR values and interpret these figures in the context of ACCF's risk management. In Part (B) the foundation receives a major donation. As a result, the risk inherent in its portfolio changes considerably. The students are asked to evaluate the risk of the fund's new portfolio and to perform a portfolio rebalancing analysis. Understanding the concept of value at risk (VaR); Calculating daily and monthly VaR by two different methods, the historical and the parametric approach; Interpreting the results of VaR calculations; Understanding the role of diversification for managing risk; Evaluating the impact of portfolio rebalancing on the overall risk of a portfolio.

Dynamic Secrets in Communication Security Sheng Xiao,Weibo Gong,Don Towsley,2013-08-13 Dynamic secrets are constantly generated and updated from messages exchanged between two communication users. When dynamic secrets are used as a complement to existing secure communication systems, a stolen key or password can be quickly and automatically reverted to its secret status without disrupting communication. Dynamic Secrets in Communication Security presents unique security properties and application studies for this technology. Password theft and key theft no longer pose serious security threats when parties frequently use dynamic secrets. This book also illustrates that a dynamic secret based security scheme guarantees impersonation attacks are detected even if an adversary steals a user's password or their key is lost. Practitioners and researchers working in network security or wireless communications will find this book a must-have reference. Dynamic Secrets in Communication Security is also a valuable secondary text for advanced-level students in computer science and electrical engineering.

A Survey of the Scovils Or Scovills in England and America Homer Worthington Brainard,1915 John Scovell (ca. 1635-1696/1700) emigrated from Shapwick, County Dorset, England to Connecticut between 1654 and 1670. Descendants (chiefly spelling the surname Scovil or Scovill) lived in New England, Ohio, Indiana, Illinois and elsewhere.

The Truly Disadvantaged William Julius Wilson,2012-06-29 An assessment of the relationship between race and poverty in the United States, and potential solutions for the issue. Renowned American sociologist William Julius Wilson takes a look at the social transformation of inner-city ghettos, offering a sharp evaluation of the convergence of race and poverty. Rejecting both conservative and liberal interpretations of life in the inner city, Wilson offers essential information and several solutions to policymakers. The Truly Disadvantaged is a wide-ranging examination, looking at the relationship between race, employment, and education from the 1950s onwards, with surprising and provocative findings. This second edition also includes a new afterword from Wilson himself that brings the book up to date and offers fresh insight into its findings. Praise for The Truly Disadvantaged "The Truly Disadvantaged should spur critical thinking in many quarters about the causes and possible remedies for inner city poverty. As policymakers grapple with the problems of an enlarged underclass they—as well as community leaders and all concerned Americans of all races—would be advised to examine Mr. Wilson's incisive analysis." —Robert Greenstein, New York Times Book Review "The Truly Disadvantaged not only assembles a vast array of data gleamed from the works of specialists, it offers much new information and analysis. Wilson has asked the hard questions, he

has done his homework, and he has dared to speak unpopular truths.” —Los Angeles Times Book Review “Required reading for anyone, presidential candidate or private citizen, who really wants to address the growing plight of the black urban underclass.” —David J. Garrow, Washington Post Book World

An American Killing Mary-Ann Tirone Smith, 1999-07 Two years ago in the town of New Caxton, three people were stabbed to death and a black man imprisoned for the crime. According to congressman Owen Hall, the convicted man is innocent. Something sinister has been going on in New Caxton, something much bigger than casual murder.

Growing Without Schooling Patrick Farenga, John Holt, Carlo Ricci, 2016-06-14 After years of working to change schools from within—testifying before Congress and addressing audiences around the world about how to make schools better places for children—John Holt founded Growing Without Schooling magazine in 1977 to support self-directed education and learning outside of school. Each issue is a lively exchange among readers and Holt, packed with useful advice, resource recommendations, and all sorts of legal, pedagogical, and parenting ideas from people who pioneered what we now call homeschooling. John Holt (1983-1985) is the author of *How Children Learn* and *How Children Fail*, which together have sold over a million and a half copies, and eight other books about children and learning. His work has been translated into more than 40 languages. Once a leading figure in school reform, John Holt became increasingly interested in how children learn outside of school. The magazine he founded, Growing Without Schooling (GWS), reflects his philosophy, which he called unschooling. GWS was published from 1977 to 2001 and is the first magazine devoted to homeschooling and self-directed education.

When Work Disappears William Julius Wilson, 2011-06-08 Wilson, one of our foremost authorities on race and poverty, challenges decades of liberal and conservative pieties to look squarely at the devastating effects that joblessness has had on our urban ghettos. Marshaling a vast array of data and the personal stories of hundreds of men and women, Wilson persuasively argues that problems endemic to America's inner cities—from fatherless households to drugs and violent crime—stem directly from the disappearance of blue-collar jobs in the wake of a globalized economy. Wilson's achievement is to portray this crisis as one that affects all Americans, and to propose solutions whose benefits would be felt across our society. At a time when welfare is ending and our country's racial dialectic is more strained than ever, *When Work Disappears* is a sane, courageous, and desperately important work. Wilson is the keenest liberal analyst of the most perplexing of all American problems...[This book is] more ambitious and more accessible than anything he has done before. --The New Yorker

The Story of America Jill Lepore, 2012-10-07 From celebrated writer Jill Lepore, a literary and political history of American origin stories In *The Story of America*, Harvard historian and New Yorker staff writer Jill Lepore investigates American origin stories—from John Smith's account of the founding of Jamestown in 1607 to Barack Obama's 2009 inaugural address—to show how American democracy is bound up with the history of print. Over the centuries, Americans have read and written their way into a political culture of ink and type. Part civics primer, part cultural history, *The Story of America* excavates the origins of everything from the paper ballot and the Constitution to the I.O.U. and the dictionary. Along the way it presents fresh readings of Benjamin Franklin's *Way to Wealth*, Thomas Paine's *Common Sense*, *The Raven* by Edgar Allan Poe, and Paul Revere's *Ride* by Henry Wadsworth Longfellow, as well as histories of lesser-known genres, including biographies of presidents, novels of immigrants, and accounts of the Depression. From past to present, Lepore argues, Americans have wrestled with the idea of democracy by telling stories. In this thoughtful and provocative book, Lepore offers at once a history of origin stories and a meditation on storytelling itself.
