From Equity Talk to Equity Walk Tia Brown McNair, Estela Mara Bensimon, Lindsey Malcom-Piqueux, 2020-01-22 A practical guide for achieving equitable outcomes From Equity Talk to Equity Walk offers practical guidance on the design and application of campus change strategies for achieving equitable outcomes. Drawing from campus-based research projects sponsored by the Association of American Colleges and Universities and the Center for Urban Education at the University of Southern California, this invaluable resource provides real-world steps that reinforce primary elements for examining equity in student achievement, while challenging educators to specifically focus on racial equity as a critical lens for institutional and systemic change. Colleges and universities have placed greater emphasis on education equity in recent years. Acknowledging the changing realities and increasing demands placed on contemporary postsecondary education, this book meets educators where they are and offers an effective design framework for what it means to move beyond equity being a buzzword in higher education. Central concepts and key points are illustrated through campus examples. This indispensable guide presents academic administrators and staff with advice on building an equity-minded campus culture, aligning strategic priorities and institutional missions to advance equity, understanding equity-minded data analysis, developing campus strategies for making excellence inclusive, and moving from a first-generation equity educator to an equity-minded practitioner. From Equity Talk to Equity Walk: A Guide for Campus-Based Leadership and Practice is a vital wealth of information for college and university presidents and provosts, academic and student affairs professionals, faculty, and practitioners who seek to dismantle institutional barriers that stand in the way of achieving equity, specifically racial equity to achieve equitable outcomes in higher education.

**Mental Health, Substance Use, and Wellbeing in Higher Education** National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Policy and Global Affairs, Board on Health Sciences Policy, Board on Higher Education and Workforce, Committee on Mental Health, Substance Use, and Wellbeing in STEMM Undergraduate and Graduate Education, 2021-03-05 Student wellbeing is foundational to academic success. One recent survey of postsecondary educators found that nearly 80 percent believed emotional wellbeing is a very or extremely important factor in student success. Studies have found the dropout rates for students with a diagnosed mental health problem range from 43 percent to as high as 86 percent. While dealing with stress is a normal part of life, for some students, stress can adversely affect their physical, emotional, and psychological health, particularly given that adolescence and early adulthood are when most mental illnesses are first manifested. In addition to students who may develop mental health challenges during their time in postsecondary education, many students arrive on campus with a mental health problem or having experienced significant trauma in their lives, which can also negatively affect physical, emotional, and psychological wellbeing. The nation's institutions of higher education are seeing increasing levels of mental illness, substance use and other forms of emotional distress among their students. Some of the problematic trends have been ongoing for decades. Some have been exacerbated by the COVID-19 pandemic and resulting economic consequences. Some are the result of long-festering systemic racism in almost every sphere of American life that are becoming more widely acknowledged throughout society and must, at last, be addressed. Mental Health, Substance Use, and Wellbeing in Higher Education lays out a variety of possible strategies and approaches to meet increasing demand for mental health and substance use services, based on the available evidence on the nature of the issues and what works in various situations. The recommendations of this report will support the delivery of mental health and wellness services by the nation's institutions of higher education.

**We Are Not Dreamers** Leisy J. Abrego, Genevieve Negrón-Gonzales, 2020-08-14 The widely recognized “Dreamer narrative” celebrates the educational and economic achievements of undocumented youth to justify a path to citizenship. While a well-intentioned, strategic tactic to garner political support of undocumented youth, it has promoted the idea that access to citizenship and rights should be granted only to a select group of “deserving” immigrants. The contributors to We Are Not Dreamers—themselves currently or formerly undocumented—poignantly counter the Dreamer narrative by grappling with the nuances of undocumented life in this country. Theorizing those excluded from the Dreamer category—academically

struggling students, transgender activists, and queer undocumented parents—the contributors call for an expansive articulation of immigrant rights and justice that recognizes the full humanity of undocumented immigrants while granting full and unconditional rights. Illuminating how various institutions reproduce and benefit from exclusionary narratives, this volume articulates the dangers of the Dreamer narrative and envisions a different way forward. Contributors. Leisy J. Abrego, Gabrielle Cabrera, Gabriela Garcia Cruz, Lucía León, Katy Joseline Maldonado Dominguez, Grecia Mondragón, Gabriela Monico, Genevieve Negrón-Gonzales, Maria Liliana Ramirez, Joel Sati, Audrey Silvestre, Carolina Valdivia

**Learning to Serve** Maureen E. Kenny, Lou Anna K. Simon, Karen Kiley-Brabeck, Richard M. Lerner, 2001-12-31 Service learning, as defined by the editors, is the generation of knowledge that is of benefit to the community as a whole. This seventh volume in the Outreach Scholarship book series contributes a unique discussion of how service learning functions as a critical cornerstone of outreach scholarship. The sections and chapters of this book marshal evidence in support of the idea that undergraduate service learning, infused throughout the curriculum and coupled with outreach scholarship, is an integral means through which higher education can engage people and institutions of the communities of this nation in a manner that perpetuate civil society. The editors, through this series of models of service learning, make a powerful argument for the necessity of engaged institutions.

**Becoming a Student-Ready College** Tia Brown McNair, Susan Albertine, Michelle Asha Cooper, Nicole McDonald, Thomas Major, Jr., 2016-07-25 Boost student success by reversing your perspective on college readiness The national conversation asking Are students college-ready? concentrates on numerous factors that are beyond higher education's control. *Becoming a Student-Ready College* flips the college readiness conversation to provide a new perspective

on creating institutional value and facilitating student success. Instead of focusing on student preparedness for college (or lack thereof), this book asks the more pragmatic question of what are colleges and universities doing to prepare for the students who are entering their institutions? What must change in an institution's policies, practices, and culture in order to be student-ready? Clear and concise, this book is packed with insightful discussion and practical strategies for achieving your ambitious student success goals. These ideas for redesigning practices and policies provide more than food for thought—they offer a real-world framework for real institutional change. You'll learn: How educators can acknowledge their own biases and assumptions about underserved students in order to allow for change New ways to advance student learning and success How to develop and value student assets and social capital Strategies and approaches for creating a new student-focused culture of leadership at every level To truly become student-ready, educators must make difficult decisions, face the pressures of accountability, and address their preconceived notions about student success head-on. *Becoming a Student-Ready College* provides a reality check based on today's higher education environment.
