*Shelter in a Time of Storm* Jelani M. Favors, 2019-02-08 2020 Museum of African American History Stone Book Award 2020 Lillian Smith Book Award Finalist, 2020 Pauli Murray Book Prize For generations, historically Black colleges and universities (HBCUs) have been essential institutions for the African American community. Their nurturing environments not only provided educational advancement but also catalyzed the Black freedom struggle, forever altering the political destiny of the United States. In this book, Jelani M. Favors offers a history of HBCUs from the 1837 founding of Cheyney State University to the present, told through the lens of how they fostered student activism. Favors chronicles the development and significance of HBCUs through stories from institutions such as Cheyney State University, Tougaloo College, Bennett College, Alabama State University, Jackson State University, Southern University, and North Carolina A&T. He demonstrates how HBCUs became a refuge during the oppression of the Jim Crow era and illustrates the central role their campus communities played during the civil rights and Black Power movements. Throughout this definitive history of how HBCUs became a vital seedbed for politicians, community leaders, reformers, and activists, Favors emphasizes what he calls an unwritten second curriculum at HBCUs, one that offered students a grounding in idealism, racial consciousness, and cultural nationalism.

Learning to Serve Maureen E. Kenny, Lou Anna K. Simon, Karen Kiley-Brabeck, Richard M. Lerner, 2001-12-31 Service learning, as defined by the editors, is the generation of knowledge that is of benefit to the community as a whole. This seventh volume in the Outreach Scholarship book series contributes a unique discussion of how service learning functions as a critical cornerstone of outreach scholarship. The sections and chapters of this book marshal evidence in support of the idea that undergraduate service learning, infused throughout the curriculum and coupled with outreach scholarship, is an integral means through which higher education can engage people and institutions of the communities of this nation in a manner that perpetuate civil society. The editors, through this series of models of service learning, make a powerful argument for the necessity of engaged institutions.

**Truth Worth Telling** Scott Pelley, 2019-05-21 This inspiring memoir of life on the frontlines of history is a “riveting blend of investigative reporting, color commentary, and personal reminiscence” (Publishers Weekly, starred review). A 60 Minutes correspondent and former anchor of the CBS Evening News, Scott Pelley writes as a witness to events that changed

our world. In moving, detailed prose, he stands with firefighters at the collapsing World Trade Center on 9/11, advances with American troops in combat in Afghanistan and Iraq, and reveals private moments with presidents (and would-be presidents) he's known for decades. Pelley also offers a resounding defense of free speech and a free press as the rights that guarantee all others. Above all, *Truth Worth Telling* offers a collection of inspiring tales that reminds us of the importance of sticking to our values in uncertain times. For readers who believe that values matter, and that truth is worth telling, Pelley writes, "I have written this book for you."

**Freedom Ship** Doreen Rappaport, 2006-10-01 Samuel and his family are born slaves. Every day they look beyond the harbor filled with Confederate ships, to the Atlantic Ocean, where the Union ships are--and potentially, their freedom. If only they could get to those ships somehow....Then, on May 13, 1862, Samuel and his family risk it all to be free. /DIV DIVBased on a true story, Doreen Rappaport weaves a riveting tale of a boy and his family aboard the gunboat *Planter*. Captained by Robert Smalls and loaded with fellow slaves, the ship flees to the Union fleet to gain freedom from slavery and deliver much-needed ammunition to the Union Navy. Rappaport's suspenseful account, illustrated with the moody paintings of Curtis James, creates a vivid and relatable picture of this little-known tale of the civil war.

**Pretty Fire** Charlayne Woodard, 2005 THE STORY: The stage is bare except for a wooden loveseat and a young African-American woman. Then the lyrical, lifting words of Charlayne Woodard begin weaving stories of two young sisters in the small world of Albany, New York; of Ku Klux Klan ri

*Wellbeing: A Complete Reference Guide, Interventions and Policies to Enhance Wellbeing* Felicia A. Huppert, Cary Cooper, 2014-03-17 *Interventions and Policies to Enhance Wellbeing* *Wellbeing: A Complete Reference Guide* is the first multivolume, interdisciplinary exploration of the topic of wellbeing. The notion of wellbeing has grown in importance and prominence across the globe in recent years and this reference work provides an in-depth examination of the characteristics that enable individuals and organizations to thrive and flourish. Under the direction of noted academic Cary Cooper, and edited by a distinguished group of senior scholars from a variety of disciplines, this project looks at wellbeing from multiple perspectives, including children and families; the environment; the workplace; later life; economics; and interventions and public policy. *Hypoxia and Cancer Metastasis* Daniele M. Gilkes, 2019-06-14 The present book is an attempt to provide a detailed review of studies that clarify our current understanding of the role of hypoxia in the progression of primary cancer to metastatic disease. It will enable researchers to discover the critical cellular changes that occur under hypoxic conditions and play a role in metastatic dissemination, from the activation of hypoxia-inducible factors, HIF-1 and HIF-2, to the transcriptional profile changes that occur in cancer cells and promote cancer cell survival under detrimental conditions. Readers will discover the methods and challenges involved in imaging and quantifying the degree of hypoxia in a primary tumor. We will provide an understanding of the hypoxia-induced phenotypes that influence heterogeneity, alter the secretome and tumor microenvironment, modify cellular metabolism, and promote immune suppression and resistance to chemotherapy. Finally, we will uncover the therapeutic strategies that are being devised to target the hypoxic

microenvironment in the hopes of preventing metastasis and improving the efficacy of standard-of-care cancer treatments. This work is an up to date source of information on the challenges and complexity of the hypoxic tumor microenvironment. Basic and translational scientists, post-doctoral fellows, graduate students, and those interested in how tumors metastasize will find this book a reference that details how hypoxia influences metastatic disease.

*We Are Not Dreamers* Leisy J. Abrego, Genevieve Negrón-Gonzales, 2020-08-14 The widely recognized “Dreamer narrative” celebrates the educational and economic achievements of undocumented youth to justify a path to citizenship. While a well-intentioned, strategic tactic to garner political support of undocumented youth, it has promoted the idea that access to citizenship and rights should be granted only to a select group of “deserving” immigrants. The contributors to *We Are Not Dreamers*—themselves currently or formerly undocumented—poignantly counter the Dreamer narrative by grappling with the nuances of undocumented life in this country. Theorizing those excluded from the Dreamer category—academically struggling students, transgender activists, and queer undocumented parents—the contributors call for an expansive articulation of immigrant rights and justice that recognizes the full humanity of undocumented immigrants while granting full and unconditional rights. Illuminating how various institutions reproduce and benefit from exclusionary narratives, this volume articulates the dangers of the Dreamer narrative and envisions a different way forward. Contributors. Leisy J. Abrego, Gabrielle Cabrera, Gabriela Garcia Cruz, Lucía León, Katy Joseline Maldonado Dominguez, Grecia Mondragón, Gabriela Monico, Genevieve Negrón-Gonzales, Maria Liliana Ramirez, Joel Sati, Audrey Silvestre, Carolina Valdivia

Teddi Alder is just trying to figure out her life. When she joins SUMMERTEENS, a library writing group, she’s only looking to keep herself busy, not go digging around in her subconscious. But as she writes, disturbing memories of her lost childhood friend Corey bubble to the surface, and Teddi begins to question everything: her friendship with her BFF Willa, how much her mom really knows, and even her own memories. Teddi fears she’s losing her grip on reality—as evidenced by that mysterious ghost-girl who emerges from the park pool one night, the one who won’t leave Teddi alone. To top it all off, she finds herself juggling two guys with potential, a quirky new boy named Joy and her handsome barista crush Aidan, who has some issues of his own. As the summer unfolds, Teddi is determined to get to the bottom of everything—her feelings, the mysterious ghost-girl, and the memories of Corey that refuse to be ignored.

Building Synergy for High-Impact Educational Initiatives Janine Graziano, Lauren Chism Schmidt, 2016-05-17 Published in partnership with the Washington Center for Improving the Quality of Undergraduate Education First-year seminars and learning communities are two of the most commonly offered high-impact practices on U.S. campuses. The goals of these initiatives are similar: helping students make connections to faculty and other students, improving academic performance, and increasing persistence and graduation. As such, it is not surprising that many institutions choose to embed first-year seminars in learning communities. This volume explores the merger of these two high-impact practices. In particular, it offers insight into how institutions connect them and the impact of those combined structures on student learning and success. In addition to chapters highlighting strategies for designing, teaching in, and assessing combined programs, case studies offer practical insights into the structures of these programs in a variety of campus settings.

**Successful Public Policy** Joannah Luetjens, Michael Mintrom, Paul 't Hart, 2019-04-30 In Australia and New Zealand, many public projects, programs and services perform well. But these cases are consistently underexposed and understudied. We cannot properly 'see'—let alone recognise and explain—variations in government performance when media, political and academic discourses are saturated with accounts of their shortcomings and failures, but are next to silent on their achievements. *Successful Public Policy: Lessons from Australia and New Zealand* helps to turn that tide. It aims to reset the agenda for teaching, research and dialogue on public policy performance. This is done through a series of close-up, in-depth and carefully chosen case study accounts of the genesis and evolution of stand-out public policy achievements, across a range of sectors within Australia and New Zealand. Through these accounts, written by experts from both countries, we engage with the conceptual, methodological and theoretical challenges that have plagued extant research seeking to evaluate, explain and design successful public policy. Studies of public policy successes are rare—not just in Australia and New Zealand, but the world over. This book is embedded in a broader project exploring policy successes globally; its companion volume, *Great Policy Successes* (edited by Paul 't Hart and Mallory Compton), is published by Oxford University Press (2019).

**Resource Proportional Software Design for Emerging Systems** Suparna Bhattacharya, Kanchi Gopinath, Doug Voigt, 2020-02-21 Efficiency is a crucial concern across computing systems, from the edge to the cloud. Paradoxically, even as

the latencies of bottleneck components such as storage and networks have dropped by up to four orders of magnitude, software path lengths have progressively increased due to overhead from the very frameworks that have revolutionized the pace of information technology. Such overhead can be severe enough to overshadow the benefits from switching to new technologies like persistent memory and low latency interconnects. Resource Proportional Software Design for Emerging Systems introduces resource proportional design (RPD) as a principled approach to software component and system development that counters the overhead of deeply layered code without removing flexibility or ease of development. RPD makes resource consumption proportional to situational utility by adapting to diverse emerging needs and technology systems evolution. Highlights: Analysis of run-time bloat in deep software stacks, an under-explored source of power-performance wastage in IT systems Qualitative and quantitative treatment of key dimensions of resource proportionality Code features: Unify and broaden supported but optional features without losing efficiency Technology and systems evolution: Design software to adapt with changing trade-offs as technology evolves Data processing: Design systems to predict which subsets of data processed by an (analytics or ML) application are likely to be useful System wide trade-offs: Address interacting local and global considerations throughout software stacks and hardware including cross-layer co-design involving code, data and systems dimensions, and non-functional requirements such as security and fault tolerance Written from a systems perspective to explore RPD principles, best practices, models and tools in the context of emerging technologies and applications This book is primarily geared towards practitioners with some advanced topics for researchers. The principles shared in the book are expected to be useful for programmers, engineers and researchers interested in ensuring software and systems are optimized for existing and next generation technologies. The authors are from both industry (Bhattacharya and Voigt) and academic (Gopinath) backgrounds.

**Accreditation and the Global Higher Education Market** Gudmund Hernes, Michaela Martin, 2008 Higher education systems throughout the world in developed and developing countries are undergoing diverse types of changes that are often interrelated. One of these changes is the considerable growth in the private provision of higher education over the last decade, in particular within developing countries. The IIEP Policy Forum identified the most recent trends and findings of trade in higher education and by discussing the international driving forces that push national governments to establish quality assurance systems for their higher education institutions and programmes.

*Camping in the Galaxy* Helen Ruggieri, 2019-01-26 *Camping in the Galaxy* is a collection of haibun - compact prose pieces accompanied by haiku - and well-crafted essays that celebrate the natural world without turning a blind eye to the ravages of human impact. Helen Ruggieri cultivates a sense of place as she recounts life in the Allegheny bioregion of Western New York, both past and present, as well as her childhood in Pennsylvania coal country. She writes about Native Americans, deer, groundhogs, wild grasses, Zen gardens, small town life, river walking, maple trees, sunsets, the seasons and much more,

occasionally dipping into folklore and mythology. The result is a blending of contemporary American culture with the beauty and wonder of nature that reveals an unspoken truth about the way we live.

**Un-Hinged: What I Learned from Saying, It's You, It's Not Me in the NYC Dating Scene** Mariann Yip,2022-03 In Un-Hinged: What I Learned from Saying, It's You, It's Not Me in the NYC Dating Scene, Mariann Yip recounts her dating experiences from over a span of two years in New York City. Written with the familiarity of Mariann telling her close girlfriends about her dates for the first time, each chapter presents a different suitor and dives into the lessons she learned. With each of the twelve men she discusses, she reveals the ups and downs of online dating, the realities of dating in a city like New York, and the personal development she experienced in her late twenties. When it comes to dating, love exists and will come and go. It's important to remember that finding love is a journey and takes patience and time. Your unique dating experience is valid, and the way your relationship ends does not define your worth or what you deserve. And, most importantly, you should never settle, because oftentimes, honey, it's them--it's not you.
