Before March Madness Kurt Edward Kemper,2020-08-10 Big money NCAA basketball had its origins in a many-sided conflict of visions and agendas. On one side stood large schools focused on a commercialized game that privileged wins and profits. Opposing them was a tenuous alliance of liberal arts colleges, historically black colleges, and regional state universities, and the competing interests of the NAIA, each with distinct interests of their own. Kurt Edward Kemper tells the dramatic story of the clashes that shook college basketball at mid-century—and how the repercussions continue to influence college sports to the present day. Taking readers inside the competing factions, he details why historically black colleges and regional schools came to embrace commercialization. As he shows, the NCAA's strategy of co-opting its opponents gave each group just enough just enough to play along—while the victory of the big-time athletics model handed the organization the power to seize control of college sports. An innovative history of an overlooked era, *Before March Madness* looks at how promises, power, and money laid the groundwork for an American sports institution.

Kusamira Music in Uganda Peter J. Hoelsing,2021-11-09 A performance culture of illness and wellness In southern Uganda, ritual healing traditions called kusamira and nswezi rely on music to treat sickness and maintain well-being. Peter J. Hoelsing blends ethnomusicological fieldwork with analysis to examine how kusamira and nswezi performance socializes dynamic processes of illness, wellness, and health. People participate in these traditions for reasons that range from preserving ideas to generating strategies that allow them to navigate changing circumstances. Indeed, the performance of kusamira and nswezi reproduces ideas that remain relevant for succeeding generations. Hoelsing shows the potential of this social reproduction of well-being to shape development in a region where over 80 percent of the population relies on traditional healers for primary health care. Comprehensive and vivid with eyewitness detail, *Kusamira Music in Uganda* offers insight into important healing traditions and the overlaps between expressive culture and healing practices, the human

and other-than-human, and Uganda's past and future.

The Injury Fact Book Susan P. Baker, 1992 Causes of injuries are explored. Injuries are also analyzed on the basis of intent. Injuries are illustrated by age, race, sex, geographic area, urban/rural residence, and per capita income.

Hoosiers and the American Story Madison, James H., Sandweiss, Lee Ann, 2014-10-01 A supplemental textbook for middle and high school students, *Hoosiers and the American Story* provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.

The University and Urban Revival Judith Rodin, 2015-12-04 In the last quarter of the twentieth century, urban colleges and universities found themselves enveloped by the poverty, crime, and physical decline that afflicted American cities. Some institutions turned inward, trying to insulate themselves rather than address the problems in their own backyards. Others attempted to develop better community relations, though changes were hard to sustain. Spurred by an unprecedented crime wave in 1996, University of Pennsylvania President Judith Rodin knew that the time for urgent action had arrived, and she set a new course of proactive community engagement for her university. Her dedication to the revitalization of West Philadelphia was guided by her role not only as president but also as a woman and a mother with a deep affection for her hometown. The goal was to build capacity back into a severely distressed inner-city neighborhood—educational capacity, retail capacity, quality-of-life capacity, and especially economic capacity—guided by the belief that town and gown could unite as one richly diverse community. Cities rely on their academic institutions as stable places of employment, cultural centers, civic partners, and concentrated populations of consumers for local business and services. And a competitive university demands a vibrant neighborhood to meet the needs of its faculty, staff, and students. In keeping with their mission, urban universities are uniquely positioned to lead their communities in revitalization efforts, yet this effort requires resolute persistence. During Rodin's administration (1994-2004), the *Chronicle of Higher Education* referred to Penn's progress as a national model of constructive town-gown interaction and partnership. This book narrates the challenges, frustrations, and successes of Penn's campaign, and its prospects for long-term change.

The Decline of the Novel Joseph Bottum, 2019 The novel has lost its purpose, Joseph Bottum argues in this fascinating new look at the history of fiction. We have not transcended our need for what novels provide, but we no longer read novels the way we used to. In a historical tour de force--the kind of sweeping analysis almost lost to contemporary literary criticism--Bottum traces the emergence of the novel from the modern religious formation of the individual soul and the atomized self. Reading everything from Jane Austen to genre fiction, Bottum finds a lack of faith in the ability of art to respond to the deep problems of existence. The decline of the novel's prestige reflects and confirms a genuine cultural crisis, he writes. The novel didn't fail us. We failed the novel. Told in faced-paced, engaging prose, Bottum's *The Decline of the Novel* is a succinct critique of classic and contemporary fiction--a must read for students of literary form, critics of contemporary art, and general readers who wish to learn, finally, what we all used to know: the deep moral purpose of reading novels. --back cover of book

Teaching about Asia in a Time of Pandemic David Kenley, 2020-12 *Teaching About Asia in a Time of Pandemic* presents many lessons learned by educators during the COVID-19 outbreak. The volume consists of two sections, one discussing how to teach using examples and case studies emerging from the pandemic and the other focusing on pedagogical tools and methods beyond the traditional face-to-face classroom.

The Truly Disadvantaged William Julius Wilson, 2012-06-29 An assessment of the relationship between race and poverty in the United States, and potential solutions for the issue. Renowned American sociologist William Julius Wilson takes a look at the social transformation of inner-city ghettos, offering a sharp evaluation of the convergence of race and poverty. Rejecting both conservative and liberal interpretations of life in the inner city, Wilson offers essential information and several solutions to policymakers. *The Truly Disadvantaged* is a wide-ranging examination, looking at the relationship between race, employment, and education from the 1950s onwards, with surprising and provocative findings. This second edition also includes a new afterword from Wilson himself that brings the book up to date and offers fresh insight into its findings. Praise for *The Truly Disadvantaged* "The Truly Disadvantaged should spur critical thinking in many quarters about the causes and

possible remedies for inner city poverty. As policymakers grapple with the problems of an enlarged underclass they—as well as community leaders and all concerned Americans of all races—would be advised to examine Mr. Wilson’s incisive analysis.” —Robert Greenstein, New York Times Book Review “The Truly Disadvantaged not only assembles a vast array of data gleamed from the works of specialists, it offers much new information and analysis. Wilson has asked the hard questions, he has done his homework, and he has dared to speak unpopular truths.” —Los Angeles Times Book Review “Required reading for anyone, presidential candidate or private citizen, who really wants to address the growing plight of the black urban underclass.” —David J. Garrow, Washington Post Book World

The Brothers Grimm Spectaculathon Don Zolidis, 2007 Two narrators attempt to recreate all 209 of the fairy tales of the Brothers Grimm in a wild, fast-paced extravaganza. To make it more difficult, they attempt to combine them into one gigantic fable using Rapunzel, Rumpelstiltskin, Hansel and Gretel, Snow White, Sleeping Beauty, Cinderella and other more obscure stories like Lean Lisa and The Devil's Grandmother.
