Roy A. Grossnick

Dictionary of American Naval Aviation Squadrons Roy A. Grossnick, 1995

Reputation Charles J. Fombrun, 1996 This work provides an analysis of the determinants and effects of reputation management. It demonstrates the economic value of a corporate reputation, quantifying the economic returns for well-regarded companies, and presents recommendations and processes for assessing and improving reputation. INDICE: Introduction: why reputations matter. Part 1 The hidden value of a good reputation: going for the gold; what's in a name?; enlightened self-inter... Etc.

World Migration Report 2020 United Nations, 2019-11-27 Since 2000, IOM has been producing world migration reports. The World Migration Report 2020, the tenth in the world migration report series, has been produced to contribute to increased understanding of migration throughout the world. This new edition presents key data and information on migration as well as thematic chapters on highly topical migration issues, and is structured to focus on two key contributions for readers: Part I: key information on migration and migrants (including migration-related statistics); and Part II: balanced, evidence-based analysis of complex and emerging migration issues.

The American Yawp Joseph L. Locke, Ben Wright, 2019-01-22 I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world.—Walt Whitman, *Song of Myself*, *Leaves of Grass* The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity

wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of *The American Yawp* will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. *The American Yawp* traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, *The American Yawp* gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

Antifa Mark Bray, 2017-08-29 *The National Bestseller* "Focused and persuasive... Bray's book is many things: the first English-language transnational history of antifa, a how-to for would-be activists, and a record of advice from anti-Fascist organizers past and present."—*THE NEW YORKER* Insurgent activist movements need spokesmen, intellectuals and apologists, and for the moment Mark Bray is filling in as all three... The book's most enlightening contribution is on the history of anti-fascist efforts over the past century, but its most relevant for today is its justification for stifling speech and clobbering white supremacists.—Carlos Lozada, *THE WASHINGTON POST* "[Bray's] analysis is methodical, and clearly informed by both his historical training and 15 years of organizing, which included Occupy Wall Street... *Antifa: The Anti-Fascist Handbook* couldn't have emerged at a more opportune time. Bray's arguments are incisive and cohesive, and his consistent refusal to back down from principle makes the book a crucial intervention in our political moment."—*SAN FRANCISCO CHRONICLE* In the wake of tragic events in Charlottesville, VA, and Donald Trump's initial refusal to denounce the white nationalists behind it all, the antifa opposition movement is suddenly appearing everywhere. But what is it, precisely? And where did it come from? As long as there has been fascism, there has been anti-fascism — also known as "antifa." Born out of resistance to Mussolini and Hitler in Europe during the 1920s and '30s, the antifa movement has suddenly burst into the headlines amidst opposition to the Trump administration and the alt-right. They could be seen in news reports, often clad all in black with balaclavas covering their faces, demonstrating at the presidential inauguration, and on California college campuses protesting far-right speakers, and most recently, on the streets of Charlottesville, VA, protecting, among others, a group of ministers including Cornel West from neo-Nazi violence. (West would later tell reporters, *The anti-fascists saved our lives.*) Simply, antifa aims to deny fascists the opportunity to promote their oppressive politics, and to protect tolerant communities from acts of violence promulgated by fascists. Critics say shutting down political adversaries is anti-democratic; antifa adherents argue that the horrors of fascism must never be allowed the slightest chance to triumph again. In a smart and gripping investigation, historian and former Occupy Wall Street organizer Mark Bray provides a detailed survey of the full history of anti-fascism from its origins to the present day — the first transnational history of postwar anti-fascism in English. Based on interviews with anti-fascists from around the world, *Antifa* details the

tactics of the movement and the philosophy behind it, offering insight into the growing but little-understood resistance fighting back against fascism in all its guises.

The American Yawp Joseph L. Locke, Ben Wright, 2019-01-22 I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world.—Walt Whitman, Song of Myself, Leaves of Grass The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of The American Yawp will be available in two print volumes designed for the U.S. history survey. Volume II opens in the Gilded Age, before moving through the twentieth century as the country reckoned with economic crises, world wars, and social, cultural, and political upheaval at home. Bringing the narrative up to the present, The American Yawp enables students to ask their own questions about how the past informs the problems and opportunities we confront today.

Brands of Faith Mara Einstein, 2007-09-14 In a society overrun by commercial clutter, religion has become yet another product sold in the consumer marketplace, and faiths of all kinds must compete with a myriad of more entertaining and more convenient leisure activities. Brands of Faith argues that in order to compete effectively faiths have had to become brands – easily recognizable symbols and spokespeople with whom religious prospects can make immediate connections Mara Einstein shows how religious branding has expanded over the past twenty years to create a blended world of commerce and faith where the sacred becomes secular and the secular sacred. In a series of fascinating case studies of faith brands, she explores the significance of branded church courses, such as Alpha and The Purpose Driven Life, mega-churches, and the popularity of the televangelist Joel Olsteen and television presenter Oprah Winfrey, as well as the rise of Kaballah. She asks what the consequences of this religious marketing will be, and outlines the possible results of religious commercialism – good and bad. Repackaging religion – updating music, creating teen-targeted bibles – is justifiable and necessary. However, when the content becomes obscured, religion may lose its unique selling proposition – the very ability to raise us above the market.

Fighting for Hope Robert F. Jefferson, 2008-11-24 Integrating social history and civil rights movement studies, *Fighting for Hope* examines the ways in which political meaning and identity were reflected in the aspirations of these black GIs and

their role in transforming the face of America.

Mergers, Acquisitions, and Corporate Restructurings Patrick A. Gaughan, 2017-11-27 The essential M&A primer, updated with the latest research and statistics *Mergers, Acquisitions, and Corporate Restructurings* provides a comprehensive look at the field's growth and development, and places M&As in realistic context amidst changing trends, legislation, and global perspectives. All-inclusive coverage merges expert discussion with extensive graphs, research, and case studies to show how M&As can be used successfully, how each form works, and how they are governed by the laws of major countries. Strategies and motives are carefully analyzed alongside legalities each step of the way, and specific techniques are dissected to provide deep insight into real-world operations. This new seventh edition has been revised to improve clarity and approachability, and features the latest research and data to provide the most accurate assessment of the current M&A landscape. Ancillary materials include PowerPoint slides, a sample syllabus, and a test bank to facilitate training and streamline comprehension. As the global economy slows, merger and acquisition activity is expected to increase. This book provides an M&A primer for business executives and financial managers seeking a deeper understanding of how corporate restructuring can work for their companies. Understand the many forms of M&As, and the laws that govern them Learn the offensive and defensive techniques used during hostile acquisitions Delve into the strategies and motives that inspire M&As Access the latest data, research, and case studies on private equity, ethics, corporate governance, and more From large megadeals to various forms of downsizing, a full range of restructuring practices are currently being used to revitalize and supercharge companies around the world. *Mergers, Acquisitions, and Corporate Restructurings* is an essential resource for executives needing to quickly get up to date to plan their own company's next moves.

The Best Democracy Money Can Buy Greg Palast, 2003-02-25 Palast is astonishing, he gets the real evidence no one else has the guts to dig up. Vincent Bugliosi, author of *None Dare Call it Treason* and *Helter Skelter* Award-winning investigative journalist Greg Palast digs deep to unearth the ugly facts that few reporters working anywhere in the world today have the courage or ability to cover. From East Timor to Waco, he has exposed some of the most egregious cases of political corruption, corporate fraud, and financial manipulation in the US and abroad. His uncanny investigative skills as well as his no-holds-barred style have made him an anathema among magnates on four continents and a living legend among his colleagues and his devoted readership. This exciting collection, now revised and updated, brings together some of Palast's most powerful writing of the past decade. Included here are his celebrated Washington Post exposé on Jeb Bush and Katherine Harris's stealing of the presidential election in Florida, and recent stories on George W. Bush's payoffs to corporate cronies, the payola behind Hillary Clinton, and the faux energy crisis. Also included in this volume are new and previously unpublished material, television transcripts, photographs, and letters.

Inside Job Stephen Pizzo, Mary Fricker, Paul Muolo, 2015-09-29 New York Times Bestseller: A history of the S&L scandal

that caused a financial disaster for American taxpayers: “Hard to put down” (Library Journal). For most of the 20th century, savings and loans were an invaluable thread of the American economy. But in the 1970s, Congress passed sweeping financial deregulation at the insistence of industry insiders that allowed these once quaint and useful institutions to spread their taxpayer-insured assets into new and risky investments. The looser regulations and reduced federal oversight also opened the industry to an army of shady characters, white-collar criminals, and organized crime groups. Less than 10 years later, half the nation’s savings and loans were insolvent, leaving the American taxpayer on the hook for a large hunk of the nearly half a trillion dollars that had gone missing. The authors of Inside Job saw signs of danger long before the scandal hit nationwide. Decades after the savings and loan collapse, Inside Job remains a thrilling read and a sobering reminder that our financial institutions are more fragile than they appear.

Capablanca Frisco Del Rosario,2010-10-16 Jose Raul Capablanca is renowned for his exquisite positional play and flawless endgame technique. But The Chess Machine was also a master of that other way to deliver mate: the attack on the enemy king. In this groundbreaking work, award-winning chess coach and author Frisco Del Rosario shines a long-overdue light on this neglected aspect of Capablanca's record. He illustrates how the Cuban genius used positional concepts to build up irresistible king hunts, embodying the principles of good play advocated by the unequaled teacher, C.J.S. Purdy. The author also identifies an overlooked checkmate pattern - Capablanca's Mate - that aspiring attackers can add to the standard catalogue in Renaud and Kahn's The Art of the Checkmate. As Del Rosario shows, Capablanca has inspired not only generations of players, but also many of the classics of chess literature. Easy to read but chock-full of advice for study and practical play, Capablanca: A Primer of Checkmate fills a gaping hole in our understanding of the third World Champion.

Daily Demonstrators Tobin Miller Shearer,2010-11-01 The Mennonites, with their long tradition of peaceful protest and commitment to equality, were castigated by the Reverend Martin Luther King Jr. for not showing up on the streets to support the civil rights movement. Daily Demonstrators shows how the civil rights movement played out in Mennonite homes and churches from the 1940s through the 1960s. In the first book to bring together Mennonite religious history and civil rights movement history, Tobin Miller Shearer discusses how the civil rights movement challenged Mennonites to explore whether they, within their own church, were truly as committed to racial tolerance and equality as they might like to believe. Shearer shows the surprising role of children in overcoming the racial stereotypes of white adults. Reflecting the transformation taking place in the nation as a whole, Mennonites had to go through their own civil rights struggle before they came to accept interracial marriages and integrated congregations. Based on oral history interviews, photographs, letters, minutes, diaries, and journals of white and African-American Mennonites, this fascinating book further illuminates the role of race in modern American religion.

The New Nationalism Theodore Roosevelt,1910

Execution's Doorstep Leslie Lytle, 2008 The stories of five men unfairly condemned to death

Secession and Security Ahsan I. Butt, 2017-11-15 In *Secession and Security*, Ahsan I. Butt argues that states rather than separatists determine whether a secessionist struggle will be peaceful, violent, or genocidal. He investigates the strategies, ranging from negotiated concessions to large-scale repression, adopted by states in response to separatist movements. Variations in the external security environment, Butt argues, influenced the leaders of the Ottoman Empire to use peaceful concessions against Armenians in 1908 but escalated to genocide against the same community in 1915; caused Israel to reject a Palestinian state in the 1990s; and shaped peaceful splits in Czechoslovakia in 1993 and the Norway-Sweden union in 1905. Butt focuses on two main cases—Pakistani reactions to Bengali and Baloch demands for independence in the 1970s and India's responses to secessionist movements in Kashmir, Punjab, and Assam in the 1980s and 1990s. Butt's deep historical approach to his subject will appeal to policymakers and observers interested in the last five decades of geopolitics in South Asia, the contemporary Israeli-Palestinian conflict, and ethno-national conflict, separatism, and nationalism more generally.

Laying Down the Law Robin Creyke, 2020 *Laying Down the Law* provides a comprehensive and accessible introduction to the study of law.

The Forerunners Robert P. Swierenga, 2018-02-05 Between 1800 and 1880 approximately 6500 Dutch Jews immigrated to the United States to join the hundreds who had come during the colonial era. Although they numbered less than one-tenth of all Dutch immigrants and were a mere fraction of all Jews in America, the Dutch Jews helped build American Jewry and did so with a nationalistic flair. Like the other Dutch immigrant group, the Jews demonstrated the salience of national identity and the strong forces of ethnic, religious, and cultural institutions. They immigrated in family migration chains, brought special job skills and religious traditions, and founded at least three ethnic synagogues led by Dutch rabbis. *The Forerunners* offers the first detailed history of the immigration of Dutch Jews to the United States and to the whole American diaspora. Robert Swierenga describes the life of Jews in Holland during the Napoleonic era and examines the factors that caused them to emigrate, first to the major eastern seaboard cities of the United States, then to the frontier cities of the Midwest, and finally to San Francisco. He provides a detailed look at life among the Dutch Jews in Boston, New York, Philadelphia, Baltimore, and New Orleans. This is a significant volume for readers interested in Jewish history, religious history, and comparative studies of religious declension. Immigrant and social historians likewise will be interested in this look at a religious minority group that was forced to change in the American environment.

Drawing Futures Bob Sheil, Frédéric Migayrou, Luke Pearson, Laura Allen, 2016-11-11 *Drawing Futures* brings together international designers and artists for speculations in contemporary drawing for art and architecture. Despite numerous developments in technological manufacture and computational design that provide new grounds for designers, the act of

drawing still plays a central role as a vehicle for speculation. There is a rich and long history of drawing tied to innovations in technology as well as to revolutions in our philosophical understanding of the world. In reflection of a society now underpinned by computational networks and interfaces allowing hitherto unprecedented views of the world, the changing status of the drawing and its representation as a political act demands a platform for reflection and innovation. Drawing Futures will present a compendium of projects, writings and interviews that critically reassess the act of drawing and where its future may lie. Drawing Futures focuses on the discussion of how the field of drawing may expand synchronously alongside technological and computational developments. The book coincides with an international conference of the same name, taking place at The Bartlett School of Architecture, UCL, in November 2016. Bringing together practitioners from many creative fields, the book discusses how drawing is changing in relation to new technologies for the production and dissemination of ideas.

Biennial Reports of the Chief of Staff of the United States Army to the Secretary of War United States. War Department. General Staff, George Catlett Marshall, Center of Military History, 1941 Brings together three installments of General George C. Marshall's wartime reports. Provides a comprehensive picture of global war as seen from the perspective of the Chief of Staff George C. Marshall. Includes Marshall's comments on such topics as: technology; the 90-division gamble; the replacement system; troop morale and the citizen-soldier; and demobilization.

The Enthralling World of Kindle Books: A Detailed Guide Revealing the Benefits of Kindle Books: A Realm of Convenience and Flexibility E-book books, with their inherent mobility and simplicity of access, have freed readers from the constraints of physical books.
