The Devils Will Get No Rest James B. Conroy, 2023-06-13 The first full account of the Casablanca Conference of January 1943, the secret ten-day parlay in Morocco where FDR, Churchill, and their divided high command hammered out a winning strategy at the tipping point of World War II. The Devils Will Get No Rest is a character-driven account of the Casablanca Conference of January 1943, an Anglo-American clash over military strategy that produced a winning plan when World War II could have gone either way. Churchill called it the most important Allied conclave of the war. Until now, it has never been explored in a full-length book. In a secret, no-holds-barred, ten-day debate in a Moroccan warzone, protected by British marines and elite American troops, Franklin Roosevelt, Winston Churchill, Charles de Gaulle, George C. Marshall, Dwight D. Eisenhower, George S. Patton Jr., Sir Alan Brooke, Lord Louis Mountbatten, Sir Harold Alexander, and their military peers questioned each other's competence, doubted each other's vision, and argued their way through choices that could win or lose the war. You will be treated to a master class in strategy by the legendary statesmen, generals, and admirals who overcame their differences, transformed their alliance from a necessity to a bond, forged a war-winning plan, and glimpsed the postwar world.

The Bleeding Edge Bob Hughes,2016-10-17 Capitalism likes us to believe in the steady, inevitable march of progress, from the abacus to the iPad. But the historical record tells of innumerable roads not taken, all of which could have led to better, more equal worlds, and still can. Academic and activist Bob Hughes puts flesh on the bones of the idea that 'another world is possible', using as evidence the technology that capitalism claims as quintessentially its own: the computer in all its forms. Contrary to popular belief capitalism does not do innovation well – instead suppressing or appropriating it. This book shows that great innovations have never emerged from capitalism per se, but always from the utopian moments that occur behind the capitalist's back. And when it does embrace an innovation, the results are often the diametric opposite of what the innovators intended. In this thorough and meticulous work Hughes argues that if we only prioritized equality over materialism then superior and more diverse technologies would emerge leading to a richer more sustainable world. Bob Hughes is an academic, activist, and author. Formerly he taught electronic media Oxford Brookes University and now spends his time researching and campaigning against inequality. He is author of *Dust or Magic*, a book for digital multimedia workers, about how people do good stuff with computers. He is a member of No One is Illegal, which campaigns for the total abolition of immigration controls, for whom he has written many articles.
