

## I. INSTRUCTIONAL FACULTY AND CLASS SIZE

**Please report the number of instructional faculty members in each category for Fall 2007. Include who are on your institution's payroll on the census date your institution uses for IPEDS/AAUP.**

I1

The following definition of full-time instructional faculty is used by the American Association of University Professors in its annual Faculty Compensation Survey (the part time definitions are not used by AAUP). Instructional Faculty is defined as those members of the instructional-research staff whose major regular assignment is instruction, including those with released time for research. Use the chart below to determine inclusions and exclusions:

	Full-time
(a) instructional faculty in preclinical and clinical medicine, faculty who are not paid (e.g., those who donate their services or are in the military), or research-only faculty, post-doctoral fellows, or pre-doctoral fellows	Exclude
(b) administrative officers with titles such as dean of students, librarian, registrar, coach, and the like, even though they may devote part of their time to classroom instruction and may have faculty status	Exclude
(c) other administrators/staff who teach one or more non-clinical credit courses even though they do not have faculty status	Exclude
(d) undergraduate or graduate students who assist in the instruction of courses, but have titles such as teaching assistant, teaching fellow, and the like	Exclude
(e) faculty on sabbatical or leave with pay	Include
(f) faculty on leave without pay	Exclude
(g) replacement faculty for faculty on sabbatical leave or leave with pay	Exclude

*Full-time instructional faculty:* faculty employed on a full-time basis for instruction (including those with released time for research)

*Part-time instructional faculty:* Adjuncts and other instructors being paid solely for part-time classroom instruction. A full-time faculty teaching less than two semesters, three quarters, two trimesters, or two four-month sessions. Employees are not considered full-time instructional faculty but who teach one or more non-clinical credit courses may be counted as part-time faculty.

*Minority faculty:* includes faculty who designate themselves as black, non-Hispanic; American Indian or Alaska Native; Pacific Islander; or Hispanic.

*Doctorate:* includes such degrees as Doctor of Education, Doctor of Juridical Science, Doctor of Public Health, and Philosophy degree in any field such as agronomy, food technology, education, engineering, public administration, ophthalmology, or radiology.

*First-professional:* includes the fields of dentistry (DDS or DMD), medicine (MD), optometry (OD), osteopathic medicine (D.O.), pharmacy (DPharm or BPharm), podiatric medicine (DPM), veterinary medicine (DVM), chiropractic (DC or DCM), and theological professions (MDiv, MHL).

*Terminal degree:* the highest degree in a field: example, M. Arch (architecture) and MFA (master of fine arts).

	Full-Time	Part-Time
a) Total number of instructional faculty	28	102
b) Total number who are members of minority groups		
c) Total number who are women		
d) Total number who are men		
e) Total number who are nonresident aliens (international)		

I1	f)	Total number with doctorate, first professional, or other terminal degree		
I1	g)	Total number whose highest degree is a master's but not a terminal master's		
I1	h)	Total number whose highest degree is a bachelor's		
I1	i)	Total number whose highest degree is unknown or other (Note: Items f, g, h, and i must sum up to item a.)		
I1	j)	Total number in stand-alone graduate/ professional programs in which faculty teach virtually only graduate-level students		

**I2 Student to Faculty Ratio**

Report the Fall 2007 ratio of full-time equivalent students (full-time plus 1/3 part time) to full-time equivalent instructional faculty (full time plus 1/3 part time). In the ratio calculations, exclude both faculty and student alone graduate or professional programs such as medicine, law, veterinary, dentistry, social work, business, public health in which faculty teach virtually only graduate-level students. Do not count undergraduate or student teaching assistants as faculty.

I2	Fall 2007 Student to Faculty ratio	15	to 1	(based on	909
				and	62

**I3 Undergraduate Class Size**

In the table below, please use the following definitions to report information about the size of classes and sections offered in the Fall 2007 term.

**Class Sections:** A class section is an organized course offered for credit, identified by discipline and number, meeting at a stated time or times in a classroom or similar setting, and not a subsection such as a laboratory discussion session. Undergraduate class sections are defined as any sections in which at least one degree-seeking undergraduate student is enrolled for credit. Exclude distance learning classes and noncredit classes and instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Exclude student independent study, co-operative programs, internships, foreign language taped tutor sessions, practicum students in one-on-one classes. Each class section should be counted only once and should not be duplicated because of course catalog cross-listings.

**Class Subsections:** A class subsection includes any subsection of a course, such as laboratory, recitation, discussion subsections that are supplementary in nature and are scheduled to meet separately from the main portion of the course. Undergraduate subsections are defined as any subsections of courses in which degree-seeking undergraduate students enrolled for credit. As above, exclude noncredit classes and individual instruction such as dissertation or thesis research, music instruction, or one-to-one readings. Each class subsection should be counted only once and should not be duplicated because of cross-listings.

Using the above definitions, please report for each of the following class-size intervals the number of classes and class subsections offered in Fall 2007. For example, a lecture class with 800 students who met at a time in 40 separate labs with 20 students should be counted once in the "100+" column in the class section column and 40 times under the "20-29" column of the class subsections table.
