## Neki C. Modi,Alpa A. Shah

*Math Practice for Beginners* Teacher Created Resources,2004-10-13 This book features 190 engaging, age-appropriate lessons for exploring numbers and number concepts. Students will learn to recognize, write, and add and subtract numbers from 1 to 10.

Pre-K Math: Concepts from Global Sources Cynthia M. Manthey,1996-03-01 Finally, age-appropriate games, art, bookmaking, puppetry, fingerplays, and more to teach early math concepts to preschoolers. These creative, exciting, and engaging activities are refreshing alternatives to worksheets for teaching your children numbers. With these simple and inexpensive activities, children learn how to write and identify numerals, determine amounts through tactile and visual play, count from zero to ten and ten to zero, and do simple addition, subtraction, and estimation. Each chapter focuses on a different number, so that each week you can concentrate on a new number while engaging a child's curiosity, sense of play, five senses, and interest. Pre-written letters to parents are included to encourage home involvement with the number of the week. There is also an overview of children's natural mathematical development, which explains the best methods of both teaching and learning.

*One-Sheet-A-Day Math Drills* Neki C. Modi,Alpa A. Shah,2020-06-23 his One-Sheet-A-Day math drill workbook is for 4th grade students who want extra practice with four and five digit subtraction. It contains 200 math practice sheets, one for each school day of the year. Upon completion, the student will be more competent in 4th grade mathematics and ready to proceed with more difficult exercises. Unlike other math drill books, this is one of 24 workbooks created to establish a daily routine for each student to practice on their own from grades 1 through 7. It is specifically designed to gradually increase mathematical ability with the least amount of stress for both parent and student. Kids need to practice at home to support what they are learning in school, but finding resources to help with that goal can be daunting. It takes a lot of time searching online for free resources to print or for books with enough exercises. Beyond that, the options include going to libraries, enrolling them in an afterschool class or hiring a personal tutor. Who has the time and money for all of that? The answer is, not many parents. Each and every parent wants to provide enough practice work to their kids, but on top of the challenges in finding resources, questions remain about how much practice a child needs to boost educational success: twenty sheets of practice work a day? One sheet a week? What's the optimum practice work during a whole academic year? Confused? The

authors have a decade of classroom expertise and have spent a large amount of time researching and wasting resources trying all the options for their own kids. Now you can benefit from what they have learnt. The result is finding out that ONE-SHEET-A-DAY is the optimum way to support classroom learning, and it is amazingly simple. This book eliminates the need to take home prints or run around franchises, bookstores and libraries trying to find enough material. It also prevents you from overwhelming your kids with too many math drill worksheets. There are approximately 200 school days a year. Simply have your child complete ONE per day. Work is far easier when it is part of a routine, especially for kids. The One-Sheet-per-Day program is an easy routine to start and maintain because it takes less than 20 minutes per day, using basic skills your child already knows. Simply take one sheet from the book, ask your child to complete it in a quiet place, and return it to you to check the answers, a painless routine for you and your child, and instant feedback for both of you. Geared to follow most math curriculums, most kids can do the appropriate sheet on their own based on what they are learning at school. One-Sheet-A-Day math practice drills will give your child practice they need to score higher on test day, and build confidence in their math abilities.

*Resources for Teaching Mathematics: 11-14* Colin Foster, 2011-09-22 This resource contains 50 ready-to-use mathematics lesson plans suitable for the whole department to use with learners aged 11-14. Each plan consists of a teacher's sheet which breaks down the lesson into time-allocated sections from starter through to homework, together with a photocopiable (or downloadable) student task sheet to give out. There is also a companion website with extra material to support the lesson plans in the book, giving teachers the time and confidence to try new activities in the classroom with minimal preparation. The lesson tasks are open-ended and encourage deep mathematical thinking, allowing learners to explore different topics creatively through solving problems in their own way. This is an essential resource for any busy teacher of mathematics.
