Distributed Leadership James P. Spillane, 2012-06-29 James Spillane, the leading expert in Distributed Leadership, shows how leadership happens in everyday practices in schools, through formal routines and informal interactions. He examines the distribution of leadership among administrators, specialists, and teachers in the school, and explains the ways in which leadership practice is stretched over leaders, followers, and aspects of the situation, including routines and tools of various sorts in the organization such as memos, scheduling procedures, and evaluation protocols. This book is a volume in the Jossey-Bass Leadership Library in Education—a series designed to meet the demand for new ideas and insights about leadership in schools.

Distributed Leadership Alma Harris, 2009-03-17 Alma Harris The field of school leadership is currently preoccupied with the idea of distributed leadership. Few ideas, it seems, have provoked as much attention, debate and controversy. Whatever your position on distributed leadership, and you cannot fail to have one, it is irrefutable that distributed leadership has become the leadership idea of the moment. Yet, it is an idea that can be traced back as far as the mid 20s and possibly earlier. So why the interest? Part of the answer can be found in a move away from theorizing and empirical enquiry focused on the single leader. This shift has undoubtedly been fuelled by structural changes, within schools and across school systems that have resulted in alternative models or forms of leadership practice. Evidence highlights how those copying formal leadership positions are increasingly recognizing the limitations of existing structural arrangements to secure organizational growth and transformation (Fullan et al. , 2007; Harris et al. , 2008; Chapman et al. , 2008). As a consequence, many heads and principals are actively restructuring, realigning and redesigning leadership practice in their school (Harris, 2008). While the terminology to describe such changes varies, the core principle is one of extending or sharing leadership practice. While scholars have long argued for the need to move beyond those at the top of organizations in order to examine leadership (Barnard, 1968; Katz and Kahn, 1966) until relatively recently, much of the school leadership literature has tended to focus upon the head or the principal.

Distributed Leadership Matters Alma Harris, 2013-11-22 Alma Harris is a world leading writer on the thinking and

practice of distributed leadership. This is undoubtedly the best book that she or anyone has yet written on the subject. —Andy Hargreaves, Thomas More Brennan Chair in Education Boston College Alma Harris captures the essential challenges facing today's school and district leaders and summarizes, in precise and accessible language, important research-based lessons for practice. Her focus on building authentic relationships among all staff is both practical and a welcome antidote to an excessive focus on testing and standardization. —Karen Seashore, Professor University of Minnesota The benefits of distributed leadership are yours with this research-based change process. Distributed leadership—engaging the many rather than the few in school improvement—has long been a promising theory. But it must be implemented effectively before educators and students can reap the rewards, including improved learner outcomes and stronger organizational performance. Distributed Leadership Matters offers pragmatic approaches for realizing these benefits. First, Alma Harris shows why harnessing educators' collective expertise is an improvement strategy worth adopting. Then she details the collaborative processes that make it happen. Insights include: How to translate the research on distributed leadership into tangible results for your school Methods for building the social capital necessary for sustainable institutional change How to distribute leadership widely and wisely through professional collaboration The old-fashioned top-down leadership style no longer works for today's schools. Distributed Leadership Matters is a bold step into the future.

Distributed Leadership in Practice James P. Spillane, John B. Diamond, 2007-08-03 Distributed leadership has become an important term for educational policymakers, practitioners, and researchers in the United States and around the world, but there is much diversity in how the term is understood. Some use it as a synonym for democratic or participative leadership. This book examines what it means to take a distributed perspective based on extensive research and a rich theoretical perspective developed by experts in the field. Including numerous case studies of individual schools and providing empirically based accounts of school settings using a distributed perspective, this thorough volume: Explores how a distributed perspective is different from other frameworks for thinking about leadership. Provides clear examples of how taking a distributed perspective can help researchers understand and connect more directly to leadership practice. Illustrates how the day-to-day practice of leadership is an important line of inquiry for scholars and for those interested in improving school leadership.

Distributed Leadership in Schools John A. DeFlaminis, Mustafa Abdul-Jabbar, Eric Yoak, 2016-04-14 Building on best practices and lessons learned, Distributed Leadership in Schools shows educators how to design and implement distributed leadership to effectively address challenges in their schools. Grounded in case studies and full of practical tools, this book lays out a framework for building strategic, collaborative, and instructionally-focused teams. Supported by voices of practitioners and based upon original research, this comprehensive resource shares concrete strategies, tips, and tools for creating teams that are skilled at using data to plan and monitor their work, and successful in facilitating change to improve

student learning. This innovative method will aid leader development and facilitate reflection, and will reshape leadership practice in a way that benefits teachers, leaders, schools, and students.

Distributed School Leadership Alma Harris, 2013-01-11 Tomorrow's schools will need new forms of leadership. The old hierarchical models of leadership simply do not fit any longer. We need to develop new leaders at all levels of the system if we are serious about sustaining improvement and change. But, how do we go about this? The book focuses on the why, how and what of distributed leadership by offering a practical insight into what it looks like in schools. It argues that our new system leaders are already in schools and that the main challenge is to develop them and maximise their collective capacity to make a difference. Drawing on the 'Developing Leaders Programme', which aimed to develop young leaders in schools, it provides practical examples and case-study evidence of distributed leadership in action. The main aims of the book are to: provide a clear account of more widely distributed leadership offer evidence about its positive impact on organisational and individual learning give case-study exemplars and practical illustrations of how it works in practice. The book also considers the leadership of networks and the new forms of partnership schools are engaged in. It looks at how lateral capacity is built and the part distributed leadership plays in generating leadership capacity between schools. It will be of interest to headteachers, aspiring school leaders, teachers and educational professionals.

Distributed Leadership Neha Chatwani, 2017-10-11 Addressing the area of shared leadership, also known as collective or distributed leadership, this edited book embraces the underlying idea that leadership is a dynamic process that intersects closely with followership. While some authors present rigorously researched qualitative and quantitative case studies that investigate the dynamics of followership in distributive leadership in terms of collective decision-making, leadership identity, roles and demographic composition of groups in a variety of settings, other authors take a critical look at distributed leadership models by viewing them through the lens of nature and ecosystems as well as human development processes. The chapters aim to inspire readers to challenge the current definition of leadership and explore more inclusive and holistic paradigms. Distributed Leadership provides a comprehensive and constructive contribution to the field of leadership and will be an essential read for academics and scholar-practitioners interested in business management.

Distributed Leadership According to the Evidence Kenneth Leithwood, Blair Mascal, Tiiu Strauss, 2009-06-02 Although not new, the concept of distributed (shared) leadership has re-emerged in recent years as one highly promising response to the complex challenges currently faced by schools. Responding productively to these challenges far exceeds the capacities of any individual leader. If schools are to flourish in the future, they will need to enlist the collective expertise of many more of their members and stakeholders than they have in the past. The purpose of this volume is to both present and synthesize the best available evidence about the nature, causes, and effects of distributed school leadership. The book also clarifies common misunderstandings about distributed leadership and identifies promising implications for practice and for

future research. Key features include... Expertise – Written by the most active and widely respected scholars engaged in research on distributed leadership, the book encompasses the very latest knowledge about the nature, causes and consequences of such leadership in schools. Comparative Models – The book compares various approaches to distributed leadership and examines the conditions under which some approaches may be better than others in improving schools. Evidence-Based – Much of the popularity of distributed leadership is rooted in expectations unsupported by systematic empirical evidence. Virtually all of the available evidence about distributed approach to leadership can be found in this book. This book is appropriate for researchers studying school leadership, instructors and students in graduate-level school leadership courses and practicing administrators at the district and building level.

Distributed Leadership in Nursing and Healthcare: Theory, Evidence and Development Elizabeth A. Curtis, Martin Beirne, John Cullen, Ruth Northway, Siobhan Corrigan, 2021-03-08 “This book claims to be ‘like no other’ and that is so true. The editors and authors each add quality guidance around distributed leadership to readers, providing evidence-based examples, useful websites and key reading material to support and supplement the ideas being presented.” Bridie Kent, Professor in Leadership in Nursing, University of Plymouth, UK “This book, thankfully, isn’t about self-defined heroic organizational leaders or power-hungry political leaders – it tells the stories of the people doing leadership every day in their work to make healthcare happen.” Scott Taylor, Business School Director of Admissions, University of Birmingham, UK This innovative book brings together experts from health sciences, nursing, business and management backgrounds to provide a broad analysis of the growing field of distributed leadership. The book offers health professionals practical guidance on applying distributed leadership, resulting in more effective forms of collaborative clinical teamwork and lasting improvements in care. The text: •Offers a comprehensive collection of perspectives, featuring chapters by expert clinical, nursing and management studies contributors •Synthesizes and explores recent developments in the leadership and distributed leadership research literature •Supports research and theory with examples of cases of effective distributed leadership in clinical practice, service quality, patient safety, leadership development, general nursing, midwifery education,

oncology services, intellectual disability, evidence-based practice and organizational change and development •Provides an international focus, to encourage reflection on learning from experiences across Europe and beyond Distributed Leadership in Nursing and Healthcare is essential reading for health professionals, undergraduate and postgraduate students, and researchers working in the field of leadership. Edited by: Elizabeth A. Curtis, Assistant Professor, Trinity College Dublin, Ireland Martin Beirne, Emeritus Professor of Management and Organisational Behaviour at the University of Glasgow, UK John G. The Distributed Leadership Toolbox Mark E. McBeth, 2008-02-19 The purpose of this book is to provide a toolkit of resources, activities, and steps, towards building teams to assess and design distributed leadership practice among school leaders. The author defines leadership practice as the interactions between leader and follower, relating to a situation over a period of time. The most important task is to help leaders perfect their performance of these daily routines through observation and reflection of their own practice. The intent of this book is to give school teams a new way of thinking about the relationship between leadership practice, classroom performance, and student achievement. This book is designed to help school leaders bring distributed leadership into practice, offering unique tools to help identify pitfalls in leadership within present school-wide efforts.

Distributed Leadership Matters Alma Harris, 2013-11-22 The benefits of distributed leadership are yours with this research-based change process. Distributed leadership—engaging the many rather than the few in school improvement—has long been a promising theory. It's time to make it a reality. This book shows why harnessing educators' collective expertise leads to better student outcomes, and details the collaborative processes to make distributed leadership happen. Insights include: How to translate the research on distributed leadership into tangible results for your school Methods for building the social capital necessary for sustainable institutional change How to distribute leadership widely and wisely through professional collaboration

Developing Distributed Curriculum Leadership in Hong Kong Schools Edmond Hau-fai Law, 2017-04-07 The book aims to explore distributed leadership in developing curriculum innovations in schools with a target of bringing about theoretical underpinnings in the West with the empirical studies and practices in the East. It examines theoretically the roots of the curriculum leadership studies and practically with the empirical data and case studies in Hong Kong which has been considered a melting pot of the Western concepts and innovations in a land of Eastern cultures. The examination is framed within theoretical frameworks of activity theories, discourse analysis and social network systems. The findings will show the impact of the cultural traditions of Eastern countries in the mediation of the direction of the discourses in teacher meetings and the effectiveness of decision making in the processes of developing school based curriculum leadership. The book is

theoretically exploratory with practically examined practices for educational leaders like schools headers and department leaders as well as teachers who aim at asserting greater influence in the educational decision making processes. Topics discussed in the book include: Curriculum leadership functions and patterns of leadership distribution Engaging teachers in reflective practice: tensions between ideological orientations and pragmatic considerations Models of distributed leadership: focus, development and future Initiating, designing and enacting curriculum innovations: procedures and processes This book will appeal to researchers interested in Curriculum Studies, School leadership and comparative education. Those who studies the theory of education and Asian education will also find this book valuable.

Effective Leadership for School Improvement Alma Harris,Christopher Day,David Hopkins,Mark Hadfield,Andy Hargreaves,Christopher Chapman,2013-09-05 In a complex and multi-layered world, the conventional idea of great leadership being the result of the efforts of a single individual is rapidly becoming redundant. This book takes up the challenge of finding an alternative method of leadership in educational contexts, and looks at how this can help achieve sustained improvement in schools. The authors acknowledge that there are no simple solutions to school improvement. They argue that the effective leaders of the future will be those who are able to share responsibility, build positive relationships and offer stakeholders - teachers, parents and students - an opportunity to work together to improve their schools. The book is based around four key areas of concern: the changing context of leadership, leadership and school improvement, building leadership capacity, and future direction and implications. In each section, the authors discuss current theories and issues, and put forward alternative ideas and perspectives. This important book will make valuable reading for headteachers, principles, deputies and other senior teachers, particularly those undertaking leadership qualifications and training. It will also be of interest to postgraduate students and school governors.

Thank You for Your Leadership: The Power of Distributed Leadership in a Digital Conversion Model (Subscription) Mark A. Edwards,2015-06-25 This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Thank you for Your Leadership is a unique look toward getting leaders at all levels to work, interact, examine impact, and learn from implementation. In it the author shows how the digital conversion initiative at the Mooresville Graded School District (MGSD) has worked successfully through integration with pedagogy and by interlocking leaders throughout the system. Through his experience as a principal, dean, and superintendent, Dr. Edwards has observed leadership in schools, school systems, grade levels, departments, classrooms, communities, and organizations, and has noted the impact leaders have had on the culture of each group. In this new book Dr. Edwards discusses a practical new view of leadership he calls “second-order leadership” that integrates leadership into every aspect of district life, from hiring procedures to student and parent leadership. Dr. Edwards clarifies the concept of distributed leadership with insights into cultural conditions, alignment with the vision, and leadership

pathways that have fostered leadership throughout his district. He also outlines practical strategies to help other districts spread leadership more broadly and improve teaching and learning to the benefit of students.

EBOOK: Improving Schools Through Teacher Leadership Alma Harris, Daniel Muijs, 2004-12-16 It is now widely accepted that improving schools invest in teacher leadership and build the capacity for improvement by distributing leadership responsibilities to teachers. In primary, secondary and special schools, teachers are uniquely placed to influence the quality of teaching and learning and they are important gatekeepers to development and change. This book explores how teacher leadership is an intrinsic and important part of school and classroom improvement. It investigates teacher leadership in action and considers the roles, responsibilities and influence of teachers who lead. It considers the implications of teacher leadership for teachers' professional development and focuses on ways in which this important form of leadership can be fostered and enhanced. The central message in this book is that teachers play a critical role in leading improvement in the classroom and school level and that this form of leadership contributes directly to raising achievement among learners. This book is crucial reading for all those who are concerned with teacher and school development, school leadership and school improvement.

Leadership Keith Grint, Owain Smolovic Jones, 2017-09-16 This seminal textbook provides a critical review and analysis of the key components of leadership and its limits. Against a historical backdrop, the text explores the foundations of successful and unsuccessful leadership, the relationship between the leaders and subordinates and the role leaders play in the dynamics of organisational life. Taking four key approaches, Leadership as Results, as Process, as Position and as Identity, the author analyses the theoretical source of each alternative and then provides a wide range of illustrative case studies to support his points. In this way, the textbook provides a holistic view of how leaders operate in different contexts as well as the limitations that can restrain emerging/successful leaders. Written by a world-leading expert on leadership, this unique and engaging text is an ideal course companion for undergraduate, postgraduate and MBA students studying leadership. It is suitable for those with no prior business knowledge.

Economics of Distributed Storage Systems Klaus-Henning Ahlert, 2014-08-14 Increasing the shares of Renewable Energy Sources (RES) and Distributed Energy Resources (DER) is one of the most important levers in many countries to cope with the environmental, political, and economic challenges of future energy supply. The underlying research question of this thesis is whether Distributed Storage Systems (DSS) at the end consumer level can economically foster the integration of intermittent and non-dispatchable resources by providing demand-side flexibility.

Learning to Lead in the Secondary School Mark Brundrett, Ian Terrell, 2003-12-16 This book is designed to meet the needs of subject leaders and head of departments in secondary schools, offering practical advice and guidance to teachers taking on these demanding roles.

Creating Healthy Organizations Graham Lowe, 2012-09-28 The current global economic environment is defined by unprecedented uncertainty, a premium placed on knowledge, and the threat of future talent scarcity. Key to an organization's success under these conditions is its ability to strengthen the links between people and performance. **Creating Healthy Organizations** provides executives, managers, human resource professionals, and employees an action-oriented approach to forging these connections by creating and sustaining vibrant and productive workplaces. A healthy organization operates in ways that benefits all stakeholders, including employees, customers, shareholders, and communities.
