## David A. Aaker

**Aaker on Branding** David Aaker, 2014-07-15 Aaker on Branding presents in a compact form the twenty essential principles of branding that will lead to the creation of strong brands. Culled from the six David Aaker brand books and related publications, these principles provide the broad understanding of brands, brand strategy, brand portfolios, and brand building that all business, marketing, and brand strategists should know. Aaker on Branding is a source for how you create and maintain strong brands and synergetic brand portfolios. It provides a checklist of strategies, perspectives, tools, and concepts that represents not only what you should know but also what action options should be on the table. When followed, these principles will lead to strong, enduring brands that both support business strategies going forward and create coherent and effective brand families. Those now interested in and involved with branding are faced with information overload, not only from the Aaker books but from others as well. It is hard to know what to read and which elements to adapt. There are a lot of good ideas out there but also some that are inferior, need updating, or are subject to being misinterpreted and misapplied. And there are some ideas that, while plausible, are simply wrong if not dangerous especially if taken literally. Aaker on Branding offers a sense of topic priorities and a roadmap to David Aaker's books, thinking, and contributions. As it structures the larger literature of the brand field, it also advances the theory of branding and the practice of brand management and, by extension, the practice of business management.

*Building Strong Brands* David A. Aaker, 2012-10-01 As industries turn increasingly hostile, it is clear that strong brand-building skills are needed to survive and prosper. In David Aaker's pathbreaking book, MANAGING BRAND EQUITY, managers discovered the value of a brand as a strategic asset and a company's primary source of competitive advantage. Now, in this compelling new work, Aaker uses real brand-building cases from Saturn, General Electric, Kodak, Healthy Choice, McDonald's, and others to demonstrate how strong brands have been created and managed. A common pitfall of brand strategists is to focus on brand attributes. Aaker shows how to break out of the box by considering emotional and self-expressive benefits and by introducing the brand-as-person, brand-as-organisation, and brand-as-symbol perspectives. A second pitfall is to ignore the fact that individual brands are part of a larger system consisting of many intertwined and overlapping brands and subbrands. Aaker shows how to manage the brand system to achieve clarity and synergy, to adapt to a changing environment, and to leverage brand assets into new markets and products. As executives in a wide range of

industries seek to prevent their products and services from becoming commodities, they are recommitting themselves to brands as a foundation of business strategy. This new work will be essential reading for the battle-ready.

**Aaker on Branding**, 2014

**Brand Relevance** David A. Aaker, 2011-01-25 Branding guru Aaker shows how to eliminate the competition and become the lead brand in your market. This ground-breaking book defines the concept of brand relevance using dozens of case studies—Prius, Whole Foods, Westin, iPad and more—and explains how brand relevance drives market dynamics, which generates opportunities for your brand and threats for the competition. Aaker reveals how these companies have made other brands in their categories irrelevant. Key points: When managing a new category of product, treat it as if it were a brand; By failing to produce what customers want or losing momentum and visibility, your brand becomes irrelevant; and create barriers to competitors by supporting innovation at every level of the organization. Using dozens of case studies, shows how to create or dominate new categories or subcategories, making competitors irrelevant. Shows how to manage the new category or subcategory as if it were a brand and how to create barriers to competitors. Describes the threat of becoming irrelevant by failing to make what customer are buying or losing energy. David Aaker, the author of four brand books, has been called the father of branding. This book offers insight for creating and/or owning a new business arena. Instead of being the best, the goal is to be the only brand around—making competitors irrelevant.

**Brand Leadership** David A. Aaker, Erich Joachimsthaler, 2012-12-11 Management fads come and go in the blink of an eye, but branding is here to stay. Closely watched by the stock market and obsessed over by the biggest companies, brand identity is the one indisputable source of sustainable competitive advantage, the vital key to customer loyalty. David Aaker is widely recognised as the leading expert in this burgeoning field. Now he prepares managers for the next wave of the brand revolution. With coauthor Erich Joachimsthaler, Aaker takes brand management to the next level - strategic brand leadership. Required reading for every marketing manager is the authors' conceptualisation of 'brand architecture' - how multiple brands relate to each other - and their insights on the hot new area of Internet branding. Full of impeccable, intelligent guidance, **BRAND LEADERSHIP** is the visionary key to business success in the future.

**Owning Game-Changing Subcategories** David Aaker, 2020-02-04 *Owning Game-Changing Subcategories* is about creating organizational growth in the digital age by creating and owning game-changing subcategories fueled by digital. *Owning Game-Changing Subcategories* outlines the path to finding, managing, and leveraging new subcategories. In the digital age, the path has been made wider, shorter, and more frequently traveled. Throughout *Owning Game-Changing Subcategories*, David Aaker discusses certain aspects of the digital age that alter this path, such as E-commerce providing fast, inexpensive market access bypassing the cost of gaining distribution into storefront retailers or creating personal sales teams and social media and websites enabling communication on steroids in comparison with traditional use of advertising or events. Growth

is not only a success measure but also creates energy and opportunity for customers and employees. And such growth almost never occurs with “my brand is better than your brand” marketing. Owing Game-Changing Subcategories explores the only ways to grow a business (with rare exceptions) which is to: develop new “must haves” that define a game-changing subcategory that provides a new or markedly superior buying or use experience or brand relationship to a core customer base; become the exemplar brand that represents the subcategory and drives its visibility, positioning, and success; and create barriers to competitors that could include “must-have” associations and a basis of relationships that go beyond functional benefits.

*Three Threats to Brand Relevance* David A. Aaker, 2013-04-03 Threats to brand relevance are always lurking around the corner. Your brand is virtually never immune from the risk of fading instead of being energized or being damaged instead of strengthened.—David Aaker From branding guru David Aaker comes *Three Threats to Brand Relevance*, a provocative new offering in the Jossey-Bass Short Format series. In *Three Threats* Aaker reveals that the key to an organization's sustained growth is to learn what it takes to bring big innovation to market and create barriers to competitors. Aaker also shows how well-established companies can avoid becoming irrelevant in the face of the continuing parade of marketing dynamics led by others. Building on his full-length book *Brand Relevance*, Aaker offers a guide for confronting the three threats if they emerge and shows how to put in place the strategies that will keep the threats at bay. Threat #1: A decline in category or subcategory relevance. Customers simply no longer want to buy what you are making, despite the fact you are offering a quality product and some customers love it. Threat #2: The loss of energy relevance. Without energy the brand simply does not come to mind as other more visible brands and a decline in energy can create a perception that it is locked in the past, suitable for an older generation. Threat #3: The emergence of a reason-not-to-buy. The brand may have a perceived quality problem or be associated with a firm policy that is not acceptable. Whether your brand is just breaking into the marketplace or has a long held place in the hearts of its consumers, any forward-thinking company can implement Aaker's proven methods and strategies as part of their organization's ongoing review of brand strategy with the help of this succinct and to-the-point resource. About the Jossey-Bass Short Format Series Written by thought leaders and experts in their fields, pieces in the Jossey-Bass Short Format Series provide busy, on-the-go professionals, managers and leaders around the world with must-have, just-in-time information in a concise and actionable format.

*Brand Portfolio Strategy* David A. Aaker, 2020-03-24 In this long-awaited book from the world's premier brand expert and author of the seminal work *Building Strong Brands*, David Aaker shows managers how to construct a brand portfolio strategy that will support a company's business strategy and create relevance, differentiation, energy, leverage, and clarity. Building on case studies of world-class brands such as Dell, Disney, Microsoft, Sony, Dove, Intel, CitiGroup, and PowerBar, Aaker demonstrates how powerful, cohesive brand strategies have enabled managers to revitalize brands, support business growth,

and create discipline in confused, bloated portfolios of master brands, subbrands, endorser brands, cobrands, and brand extensions. Renowned brand guru Aaker demonstrates that assuring that each brand in the portfolio has a clear role and actively reinforces and supports the other portfolio brands will profoundly affect the firm's profitability. Brand Portfolio Strategy is required reading not only for brand managers but for all managers with bottom-line responsibility to their shareholders.

*Brand Equity & Advertising* David A. Aaker, Alexander L. Biel, 2013-10-31 The tenth annual Advertising and Consumer Psychology Conference held in San Francisco focused on branding -- a subject generating intense interest both in academia and in the real world. The principle theory behind these conferences is that much can be gained by joining advertising and marketing professionals with academic researchers in advertising. Professionals can gain insight into the new theories, measurement tools and empirical findings that are emerging, while academics are stimulated by the insights and experience that professionals describe and the research questions that they pose. This book consists of papers delivered by experts from academia and industry discussing issues regarding the role of advertising in the establishment and maintenance of brand equity -- making this volume of interest to advertising and marketing specialists, as well as consumer and social psychologists.

**Managing Brand Equity** David A. Aaker, 1991-09-09 The most important assets of any business are intangible: its company name, brands, symbols and slogans and their underlying association, perceived quality, name awareness, and customer base. These assets, which comprise brand equity, are a primary source of competitive advantage and future earnings, contends David Aaker, a national authority on branding. Yet, research shows that managers cannot identify with confidence their brand associations, level of consumer awareness, or degree of customer loyalty. Moreover, in the last decade, managers desperate for short-term financial results have often unwittingly damaged their brands through price promotions and unwise brand extensions, causing irreversible deterioration of the value of the brand name.

**The Future of Purpose-Driven Branding** David Aaker, 2022-09-06 Today's firms need a social effort that is serious and impactful to be relevant. It's not enough to make a commitment to reduce energy or have an ad hoc unbranded budget for grants and volunteering—the world needs their resources and agility to address existential threats in society, and their customers (and employees) demand it. As an influential voice in branding and market connection, David Aaker examines how businesses can adapt their approaches for social betterment in, *The Future of Purpose-Driven Branding: Signature Programs that Impact & Inspire Both Business and Society*. According to Aaker, the future of branding demands that businesses: Create a purpose and culture that nurtures social and environmental efforts Create signature programs to carry that message Build strong signature brands in part with five branding "Must Dos" Use the signature brands to advance a business to get their endorsement and access to their resources *The Future of Purpose-Driven Branding* demonstrates how firms can

create signature programs, build their brands, and use them to advance a business brand, in order to maintain relevance and connect with future consumers.

Creating Signature Stories David Aaker, 2018-01-02 “All marketers should heed [the] advice” of this brand marketing guru in his latest book on digital storytelling.” —Joseph V. Tripodi, former Chief Marketing Officer, Subway and Coca-Cola Stories are orders of magnitude which are more effective than facts at achieving attention, persuading, being remembered, and inspiring involvement. Signature stories?intriguing, authentic, and involving narratives?apply the power of stories to communicate a strategic message. Marketing professionals, coping with the digital revolution and the need to have their strategic message heard internally and externally, are realizing that a digital strategy revolves around content and that content is stories. *Creating Signature Stories* shows organizations how to introduce storytelling into their strategic messaging, and guides organizations to find, or even create, signature stories and leverage them over time. With case studies built into every chapter, organizations will realize the power of storytelling to energize readers, gain visibility, persuade audiences, and inspire action.
